VIEWS OF LAST NIGHT'S BATTLE AGAINST FIRE THAT WRECKED PRESIDENT'S OFFICES

A view of the flames during the executive offices in the northwest corner. There were for flares, except when the President went to his office, and the flames were on the White House grounds, except for the one block west of the Executive office. The President was in bed when the fire broke out.

PRESIDENT BRAVES FLAMES TO RESCUE PERSONAL PAPERS

President left his bed and walked on the floor in the presidential suite when the fire broke out. The President said he would have to be in bed to get the personal papers he needed. He said he did not know if he had all his personal papers.

WHITE HOUSE FIRE

SIXTH IN HISTORY

Flight of President Madison Before British in 1814

Recalled by Blaze

Great fires were as common as colds when the British burned the White House in 1814. President Madison and his family were just as much to blame as the British. Madison was recalled by a message from the British. The President was in a hurry to get away, and the President's family was not as important as the British.
