MANASSE'S OPTICIAN BUILDING
 Many persons, both young and old, have eyes so imperfectly formed that they are constantly strained when in use. This strain will cause weak eyes and painful sight, which may usually be relieved with properly fitted glasses. Having a long experience in this line enables me to secure perfect results. My glasses are ground with mathematical accuracy, which compensates them in all respects. They not only give clear and distinct vision, do not weary and fatigue the eye, but tend to strengthen and preserve the sight.
 Artificial Human Eyes inserted without pain.
CAUTION.—Don't pay exorbitant prices to adventurers for Spectacles. We sell the best Brazilian Pebbles \$4.00 to \$4.50, and the best ground French Crystal Spectacles \$1.50 to \$2.50.
