GEORGIANS AID FRANK

Members of Club Here Base Hope in New Governor.

Several months ago the Georgia Club, of which William Farnum Black was president at the time, sent an appeal to Governor Slaton. Fire Commissioner Adams said that as long as there was a shadow of doubt in Frank's case, as evidenced by the dissenting opinions of Justices Hughes and Holmes, of the United States Supreme Court, the prisoner should by all means receive the benefit of the doubt.

"The next Governor of Georgia is a very able and reasonable man," said Mr. Adams. "I know Mr. Harris, and I have entire confidence that he will set alone give the case the fullest deliberation, but that he will view it from the side of human justice."

The State Department has authorized Dr. P. S. Reinsch, the American Minister to China, to declare untrue the statement that China cannot expect support from the United States in resisting Japanese demands as an interference with American treaties.

After the Japanese demands became known to Washington the United States officially informed China that they expected China to maintain her treaty obligations with America, assuring the United States favored-nation treatment.

RED CROSS MAKES APPEAL FOR AID

Report Shows Work Done Since Wilson's Request in August.

The American Red Cross, in a summary of its activities since August 1, 1914, appeals for funds to continue its work. This is the first request for financial aid since President Wilson, as president of the Red Cross, made a general request for support on August 13.

Dr. Richard P. Strong, professor of tropical diseases at Harvard University, was sent at the head of a sanitary commission to aid in controlling the epidemics of typhus fever and other diseases which already have secured a strong headway in Serbia.

Enormous quantities of supplies have been purchased by the Red Cross Equipment provided includes all possible forms of hospital and field apparatus, including nineteen motor ambulances.

Their financial statement shows a balance of \$171,843. The report states that administrative expenses are not paid from the relief fund, but are met by the American Red Cross.

A cable message from the American Relief Clearing House of Paris yesterday confirmed recent reports from Serbia, and stated that conditions there were deplorable. One hundred and two doctors have died in a light cholera contagion. The message was received by the War Relief Clearing House, at 15 Broad Street. The Paris organization also announced that 1,500,000 suits of underwear are needed in the Serbian field, besides funds for the purchase of food.

Dr. Franklin H. Martin, of Chicago, chairman of the Committee of American Physicians for the Aid of the Belgian Profession, reports that the committee has raised \$5,324 to buy drugs and instruments for needy members of their profession in Belgium.

A., for the Scotch soldiers. Leeds Johnson gave \$100 to the American Red Cross, and other subscriptions brought the day's total to \$178.76.

Will Let Rockaway Bathe. Dr. Haven Emerson, Deputy Health Commissioner, soothed the fears of the summer residents of Rockaway Beach yesterday. He wrote them all letters denying that it was the intention of the Health Department to stop bathing there this summer. One anxious inquirer wrote and asked if it was true that the department considered the water infected from cholera because of the war in Europe and the dead bodies thrown into the Atlantic Ocean. Dr. Emerson said that the department prohibited bathing in Gravesend Bay, but not on account of the war.

DENOUNCES REPRISALS

Britain Protests Germans' Retaliation Against Officers.

London, April 20.—Through Walter Hines Page, the American Ambassador, the British Foreign Office to-day sent a protest to Washington to be forwarded to Berlin denouncing the retaliatory steps Germany has taken against thirty-nine British officers as a result of the special treatment accorded thirty-nine submarine prisoners in England.

The note explains that the Germans are being humanely treated and protest the close confinement of the British officers. Virtually the only difference between the treatment of the German submarine prisoners and other German prisoners, the note says, is that the former are in the naval barracks instead of in the detention camp.

The Foreign Office still is without the names of the British officers being specially punished in Germany, the United States not yet having obtained them.
