The Conning Tower

TO BERTRAND RUSSELL

There is a fact and familiar way to win over a man to any idea you have. It is to get into his head, not his heart. There is another way, however, to make the man think about an idea. It is to get into his heart. That is the way to win over a man to your idea. It is also the way to win over a man to your plans. It is also the way to win over a man to your projects.

And there is another way to win over a man to your plans. It is to get into his heart. That is the way to win over a man to your idea. It is also the way to win over a man to your plans. It is also the way to win over a man to your projects.
