Now I understand why they used to call it 'voodoo.' In the Jeffersonian State of Louisiana, a very strange condition is being believed in by some of the people. It is called voodoo, and it is said to be caused by a demon or devil. The condition is known as 'voodoo fever' and is said to cause the victim to become insane, to lose all reason, and to act in a manner that is considered to be evil.

The patient, a woman, has been suffering from this condition for several weeks. She is said to be so possessed by the devil that she cannot be cured by any means. The doctors have tried every known treatment, but nothing seems to work. The patient has been given medicine, but it has no effect. She has been put on a diet, but it has no effect. She has been put on a strict diet, but it has no effect. She has been put on a strict diet, but it has no effect.
