Vol. II.--No. 13.

OCALA, FLORIDA, JUNE 29, 1896.

Price Five Cents

PUBLISHED EVERY DAY IN THE WEEK EXCEPTING SUNDAY.

## FLORIDA SUMMER RESORT

It is strange why many of our people will go north to spend their summer vacations when there are such resorts in easy reach and in our own state, too, as Amelia beach. Quite a number of our citizens are there now and are just delighted with the place. Among those summering there are Mrs. B. Arentz and children, Mr. and Mrs. O. T. Green and children, Mrs. J. A. Rowell and baby, and Louis Brumby. The beach is thought by many to be the finest in the state. All of the most convenient bathing apparatus is provided. There is no undertow and the prettiest bicycling on the beach that one ever saw.

The big hotel Strathmore, under the able management of Mrs. M. J. Bartlett, is all that the heart could wish. Large, cool rooms, long, shady verandas, and the best of table fare. Nearly all those connected with the house are Ocala people. Amelia beach is about two miles from Fernandina, with trains and hacks every few minutes. If you are going off to spend the summer, do not go out of the state to spend your money.

Norton & Davis, the new proprietors of the Ocala House Barber Shop, will give you as clean and easy a shave and as nice a hair cut as any barber in Ocala. Three experienced, fashionable barbers in the shop. Call and give them a trial. 3 24-1f.

Eighty-five people were fed yesterday at the Toigne restaurant. The attaches and guests of The Ocala get their meals there. Under the management of Mrs. Lamb and Mr. and Mrs. Fielder this restaurant has now become one of the nicest and most popular eating houses on this division of the road and is now a permanent fixture of the city. Every one, in speaking of the house, commends it very highly and are well pleased with the excellent fare, the scrupulous cleanliness of the place, and the first class attention shown to guests.

The Post Office drug store will give you the finest cream and best drinks in the city.

H. F. Dutton & Co. are building a railroad from Clark to Trenton, a distance of twenty miles. The road will connect Clark, on the South Florida division of the Plant System, with the Suwanee river. Scott Walker has the contract for doing the grading, and has a large force at work on the road. A rumor is current that the road, when finished, will be bought by the Atlantic, Suwanee River and Gulf railroad, which will use it as its western extension from Clark to the river.—Sumterville Times.

A. H. Meadows, at his wagon works near the F. C. & P. depot, has just finished repairing and painting a buggy which it was very difficult to distinguish from a new one. Mr. Meadows is a good carriage repairer and painter, and any one would do well to patronize him.

Harry Clarkson, the popular manager of Hubbard & MacDuff's hardware store, returned last night from Jacksonville, where he went with Mrs. Clarkson and the children, who will spend some time in that city visiting relatives.

## WHAT DOES IT MEAN?

Will the Florida Troops Be Needed?

Tallahassee, June 27.—The Assistant adjutant general of the United States has requested Adjutant General Houston to inform him what is needed by the Florida state troops thoroughly to equip them for sixty days' service.—Special to the Citizen.

The Ocala Rifles respectfully beg leave to suggest that they be provided with suits of bullet and machete proof clothes if there is any business going on.

At the Yankee Novelty Works near the F. C. & P. depot we saw some beautiful mantles made of Florida curly yellow pine. The work was very artistically done and the finishing would grace any residence.

J. A. Rowell has returned from Amelia beach, where he went with his family a week ago. He enjoyed the trip very much. Mrs. Rowell and the baby remain there for some weeks yet.

Dr. E. V. Chapin, the efficient prescription clerk at the Post Office drug store, went to Gainesville yesterday to visit his family. James Pittman temporarily filled his place.

The Montezuma, since the closing of The Ocala, is the leading hotel of the city. Its accommodations are first class and fully up to the standard of Florida hotels.

Mr. and Mrs. G. W. Wells of Hartshorn are happy over the arrival at their house of a fine baby boy. "Grandpa," Capt. G. M. Wells, is also happy.

The Ladies' Missionary society will meet at the Baptist church to-morrow afternoon (Tuesday) at half past three o'clock. A large attendance is desired.

A car of lumber was unloaded Saturday at the Yankee Novelty works to be used in that enterprising factory in the manufacture of their numerous articles.

The low wet place between Carmichael's and the railroad has been filled in with earth, which greatly improves that part of town.

A. B. Gartrell, formerly an Ocala type, but now a prosperous merchant of Atlanta, has been visiting his numerous friends in this city.

Will McConnell has returned from Savannah, where he was summoned on account of the severe illness of his mother, whom he left improving.

The weeds about the city are growing apace during the rainy weather and if our people don't mind they will get a big start of them.

Mrs. P. E. Williams and little sister, Lottie Kingman, leave soon for Ormond-by-the-Sea to spend a few weeks among the breakers and sea breezes.

Slaughter Sale of Furniture. We are closing out at actual cost our immense line of Furniture. All goods not sold by July 1 will be shipped to our branch store at Fort Myers. Call before the bargains are all sold out. F. E. BUGBEE & CO.

## FREAKS OF A CYCLONE.

"Near my old home in Marshall county, Ken.," said Mr. G. A. A. Deane, of Little Rock, Ark., at the Hotel Page, "there occurred a cyclone the other day that performed a queer feat. It struck the house of a former neighbor of mine and scattered things in various directions. A few days later he got a letter that had been carried by the wind and dropped in a small town in Nebraska, 65 miles to the northeast, and not long afterward some considerate stranger mailed him his checkbook that had been found away down in Missouri, 100 miles to the southwest.

"Now, the truth of these statements I will vouch for, as they are made by one of the most reliable men I ever knew. Why the two articles should have been carried in opposite directions I am unable to explain—it's too deep for the unscientific mind—and I commend it to some of Uncle Sam's tornado experts in Washington."—Washington Post.
