PENSACOLA, FLA., FRIDAY MORNING, OCTOBER 13, 1916.

PRICE FIVE CENTS

LARGENUMBER ARE CAPTURED BY ITALIANS

Berlin Contends Rumanians Are Retreating Along Entire Transylvania Front.

SERBIANS TAKE VILLAGE OF BROD

French and Germans Engaged in Hard-to-Hand Fighting.

BY ASSOCIATED PRESS.
London, Oct. 12.—The Italians have made additional gains toward Trieste, capturing a thousand seven hundred seventy-one prisoners, south of Gorizia.

In this region, about sixteen miles northwest of Trieste and in the Julian Alps, the Italians from August 6 to the present, report they have captured 30,881 Austrians.

On the Carso plateau the counter attacks against the Italian positions have been repulsed.

Berlin contends that the Rumanians are retreating along the entire Transylvania front, while Bucharest says the attacks at various points on this front have been repulsed.

British troops have reached the outskirts of Sere, Macedonia, London reporting that the town is strongly held by the Teutons.

The Serbians have captured the village of Brod, southeast of Monistir, Serbia.

Both Berlin and Sofia report the repulse of attacks along the Corna river.

The British have gained additional ground north of Thiepval, west of Salliyallisel.

The French on the Somme have made further advance. In the town of Ablincourt, south of the Somme, the French and Germans are engaged in hand-to-hand fighting.

ONE KILLED, SCORE WOUNDED IN BATTLE POLICE AND STRIKERS

Bayonne, N. J., Oct. 12.—One was killed, Isidor Natilsky, a lawyer who was running from the rioting, and a score wounded in a battle between the police and Standard Oil strikers late today.

There is considerable burning and looting. The situation is so serious that Bayonne merchants have closed their stores.

GEORGIA TROOPS TO LEAVE FOR EL PASO EARLY NEXT WEEK

Macon, Ga., Oct. 12.—Three regiments of infantry, a squadron of cavalry and the field hospital, about 3,500, constituting all the troops left in the Georgia mobilization camp, were ordered to El Paso tonight.

The railroads expect to have equipment to begin the movement the first of next week.

ALABAMA TROOPS ARE ORDERED TO BORDER

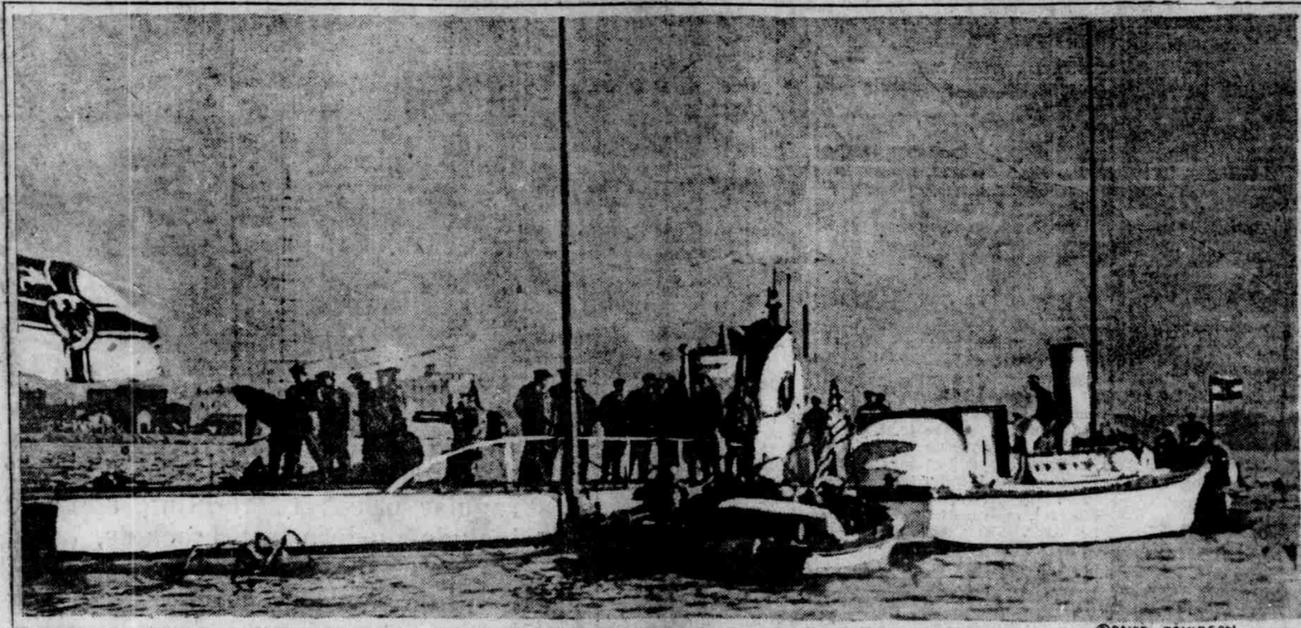

Montgomery, Oct. 12.—The Alabama troops are ordered to El Paso, the movement to begin Wednesday and get away by Friday.

A regiment of cavalry and the field hospital remains here.

EPISCOPALIANS CHEER BISHOP OF ALGOMA

BY ASSOCIATED PRESS.
St. Louis, Oct. 12.—The Bishop of Algoma, Ontario, Most Reverend George Thornloe, of the Episcopal Church of Canada, brought cheers from the general convention of the Protestant Episcopal church here today when he mentioned the canon of the Canadian church forbidding clergymen to remarry a divorced person whose former partner is living.
The canon corresponds to the one proposed in a report submitted to the convention today by the joint commission of matrimony headed by Joseph B. Cheshire, of Raleigh, Bishop of North Carolina.
The commission recommended, however, where the divorce was based on causes arising before marriage it would be no bar to remarriage, the divorce being "in fact a decree of annulment."

FIRST PHOTOGRAPH OF THE GERMAN SUBMARINE U-53

The first photo of the German submarine, the U-53, which, with other submarines, has brought the war to the coast of the United States. The U-53 is here shown as she looked in the harbor of Newport, R. I., flying the German flag and with officers and crew on deck. Officers said the U-boat is one of the largest of the German war submarines. It was a monster compared to the United States submarine D-2 which was nearby. The U-53, entirely unheralded, bobbed up at Newport Saturday, dispatched a message to the German embassy at Washington and departed, without asking for repairs or taking on a pound of supplies. Shortly afterward reports were received of the sinking of ships and other reports that followed quickly showed a raid was on that probably would be the most extensive and destructive of the entire war.

TALKS ABOUT SECTIONALISM

Wilson Replies to Republican Charge Against the Democratic Party.

BY ASSOCIATED PRESS.
Indianapolis, Oct. 12.—President Wilson today replied to the republican charge that the democratic party is a sectional party with the statement that "Any man who revives the issue of sectionalism in this country is unworthy of the confidence of the nation."

The president came here to address the meetings of the Good Roads advocates and farmers and to review the automobile parade. Crowds greeted him.

In his first speech he told what good roads had done to prevent sectionalism.

He said the man who revives sectionalism is provincial and does not know the various sections of his country. "That is the depth of anti-patriotic feeling," he said.

Mr. Wilson did not mention Judge Hughes. He said he did not want to discuss politics, but could not help referring to such a question.

He said after the war the United States must be ready with united force and with a single object. He reiterated his previous declarations in favor of the League of Nations, to maintain peace, but America's terms will be based on the maintenance of human liberty.

The second speech was devoted to a discussion of the work of administration for farmers.

EXTRA SESSION OF COTTON CONGRESS

BY ASSOCIATED PRESS.
Columbia, S. C., Oct. 12.—E. J. Watson, president of the Southern Cotton Congress, has called an extraordinary session of that organization to be held at Norfolk December 12, the same time as the annual convention of the Southern Commercial Congress.

Facts About the U-53

Here are facts about the German submarine U-53:
Is 214 feet long.
Has cruising radius of 10,000 miles on the surface.
Maximum speed is 18 knots on the surface and 10 knots submerged. Has a cruising radius of 480 miles submerged.
Carried six weeks' supplies when it left Wilhelmshaven.
Has used more than one-third of its provisions.
More than one-third of its oil capacity has been consumed.
Has six cylinder, four cycle Diesel engines that develop 1,200 horsepower.
Equipped with four 18-inch torpedoes—two forward and two aft.
Range of its torpedoes 2,000 yards.
Has two four-inch guns, one forward and one aft.
Ten torpedoes is its capacity.
Arrived in United States with only six visible torpedoes on board.

CONVICTED OF STABBING ATTORNEY STOP SIGNAL IGNORED BY A STEAMER

Doorkeeper Georgia Legislature Had Trouble With Prohibitionists' Counsel

BY ASSOCIATED PRESS.
Atlanta, Oct. 12.—G. K. Vason, doorkeeper of the Georgia house of representatives, was convicted today of a misdemeanor in connection with the stabbing of Thomas B. Felder, an Atlanta attorney, in a local hotel on August 3.

Vason was indicted for assault with intent to murder, a felony.

Sentence will be passed Friday. The maximum penalty is a thousand dollars fine and twelve months.

Felder, who was counsel for the state prohibition forces, and Vason had an altercation in the hotel hallway.

Vason said at the trial, Felder was cut with his own knife.

THIRD BURGESS SCHOOL MACHINE ARRIVES

The third Burgess school machine is at the aeronautical station, and will be assembled and tested as soon as the two others which have been ordered arrive, and a demonstrator comes from the factory.

Six of this type of machine were ordered from the Burgess factory and one was placed aboard the cruiser North Carolina. The other five have been shipped, and as stated, three have arrived at the station here.

The new craft are slightly different from the two Burgess-Dunnes now in use at the station, and designed particularly for student use. They are much simpler than the big machines at the station, and will be welcome additions to the station.

Very little practice is being done at the flying school now, and as soon as more machines arrive and the new class of students is enlisted it is expected that the school work will go forward rapidly.

City of Madras is Overhauled by United States Destroyer Sterrett.

BY ASSOCIATED PRESS.
New York, Oct. 12.—The British steamer City of Madras was overhauled off Ambrose lightship tonight by the United States destroyer Sterrett and brought back to Clifton, Staten Island, after it had ignored the destroyer's signal to stop.

The Madras cleared Monday for Singapore, but anchored off the quarantine fearful of submarine attacks.

As the ship passed quarantine tonight she was signalled by the Sterrett to stop, and when she continued was chased and brought back.

Navy mail officials here disclaim all knowledge of the Sterrett's action.

"WATCH YOUR STEP!"—FRIDAY, 13th

Look at the date. Friday, the Thirteenth.

But our fingers are crossed, and the black goblin of superstition passes by. Why they should pick out poor little Friday, of all the days of the week, to hang an old superstition on, is beyond reason. It is not her fault, nor yet the calendar's, and it was't such an unlucky day for the original, and only undiluted Friday, who found himself a home and a pretty good job, on that day, even if he did have to associate with Old Man Cruse.

And there is Thirteen; its only one more than 12, and had the reputation of being very valuable before the price of bread rose, and there was such a thing as a baker's dozen. But alackaday, it must be so, for the calendar says it is. And so we'll tremble in our boots, until midnight ushers the fatal day out.

MAY RAISE A ALLIES MAKE BROAD ISSUE NEW PROMISE

Sinking of Steamer Bound From One Neutral Port to Another Considered

BY ASSOCIATED PRESS.
Washington, Oct. 12.—Although the investigation of the recent submarine activities has apparently eased the minds of officials here, it is said authoritatively that should the situation develop a prolonged paralysis of American trade, the broad issue might be raised of transcending specific questions of international law in connection with the submarine raids.

Dislocation of shipping along the Atlantic seaboard, increases in marine insurance rates and the possibility of serious freight congestion are questions which may largely determine the government's policy.

The sinking of the Dutch steamer Bloomersdyk, bound from one neutral port to another, is being considered.

What measures Germany is contemplating against neutral trade from American ports is a matter of speculation.

CHRISTIAN ENDEAVORS OF WEST FLORIDA TO MEET IN PENSACOLA

On October 20-22 there will be a meeting at Pensacola that will be of special interest to Christian Endeavorers and to all those interested in Christian work for young people.

The convention is a part of the only interdenominational Young People's society in the churches. It has a membership numbering over 4,000,000, has 87 denominations in its fellowship and is found in every country on the globe.

Duncan B. Curry, of Jacksonville, president of the Florida Christian Endeavor Union, and Karl Lehman, field secretary of the United Society of Christian Endeavor, Boston, Mass., will be among the speakers. Mr. Lehman has a national reputation as an entertaining and forceful speaker.

"Possessed of that personal magnetism that holds an audience, and with a wit that played over the surface of sound thought, he made an agreeable and abiding impression upon his hearers."—Herald and News, Randolph, Vt., November 5, 1911.

"Karl Lehman, field secretary, bright, breezy, witty and western, skipped from state to state telling of the grand work they are doing."—Christian Endeavor World.

It is expected that all Christian Endeavor societies will send representatives and that all others interested will attend.

Will Make Every Effort to Minimize Delay in Examination of Mails.

BY ASSOCIATED PRESS.
Washington, Oct. 12.—Identical memorandums from Great Britain and France replying to the American protest against mail seizures were delivered to the state department today.

The text was not made known, but the allies are understood to have given renewed promises that every effort will be made to minimize the delay caused by examination, but insist upon certain legal rights in regard to mail which the United States has denied.

The principal American contention is that vessels have been diverted from the high seas into British ports to give the British censors jurisdiction.

There is no indication that the new memorandum makes any concessions of principle on this point.

The United States note of August 24 characterized the allies' treatment of the mails as a "lawless practice."

OKLAHOMA RIFLE TEAM PASSES THROUGH HERE

En route to the State Camp Grounds, the Oklahoma rifle team, consisting of about twenty-five officers and men and representing the entire state of Oklahoma, passed through Pensacola yesterday afternoon on a special car.

There has been a heavy movement toward the State Camp Grounds for the past several days, and quite a number of the teams from various states have passed through Pensacola on their way to participate in the national rifle contests now being carried on there. Almost every day lately two or three teams have passed through, averaging something like twenty-five to the team.

LIGHTS EXTINGUISHED ON STEAMER ADRIATIC

BY ASSOCIATED PRESS.
New York, Oct. 12.—With all lights extinguished, the White Star liner Adriatic, carrying more than three hundred passengers and eighteen thousand pounds of munitions, is believed to be tonight speeding south of this port well within the three-mile safety zone.
She left today for Liverpool, but did not follow the usual eastern route. She apparently followed the freight steamers Pannema and Minnehaha, which left earlier in the day.
The Danish steamer Helle Olav, which left earlier, however, took the eastern route.
There are four American passengers in the Adriatic's first cabin.

PENSACOLA IS GOING AFTER FEDERAL BANK

Directors Chamber of Commerce Held Meeting on the Proposition.

SENT WIRE TO SECRETARY McADOO

Endorsement of Montgomery is Withdrawn and Prospects Look Good.

Pensacola as the site for the district federal farm loan bank, is being urged on the farm loan board, of which William G. McAdoo is chairman, and the following telegram was sent to Secretary McAdoo last night:
"We hereby request that the federal farm loan bank for this district be located in Pensacola. We cordially invite your board to visit Pensacola on its southern trip. You can leave Birmingham night of October 28 in through sleeper, arriving Pensacola early morning 29th and leave either that night by through sleeper or at noon next day.
PENSACOLA C. OF C."

The plan for bringing Pensacola's claim before the board was the object of a special meeting of the board of directors of the Chamber of Commerce yesterday, at which many of the prominent business men of the city were present.

The question received much discussion at the meeting, and it was finally decided to ask the board to consider this city, while on the trip south. The former action of the board is endorsing Montgomery as the site for the bank was rescinded, as information was brought to light Thursday morning which, it is claimed, indicated that Pensacola had an excellent opportunity of securing the bank.

Additional weight was given the discussion yesterday by the fact that Jacksonville had become generally considered as being too far in one corner of the district, to afford easy access to all ports. With this belief the board decided to try to induce the farm loan board to place the bank in Pensacola.

Committee Appointed.
Although there is little time for collecting data the board decided to leave nothing undone to make as complete a showing of Pensacola's advantages as possible, and to this end a committee composed of the following members was appointed: E. R. Malone, T. A. Jennings, H. H. Thornton, C. E. Dobson, J. B. Perkins, R. W. Goodhart, J. E. Davis Yonge, W. A. Blount, W. C. Barrineau, J. S. Reese and J. D. C. Newton.

The duty of this committee consists in collecting all the available information concerning Pensacola and Escambia county, in their relation geographically and financially, to the remainder of the district. The geographical situation is of first importance, as it is considered absolutely essential that the bank for the district be located as centrally, other conditions being equal, as possible.

Capital at \$750,000.

The bank at the start will probably be capitalized at \$750,000, and its chief business is in rediscounting loans of the farm loan association. The board which has been invited to visit Pensacola is composed of the following: Secretary of the Treasury W. G. McAdoo, George W. Norris, Herbert Quick, W. S. A. Smith and Charles E. Lobdell.

It is planned to have the farm loan banks ready for business by January 1, 1917, and the importance to the state is stressed by Senator Fletcher, who places the farm loan act over all other legislation, in the general development of the agricultural resources of the nation.
