

FIRST HOSPITAL FOR WOUNDED BE LOCATED IN SOUTH

(BY GEORGE H. MANNING)

Washington, Jan. 12.—The first of the group of hospitals which the War Department will establish for the physical reconstruction and re-education of soldiers of invalided homes from France is to be located in the new building being erected for the Kenilworth Inn at Asheville, N. C.

The lease of the building has been recommended by Surgeon General Gorras and approved by Secretary Baker after a thorough investigation made by Medical Corps officers.

The war Department intends also to establish a sanitarium at Asheville, five miles from Asheville, for treatment of soldiers in France and this country suffering from tuberculosis. This sanitarium, which is planned to open with five hundred beds is to be one of four tuberculosis sanitariums to be operated by the War Department. The Asheville sanitarium may be shortly increased to one thousand beds and is expected to cost between \$200,000 and \$500,000. The other tuberculosis hospitals are to be located at Otisville, N. Y., Camp Byrd, N. M., and Denver, Colo.

at the Kenilworth Inn hospital where soldiers will be physically reconstructed and trained to new vocations men who have become seriously injured and crippled in the war with Germany will be taught useful trades. Some who have become partially paralyzed or suffered shock in service will be taught the use of the cane and facilities that are temporary.

CHILDRENS BUREAU MUST HAVE NURSING SERVICES AT ONCE

Washington, Jan. 12.—Rural districts must have nursing services, the Children's Bureau finds, if infant mortality in remote regions is to be reduced and human life conserved at this time when the nation's human resources are being wasted by war. Results of the bureau's first detailed study of the care available for babies and mothers in rural communities were made public Saturday showing that one infant in every twenty-five of the section observed failed to survive, or that four percent of all children die before they reach the age of twelve months.

The bureau's first survey was completed in a prosperous county of southern Kansas, bordering on Oklahoma. Similar studies are in progress in Wisconsin and North Carolina. The population in the Kansas county is widely scattered but no home is more than 20 miles from a doctor and telephones and good roads minimize the disadvantages of great distances.

In spite of these favorable circumstances, the report records that two-thirds of the mothers had no medical care before their children were born, and more than one-third had no visit from a physician after the day of the birth. Four-fifths of the wives of farmers had to work for large farm crews at the time when they specially needed to conserve all their strength.

While the existing death rate is comparatively low for this county, the report says: "The existing rate should not be regarded with complacency, for as Sir Arthur New home says, 'If babies were well born and cared for their mortality would be negligible. In other words there is no inherent reason why babies should die in a community which has all the advantages possessed by this county—country life, healthful climate, high standards of living, a high level of intelligence about matters of health and means wherewith to provide for its mothers and babies.'"

In other states where surveys are in progress, it has been found that poverty and remoteness with the attendant evils of which maternal and infant deaths are a striking index press with a severity unknown in this Kansas county.

Nurses, doctors, hospitals and conference centers, making available to all mothers and babies in rural counties adequate medical and nursing care are declared essential by the bureau. The Kansas county has made progress carrying out certain of the suggestions, but the next step says the report, "may well be establishment of a nursing service for the rural parts of the county."

MANDEVILLE WILL RETURN HERE FOR AIR STATION MEN

Arrangements have been completed under which the steamer Mandeville, which saw service in Pensacola after the storm of September 29, will return here to run between the air station and city for the purpose of carrying the service men to and from the yard.

The arrangement was made by the Commandant at the request of the Electric Company, which found it impossible, using all available equipment, to carry the workmen and enlisted men on the same trip.

The Mandeville was used at Pensacola for nearly a month after the storm, until complete repairs could be made to the damaged section of the Bayshore line. It met with much favor among the men stationed here, and will doubtless be hailed by them.

FRENCH OFFICER LOSES BIG SUM

After the police had been notified, and search instituted for a wallet containing a \$4,000 letter of credit and \$135 in cash, belonging to Lieutenant Proux of the French Navy, the clerk at the San Carlos hotel telephoned the police station that the wallet had been found on the desk, and it was immediately restored to its owner.

The incident occurred last Sunday and the officer was under the impression that he had left the wallet on the counter at the Western Union Telegraph office. As soon as the loss was discovered, every effort was made to locate it when the clerk at the hotel announced that it had been found.

Keeping The quality Up.

Laxative Bromo Quinine, the World-Famous Cure for Colds and Grip, is now 30c per box. On account of the advance in the price of the six different Medicinal Concentrated Extracts and Chemicals contained in Laxative Bromo Quinine, it was necessary to increase the price to a Quarter of a Century. It is used by every Civilized Nation.

SOCIETY

Nevin C. Winter, in his new book entitled "Florida, The Land of Enchantment," refers to Florida as "A State where the sun shine brightly when our Northern States are encrusted with snow and chilled by the breezes of old Boreas", and no doubt he was right about the sun shining, but probably he did not realize that the sun can shine at the same time as the breezes of old Boreas are blowing and not seem to make any impression on them at all.

The people of Florida have not had to stretch their imaginations to an unheard-of extent during the past month while trying to realize what is being suffered in the more northern states of the Union on account of cold weather, and this should make it all easier for them in the effort which is being made to conserve fuel so that the people in the more severe climates may have the benefit of a little more heat.

Even if it is intensely cold here for a few days at a time, there always remains the hope that to-morrow, or perchance the day after tomorrow, will witness the return of the balmy south winds, which bring so much comfort in their wake, and surely it is not not much to ask that the people of Florida shall burn wood to as great an extent as possible while the cold days, so that the supplies of coal may be diverted to destinations further north.

HAINES-ECONEMES WEDDING.

Miss Pauline Haines and Mr. Angelo C. Econemes were quietly married on Friday afternoon at 2 o'clock. For the present they will make their home with Mrs. Merrill Henderson, cousin of the bride.

AERONAUTIC DANCE LAST NIGHT.

The dance which was given last night by the Aeronautic Dancing Club may not have been quite as large as the one on Christmas night, but it certainly was quite as jolly, and everybody enjoyed a very pleasant evening. The crowd was a very congenial one, and the music was splendid, and what more is needed to insure an enjoyable time.

PERSONAL MENTION.

Friends of Mr. and Mrs. Theo. Muller of 1416 E. Gadsden street will be very sorry to hear that their little son, Lucius is very ill.

MISSES DENSMORE LEAVE FOR CHICAGO.

Misses Gladys and Marie Densmore left yesterday for their home in Chicago, after spending several weeks at the San Carlos Hotel with their father, who is attached to the Naval Air Station. On Friday afternoon they entertained a number of their friends with a tea on the mezzanine floor of the hotel.

MISS PADERICK ENTERTAINS AT CARDS.

Miss Ethel Paderick entertained very delightfully at her home on West DeSoto street on Friday evening, her guests including a number of town girls and young men from the Naval Air Station and Fort Barrancas.

THE OUTBURSTS OF EVERETT TRUE

By CONDO

Cards were played during the evening, after which delicious light refreshments were served, and those whose enjoyed the pleasant evening with the young hostess were Miss Beatrice Howe, Miss Fanny Grant, Miss Valerie Reese, Miss Rowena Marsh, Miss Martha Skinner, of Los Angeles, Cal., Miss Eleanor Mitchell, Miss Beth Brownson, Miss Elizabeth Bell, Lieuts. Ines, Hickey and Cro-

mack of Fort Barrancas, and Van Roy Miller, Mack Speed, Yank Gage and Townsend Birdsall of the Naval Air Station.

CIRCLE NO 3 BAPTIST CHURCH TO MEET.

Circle Number 3 of the First Baptist Church will meet on Monday afternoon at 2 o'clock at the residence of Mrs. L. E. Duriam, 28 East Brainard street.

No waste by cows or in handling

Mr. J. L. Acree, Dothan, Ala., says that he would use Buckeye Hulls at the same price as old style hulls because Buckeye Hulls are easier to handle, cleaner, and because cows do not waste them as they do old style hulls. He believes that at least a third of the old style hulls are wasted by the cows and in handling.

when wet, mix so thoroughly and uniformly with the other forage that the cows can't nose them aside. Being sacked, they keep clean in the barn. Being compact, concentrated, solid roughage, it is easy to measure them out accurately and mix them properly with the other feed. And yet with all these advantages, Buckeye Hulls sell for several dollars per ton less than old style hulls.

To secure the best results and to develop the ensilage odor, wet the hulls thoroughly twelve hours before feeding. It is easy to do this by wetting them down night and morning for the next feeding. If at any time this cannot be done, wet down at least thirty minutes. If you prefer to feed the hulls dry, use only half as much by bulk as of old style hulls.

Book of Mixed Feeds Free

Gives the right formula for every combination of feeds used in the South. Tells how much to feed for maintenance, for milk, for fattening, for work. Describes Buckeye Hulls and gives directions for using them properly. Send for your copy to nearest mill.

ASCARETS SELL TWENTY MILLION BOXES PER YEAR

Best, safest cathartic for liver and bowels, and people know it.

They're fine! Don't stay bilious, sick, headachy or constipated.

Enjoy life! Keep clean inside with Cascarets. Take one or two at night and enjoy the nicest, gentlest liver and bowel cleansing you ever experienced. Wake up feeling grand. Your head will be clear, your tongue clean, breath right, stomach sweet and your liver and thirty feet of bowels active. Get a box at any drug store and straighten up. Stop the headaches, bilious spells, bad colics and bad days.—Brighten up. Cheer up. Clean up! Mothers should give a whole Cascaret to children when cross, bilious, feverish or if tongue is coated—they are harmless—never gripe or sicken.
