

Do You Pay 66¢ for Sirloin Steak? — or 33 Cents?

We serve all tastes

A recent Government bulletin quoted sirloin steak in different cities at prices ranging from 33 to 66 cents!

We buy live cattle, according to quality, all the way from \$7.00 to \$20.00 per hundred-weight, live weight. Sirloins from these cattle vary greatly in quality.

Some retailers sell 33 cent sirloins. These steaks come from cheaper cattle.

Customers of other retailers demand choice sirloins at 66 cents. These retailers buy meat from higher-priced cattle.

Also, the retailer who carries complete stocks, delivers to your door, and lets you run a charge account, has to get higher prices than the retailer who runs a "cash and carry" store.

We sell beef of a given quality at practically the same price all over the country—except for slight differences due to freight rates.

And our profit hardly affects the price at all—only a fraction of a cent per pound.

METHODISTS WILL SPEND THIRTY-FIVE MILLION DOLLARS

"Thirty-five million dollars! That's a lot of money. What will you do with it after you get it?"

This is the question that was asked by a well known southern banker of a Methodist layman who had been telling him of the Methodist plan to raise \$35,000,000 in the southern states in an eight-day drive May 18-25. The question was one of dozens of similar queries which have been made to the leaders of the centenary campaign regarding the drive and, because people seem interested to know where the thirty-five million dollars is going here's the story, straight from headquarters, and every word true.

To begin with, the thirty-five million will be raised entirely by Methodists. No one outside that church will be solicited for a cent of it and unless a man happens to be a member of a Methodist congregation, he will not be asked to donate anything towards the cause. If he feels particularly friendly towards Methodism and the things which his Methodist friends will do with the money he is, of course, privileged to give what he care to but, otherwise, every cent of the \$35,000,000 will be raised by the mem-

Stop the "Snuffles"

If you want to make your distressed babies easy and comfortable, give **Foley's Honey and Tar**. It is just what they ought to have for feverish colds, coughs, "snuffles," and wheezy breathing. It stops cough, too. **Foley's Honey and Tar** tastes good and the little ones like it. It contains no morphine, chloroform or other drug that you wouldn't like to give to young children. Do not accept a substitute. Mrs. B. H. Garrett, Schoolfield, Va., writes: "My baby was stricken with a severe cough and cold at one month old. I gave him ten to fifteen drops of **Foley's Honey and Tar** every three hours and it surely did help him. He hasn't been sick a day since." Sold Everywhere.

bers of the Methodist church. The Methodists say they can do it and from the way they have lined up their teams and outlined their plans it looks as though they might more than do it by the closing date of the drive.

Working from the viewpoint of the optimist who is assured he is going to get what he goes after even before he goes after it, the Methodists have outlined a really rather wonderful survey which contains every detail of their plans for spending the thirty-five million. The survey is done into neat form in a large, square book containing one hundred and eight pages and these books have been sent broadcast over the south. The church is working on the great democratic theory that there are to be "no secret pacts" and the spending of every one of those three billion five hundred million cents is accounted for. We will not attempt to account for all of these pennies here, because even the friendliest member of the Fourth Estate isn't willing to turn over his entire newspaper to one article. But, for the benefit of that enquiring banker—and the ten thousand other enquiring people in his city—here is a quickly summed-up outline of what southern Methodists will do towards rebuilding the world.

Starting at home, as every great movement should do, the Methodists will spend over seven million dollars in the southern and southwestern states. This will be divided between the following forms of work: Mountain, immigrant, negro, Indian, cotton mill people, increasing salaries of underpaid pastors, in the promotion of Christian literature for all of them, and in various forms of city and rural work. In the inaccessible districts—the great plains of the west, the isolated mountain regions, the swamp lands—in places like these little mission schools will be "set up"—schools where children who, otherwise, would have no opportunity, will be taught Christianity and arithmetic at one and the same time. The fact is, the drive means for children like these the addition of a fourth "r" to the curriculum—"reading, riting, 'rithmetic and right-cousness," being the foundation of the church's plan for establishing their mission schools.

The leaders of the movement declare that this educational program of theirs will go further towards ridding the next generation of the menace of Bolshevism than any other thing they know of because education, permeated with Christianity, means that those who receive it will become good citizens in the largest and the best meaning of the word. This educating of the negro, the mountain white, the immigrant and the Indian is one of the real services which they can do for their country, Methodists declare, and they are going about doing that service before America becomes embroiled in the unrest of Europe.

In addition to the mission schools which they will establish, southern Methodists will spend a large part of their thirty-five million on settlement houses in the down and out districts of the large cities of the south. Plans for the various forms of settlement work which the Methodists will do, includes work for the negroes through their Bethlehem houses, work for the mill operatives through their Warfata Settlements, and innumerable other enterprises for taking care of the derelict and down-and-outs in the cities of the south. Several very large settlements will be built and others already established enlarged in practically every state in the south. Churches will be built in both the city and rural districts and the circuit rider, in particular, will receive a more livable salary. One of the most important and unique phases of uplift which the Methodists will undertake as a result of the centenary will be an itinerant school for Indians, where the sons of former "braves" can go, after camping fashion, and learn hygiene, spelling and religion at one and the same time.

ANNUAL REPORT OF CHURCH PENSION FUND IS ISSUED

New York, May 12.—The first annual report of the church pension fund of the Episcopal church, issued today, shows that the total resources of the fund amount to \$10,772,859.51. This makes the church pension fund one of half dozen largest pension granting corporations in the world.

In the first two years of the fund's operation, the Episcopal church paid nearly \$1,200,000 for old age and disability pensions for its clergymen and their widows and orphans. This is the amount of assessments paid into the fund by parishes and missions in the United States and foreign field since it started on March 1, 1917.

MR. FAMILY MAN:

Why Spend So Much Money on Shoes?

Here is what Tracy Munson of Joplin, Missouri, says of **Neolin Soles**: "Judging from my own experience, they wear four times longer than other soles and have the additional advantage of being waterproof and slip-proof."

Why continue to wear extravagant old-fashioned soles when you can get these money-saving, long-wearing soles on new shoes in any style you like for any member of the family? Good shoe stores everywhere carry them.

And don't throw away your old shoes. Have them re-bottomed with **Neolin Soles** and enjoy the comfort of a re-soled shoe which is not stiff or clumsy. **Neolin Soles** are a discovery of Science, and are made by The Goodyear Tire & Rubber Co., Akron, Ohio, who also make **Wingfoot Heels**—guaranteed to outwear all other heels.

Neolin Soles
Sole Mfg. Co., U. S. Pat. Off.

The church originally subscribed \$5,712,000, to start the church pension fund and to insure pension protection to clergymen already in office. The fund now embraces 8,000 parishes and missions and more than 5,000 clergymen.

Of the total resources of the fund, \$1,600,000 has been invested by the treasurer, J. Pierpont Morgan, in second, third and fourth Liberty bonds.

The pension grants in force at the end of the fiscal year covered by the first annual report amount to \$275,465.06. Monell Sayre, secretary and manager of the fund, points out in his report that the assessments paid into the fund during the first two years were 98.6 per cent of all possible payments. This, he says, is probably unprecedented in pension experience in a system where there is no legal compulsion to pay the assessments.

The original subscription of \$5,712,000 has been paid in to the extent of \$6,414,209.63. The balance falls due up to 1922. With the assessments the total resources of the fund actually on hand amount to \$8,444,181.67.

Three million dollars have been set aside to effect mergers with other church relief funds in order to centralize this work and eliminate further demands upon the church for relief for clergymen and their families.

ELEVEN NATIONS ARE ENTERED FOR THE ALLIED GAMES

Paris, May 10.—Eleven of the allied nations, almost half of them, have already notified the Inter-Allied Games Committee that they will send representatives to participate in the Inter-Allied Games to begin here July 1st, under the auspices of the Y. M. C. A. and the A. E. F., according to an announcement by Elwood S. Brown, Y. M. C. A. Chief Athletic Director in France.

These countries range in size from the Commonwealth of Australia down to the Kingdom of the Hedjaz, and include Belgium, France, Italy, Greece, Roumania, China, Poland, Brazil and the United States. Australia has announced that she will compete in all the sports.

Seven more governments are expected to announce their entry into the great competition shortly. These include Great Britain and Canada, who have not yet decided on the manner of their entry; Czechoslovakia; Japan, Portugal, Serbia and Siam. These, with the nations who have already announced their entry, will comprise the total of the nations who participated actively in the fighting. Brazil, while not sending troops to France, had a great number of sons in the Portuguese army.

JOLLY PARTY SPENDS DAY ON PERDIDO BAY

A jolly crowd of young people left the city early on Sunday morning, motoring to Inary's Point, on Perdido bay, reaching there about noon.

A most enjoyable day was spent in crabbing, kooking and motoring through the country. At 3 p. m., a most delicious luncheon was enjoyed by the party.

Later in the afternoon, Messrs. Geo. and William Key took the crowd on their launch Sea Gull 290, for a motor trip to the Gulf beach, and there many beautiful shells and other curiosities were found and kept as souvenirs of the day.

Late in the evening the party returned to the city much refreshed after a most enjoyable day of pleasure on the Gulf beach.

The party embraced Misses Jessie and Ruth Resmondo, Mary Ellen Suarez and Hazel Richardson, and Messrs. George, William Ives and Fletcher Key and Sidney Resmondo.

75 PER CENT OF MAN'S ILLS HAVE ORIGIN IN STOMACH, SAYS EXPERT; OFTEN AFFECTS KIDNEYS, BLOOD AND NERVES

HEALTH EXPERT FIGHTS DISEASE WITH SIMPLE ROOTS, BARKS, HERBS AND BERRIES
MANY PEOPLE TESTIFY

"A good digestion and a strong, healthy stomach, are absolutely indispensable to health and comfort," says noted health teacher, demonstrating the marvelous medicinal properties that exist in **Draco**. "The slightest derangement of the stomach interferes more or less with all the succeeding process of digestion and seriously impairs nutrition. Stomach trouble in its various forms produces a never ending trend of physical disorders; it frequently causes diseases of the liver, kidneys, blood and bowels, brings on severe headaches, nervous ailments and heart afflictions. It makes the patient irritable and melancholy, spoils the appetite and undermines the strongest constitution.

In diseases of the stomach some of the following symptoms are usually present: "Bad breath, sick headache, giddiness, disturbed sleep, bitter taste in the mouth, loss of hope, courage and energy, uneasiness, fullness and gas in stomach, constipation, diarrhoea or piles.

the newspapers that it helped my friend, Mr. Basinger, so much. I expect to take half a dozen bottles of **Draco** before I stop and feel that I will be permanently cured."

Had Lost Faith in All Medicines.

"I had tried so many medicines without results that I lost faith, but I read so much in the newspapers about **Draco** that I decided to try it and see if it would have any effect on my stomach trouble," declares Mr. W. D. Branson, the well known and highly respected resident of Kernersville, N. C., in a signed statement. Continuing he says: "**Draco** is different from all the others and the first few doses helped me and soothed my stomach and stopped the gas. I eat anything I want now and never have that full-up feeling nor the burning gas sensation. My kidneys are also much better and I don't have to get up during the night as I formerly did. **Draco** is certainly fine and I am glad for you to publish my case for it may help some one else get well who reads it."

Draco is now being regularly used in the households of thousands of southern families. It is the one medicine you can count upon to bring permanent results because it does not treat the symptoms of sickness, but goes direct to the CAUSE and builds up from the bottom.

Its ability to relieve those ills that seem to be peculiarly the misfortune of women is overwhelmingly proven by innumerable testimonials.

They Said I Had Kidney Stone.

From C. L. Teal, a machinist at the Proximity Mills, near Greensboro, N. C., comes the following story: "I have been suffering for years and the doctors said I would not live six months longer if I wasn't operated upon. They made an X-ray picture and said I had a kidney stone. I have spent between \$500 and \$500 trying to get cured but two bottles of **Draco** have done me more good than everything else put together. I suffered such pains in my back that I could not bend or stoop over. When I had taken three quarters of the first bottle of **Draco** every pain had left me. The reason I bought the first bottle was because I saw in
