

The Whisper That Comes in the Night

The Glorious Knowledge Women Gain When a Wonderful Thought Steals Over Them.

Happiness in its most thrilling degree comes to woman with the thought of possessing a baby.

Every woman in the joy of coming motherhood should prepare her system for the unusual strain. Three generations have found the tried and reliable preparation, Mother's Friend, of the greatest help at such a time. By its daily use throughout the period, the skin of the abdomen is made soft and elastic, expanding muscles relax easily when baby arrives and pain at the crisis is in this way avoided.

The inflammation of breast glands is avoided.

Obtain from your druggist, by all means the greatest preparation which science has offered for so many years to expectant mothers.

Write the Bradford Regulator Company, Dept. D, Lamar Building, Atlanta, Georgia, for their helpful and interesting Motherhood Book, and begin the use of Mother's Friend. It is for a eternal use, is absolutely safe and wonderfully effective.

And remember, there is nothing to take the place of MOTHER'S FRIEND.

VOX POPULI

A TEACHERS' UNION.

At a recent meeting of the City Teachers' association the members were reminded that a "teachers' union" movement is growing all over the country, and educators were advised to give thought and study to this subject, before the opening of another school term.

In view of this interest the following open letter to the Times-Picayune is published in The Journal, by request of a Pensacola teacher:

The union movement among teachers is growing. Why? Because teachers are beginning to realize the value of co-operation and organization. They are really beginning to feel and know that in union there is strength.

But for what do they want strength? Chiefly to obtain their rights to life, fair-minded public surely is liberty and the pursuit of happiness. A fair-minded public surely is able to estimate how little of these three necessities a teacher gets.

Truly, no one has yet been deprived of her life for teaching, but sometimes

in vacation, when there is no pay forthcoming, it is something of a struggle to keep body and soul from parting company. But it behooves us to ask ourselves: "Have teachers an abundant life?"

Liberty? What more liberty do they need? Just a voice in the administration of affairs, the privilege to meet with the school board and, in a comely-us-reason-together attitude, work for the good of the schools. Surely that is the more democratic way.

And the pursuit of happiness? Again the problem of income raises itself. Can a person catch much of a glimpse of happiness if she is all hobbled up with the high cost of living and the low rate of increase in salary?

But what has the union to do with this? Well, the little whine you wailed to your fellowteacher, joined with all the others in a union will have some volume, and the public will hear.

But has the public been deaf? Oh, no! But the voice of the teacher has been weak. In the union, it will become strong; in its strength, it will state its rights; in its rights, the people will believe. HUMBLES.

RECOMMENDED BY UNCLE SAM FOR MALARIA

Quinine, One of the Three Ingredients of the Famous Malaria Medicine, Dr. Williams No. 101 Tonic.

The nited States Public Health Service at Washington recommends quinine for malaria, to which every reputable physician agrees. This is one of the ingredients in the popular malaria medicine, Dr. Williams No. 101 Tonic, which is prescribed by quite a number of prominent physicians throughout the malarial belt. They say they get better results from it with their patients than if they prescribed straight quinine. Dr. Williams No. 101 Tonic not only contains quinine, which kills the malarial germ, but also iron, which is a splendid tonic and increases the appetite. The third ingredient is magnesia, which regulates the bowels. Dr. Williams No. 101 Tonic is therefore a well balanced efficient remedy. Try a bottle. Your druggist can supply you.—(adv.)

Beauty More Than Skin Deep.

There is an old saying that beauty is only skin deep. That may be so with those who get their beauty out of a box but not the genuine sort. Beauty is really only another word for good health and no woman who is bilious and constipated can reasonably hope to be beautiful. Chamberlain's Tablets will correct these disorders, then with proper diet and exercise there is no reason why any young woman with regular features may not hope to be beautiful.—Adv.

mencement exercises at the Myrtle Grove school last night.

Final examinations are in progress this week at the high school. It is perhaps understood by most citizens that only those pupils whose grades for the year fell below 85 are required to stand final examination, and the test counts one-third and the year's work two-thirds in the result. It is the aim of the teachers to make these final tests fundamental and thorough.

As They Come Marching Home

THE two armies are marching home—Uncle Sam's Army and the Salvation Army. The boys in khaki are being demobilized—the Salvation Army is staying right with the boys till they find their places again in civilian life. Uncle Sam's job is ending, but the Salvation Army will "carry on" its warfare against poverty, disease and degradation. And it needs your help.

We have the men and women. We have a smooth running, economical organization; we have the will and ability to serve. We need one thing more—money.

You could not go "over there" to carry comfort and friendliness to the boys in billets and trenches, but your support made it possible for us to go. Ask the boys what they think of the Salvation Army—its service and doughnuts. You may not be able to go into the slums and tenements to carry cheer and hope and food and fuel and coal. We can. We will—if YOU will send us.

The war has taught the whole world new methods of business efficiency. It has taught us. We have learned that the tambourine lassie, instead of begging for pennies, must be put to more important tasks. She is to be relieved of her begging. We are going to have a national drive for the \$13,000,000 we need to carry on our work for the coming year.

Think of the demobilized soldiers who need our help—and give. Think of the city slums broiling under the summer's sun—and give. Think of the thousands of men who are "down" (but never "out" to us)—and give. Think of the wretched, the friendless and forlorn whom we succor. Think of the barren hopelessness of dreary tenements with bitter winter rattling the broken window-frames. Think of the outcasts and wayward—the prodigal sons and daughters whom we rescue and restore. Think of US doing YOUR work as your agents for

"I was hungry and ye gave me to eat, I was thirsty and ye gave me drink, I was a stranger, and ye took me in, naked, and ye clothed me; I was sick, and ye visited me; I was in prison, and ye came unto me."

Think well on these things—GIVE—GIVE!
