

YOU'RE A FINE FISHERMAN
 when you're lucky. When they don't bite—good night.

Same with shirts—if it's fast—everything's fine. If it runs, the store that sold it catches your scorn and loses your society.

We know the angles of human nature—one reason we stick to Metric shirts season after season.

They are fast in color—faultless in fit. You take no chances when you buy them nor do we when we sell them.

Summer's newest patterns in Madras, Percale and Silk—your size.

SHOWING FOR PENSACOLA IN CLEARINGS GOOD

FEDERAL RESERVE DISTRICT REPORT SHOWS BUSINESS CONDITIONS THROUGHOUT SOUTH IMPROVING.

Bank clearings in Pensacola during the past month compare most favorably with other cities of equal size and larger in the Sixth Federal Reserve district, as will be seen from statistics published below. The report on business and agricultural conditions in the district by Jos. A. McCord shows many interesting facts.

Reports from practically all sections of the district indicate that business in almost all lines has continued active during the past month. The retail trade is still on the increase, and wholesale merchants also report an increased volume of trade. This applies to all lines, but especially is it true with regard to the dry goods business and to those lines which during the period of the war were more or less restricted. A large increase has been noticeable in the number of sales by automobile houses and jewelry houses.

The Victory Liberty loan has been over-subscribed and with the assurance that this is the last public loan, business men and bankers are laying the foundation for a period of extended and extensive activity in all lines of industry. Deposits in some instances are reported to have decreased due to payments on Victory notes, while in other cases large increases in deposits are reported. Interest rates remain steady. There has been some liquidation of discounts as a result of scattered sales of cotton.

Since the signing of the armistice, both the export and import trades have been increased considerably. The shippers as yet are still governed by government allocations, and are unable to make bookings for foreign destinations. In spite of this, however, large shipments of grain, lumber, cotton and foodstuffs are being made. Inland shippers are handicapped as the railroads refuse to accept freight for foreign destinations until cargo space is assured. Relief is promised in the form of more ships in the near future, and in this event trade conditions will be better than ever before. Central American trade is also hampered by lack of ships, but in spite of this large quantities of coffee, sisal and tropical fruits, especially bananas, are being imported.

Considering the district as a whole, business conditions may be considered very satisfactory. The readjustment to peace conditions is taking place, though slowly and with caution. With the declaration of peace, and the lifting of all embargoes on exportations, it may confidently be expected there will be a demand for all of the things that we can produce or manufacture, certainly for a considerable length of time.

RHEUMATISM LISTEN!

Ask Any of Our Home Druggists for the Prescription of a Noted Specialist—C-2223

Costs Little—Dose Indicated on Prescription Pasted on Bottle. Glorious News.

It costs a good deal to consult a specialist now-a-days, but his prescription for rheumatism can be had at any of our home prescription druggists at slight cost, by asking for the number—C-2223. It is liquid, taken internally as per dose pasted on the bottle. One of our down-town druggists says C-2223 quickly drives out of your system all the uric acid and impurities that cause rheumatism. At the same time the blood is made pure and rich. If any of our readers suffer from bone pains, swollen muscles or joints, backaches, pains all over the body, dizziness, lumbago, or any form of rheumatism or blood poison are advised to ask any of our home prescription druggists for Prescription C-2223. We can never tell the good it will do us until we try it. We understand our home druggists will give us back the slight cost of C-2223 if it don't benefit us, so it seems well worth while trying.

NOTICE.
 If your own druggist can't supply you please send his name to C-2223 Laboratories, Memphis, Tenn.—Adv.

BRANDING A FALSE STATEMENT

—In presenting Theda Bara in "SALOME" to the people of Pensacola, we offer it as an absolute first run attraction. Any statement to the contrary is a falsehood.

TOMBOY! TOMBOY!
 It wasn't "Puckers" fault that she could scamp and climb like a regular boy. You see, the old fossils of her town had no use for "Pop." It was the simple life for them, and a girl with winking eyes and tantalizing smiles was as popular as a potato bug.

That's why they called her the "pest." She was always in the way! One smart aleck tried to pick a fight with "Puckers." He got the worst of it. Another tried to make her the "goat"—and she bucked.

TODAY
 —we present—
