## TO HAVE GOOD HEALTH YOU MUST HAVE PURE BLOOD

Rheumatism, Gout and Similar Diseases are Caused by Bad Blood

Drive Out the Impurities, Purify the Blood. Take Prescription C-2223.

When you suffer the agony and torture of rheumatism, gout, lumbago, lame back, or similar diseases, you of course want relief and want it quick. Liniments, poultices and dopes will sometimes stop the pain for a few minutes—but the pain comes back sometimes worse than before. To get real and permanent relief you must go to the seat of the trouble—use an internal prescription that is reliable, one that not only drives out the impurities that cause the disease and suffering, but enriches the blood. Prescription C-2223 is a remedy that was originally prepared, used and recommended by a successful doctor. It not only eradicates the poisons but builds up and enriches the blood. It has relieved thousands and should relieve you.

Do this. Go to your druggist today. Buy a large \$1.50 bottle of Prescription C-2223. Take at least two bottles according to directions, and then if you are not satisfied with the benefits received, return the empty bottles to your druggist and he will give you your money back. Write C-2223 Laboratories, Memphis, Tenn., for literature.—Adv.

## ACCORDS HAWKER GREAT OVATION

Thurso, Scotland, May 26.—Harry G. Hawker and Lieut. Commander Grieve were warmly received today when they landed from the torpedo boat destroyer at Scrabster pier, two miles from Thurso. The senior naval officer and parish councillors welcomed the aviators officially. "It was at this landing stage that Lord Kitchener said farewell to the land he loved and now we shall also know it and mark it as a place of wonderful welcome to two brave sons of the empire," said Provost Mackay.

## COTTON MEN WILL PROBE FOREIGN TRADE

The American cotton manufacturing industry for the first time in its history is sending a commission to Europe to investigate textile conditions on the other side of the Atlantic, to discuss with European textile manufacturers international relations between the textile industries in various parts of the world, and particularly to stimulate interest in the World Cotton conference to be held in New Orleans next October. This commission sailed from New York a few days ago, and is now on the high seas. It is going to Europe under the auspices of the executive committee of the World Cotton conference, and is certain to arouse worldwide interest in the great meeting of cotton men to be held in New Orleans in the fall.

The full delegation will be in Europe over two months, and some members of it will be there three months. The entire commission will visit Liverpool, Manchester, London, Rotterdam, Brussels, Ghent, Lille, Havre and Paris. In order to "cover" all of the leading textile countries of Europe which are accessible, the commission will break up into several sections after visiting the centers named, and these smaller parties will visit Italy, Switzerland, Portugal, Spain and Scandinavia.

The commission consists of eleven leaders in the American cotton industry. Fuller E. Calloway, president of the Manchester Mills, of La Grange, Georgia, is chairman; Walter Parker, secretary of the Association of Commerce of New Orleans, vice-chairman; and W. Irving Bullock, of the Merchants National Bank of Boston, secretary. The other members of the commission are: Alpheus Crosby Beane, Beane Brothers, New Orleans; James T. Broadbent, agent Meritas Mills, of New York city; Harold M. Runce, treasurer Boston City Manufacturing Co., of Fall River; George L. Gilmore, of Gilmore & Co., of Somerville, Mass.; James Inglis, of the American Blower Co., of Detroit; A. W. McLellan, of the Alden Cotton Mills, New Orleans; Russell H. Love, president Parkhill Manufacturing Co., of Fitchburg, Mass.; and John E. Rousmaniere, president of J. Spenser Turner Co., of New York city.

The upheaval in manufacturing costs and in international trade, the crippling of the textile organizations of France, Belgium and Russia, and the rapid rise of the Japanese textile industry are some of the effects of the war which have stirred up textile manufacturers to a new interest in international affairs relating to their industry. While the commission is in London it will confer with the representatives of the English spinners who are soon to visit Japan to obtain first-hand data on the remarkable expansion and prosperity of the Japanese cotton spinning industry. In each of the various

countries which it visits the commission will discuss comparative manufacturing conditions with the leaders of the industry in that country, so that the members of the commission and the European manufacturers with whom they confer may both have a clearer idea than at present as to tariff changes which each country should make. The world labor program adopted by the peace conference at Paris is another subject regarding which the representatives of the American industry will make inquiry.

The investigation which the commission will make and the discussion into which it will enter with the European textile manufacturers will be preliminary to the deliberations of the World Cotton conference in October. Having in this way obtained the points of view of the foreign spinners, the committee which has charge of the plan of the World Cotton conference is expected that as a result of the visit of this commission to Europe, there will be large delegations from practically all of the important textile manufacturing countries of the world at New Orleans next fall.

GET INSURANCE Secure your food supply by sending a two-cent stamp to National War Garden Commission, at Washington, for the garden book.

## 666 HAS PROVEN IT WILL CURE Malaria, Chills and Fever, Biliousness, Loss of Appetite and LaGrippe. It kills the parasite that causes the fever. It is a splendid laxative and general Tonic.—adv.

Insurance is a goodly thing, you've heard th' agents gally sing, 'twill fill your system up with sand, to have a policy in hand. This man who on his knees you see, had he insurance? No-sir-ee, he never saw beyond his nose, and now behold his awful woes. If he had had policy, he wouldn't be afraid you see, he'd know his folks would get th' cash, when dog had made him into hash. And so he pleads for one more chance, his worldly wisdom to enhance, and if 'tis granted you will find he'll be a man o' different mind. He'll take his garden rake and hoe and out into th' garden go, and there by honest, pleasant toil, insure his livin' from th' soil. This good, home-made insurance plan is open now to every man, you simply join th' garden club and you're assured your daily grub. Th' charter's open every day, you do not have a cent to pay, no goat to ride or pledge to take, except to handle hoe and rake.

## SEN. FLETCHER WOULD REPEAL DAYLIGHT LAW

FLORIDA'S SENIOR REPRESENTATIVE IN CONGRESS SAYS WAR TIME MEASURE HAS SERVED ITS PURPOSE.

BY GEORGE H. MANNING.

Washington, May 28.—Senator Duncan U. Fletcher, of Florida, will vote for the repeal of the daylight saving law, when the matter comes up in the senate, he stated today. The repeal of this law was provided for in an amendment to the agricultural appropriation bill which was talked to death, along with nearly all other appropriation bills except the rivers and harbors bill in the republican filibuster last March.

"I realize that the daylight saving law served a useful purpose during the war in the saving of light and power, and in many parts of the country it would undoubtedly be well to continue it," said Senator Fletcher. "But congress cannot, of course, continue it in one section and repeal it in another, and the law was justified as an extraordinary exercise of power incident to the conservation of the national resources during the war. I have not reached the point, where because it may be desirable for some parts of the country sometimes to follow a certain policy. I believe it should be imposed upon all the people all the time by act of congress.

"The action of the interstate commerce commission in placing most of the state of Florida in the eastern time zone, which I do not criticize, has already put the people east of the Apalachicola river one hour ahead of their accustomed time, and when another hour is added by virtue of the daylight saving law from March to October, it works too great a hardship on the farmers and the laboring people, as well as many merchants and other business men, and I shall accordingly vote for the repeal of the law insofar as it provides this additional 'hour of daylight,' the emergency which justified it having passed."

Beauty More Than Skin Deep. There is an old saying that beauty is only skin deep. That may be so with those who get their beauty out of a box but not the genuine sort. Beauty is really only another word for good health and no woman who is bilious and constipated can reasonably hope to be beautiful. Chamberlain's Tablets will correct these disorders, then with proper diet and exercise there is no reason why any young woman with regular features may not hope to be beautiful.—Adv.

## SKIN ABLAZE WITH ECZEMA

CONSTANT ITCHING ALMOST UNBEARABLE

Only those afflicted with Eczema, with its terrifying irritation and ceaseless itching know what constant torture this disease can cause. The disease appears in different ways, sometimes with a reddening and irritation of the skin, sometimes in the form of blisters. Other cases of Eczema take the form of a dry, scaly condition of the skin that cracks and peels. But no matter in what form the disease appears, it is a source of constant fiery irritation that is well-nigh unbearable.

Eczema is very often considered a skin disease. This is a natural mistake, as it attacks the skin and it is through the skin that it causes so much discomfort and suffering. But the real seat of the disease is the blood. The germs of Eczema are in the blood and the irritated and diseased condition of the skin is the result of the germs trying to break out of the system. Beyond the use of anti-septics to promote cleanliness, there is no local treatment that will accomplish a permanent cure of this disease. And those who have been relying altogether upon salves, soaps, ointments and other local applications to the skin will find that no permanent good will come from such treatment by itself.

Read how Basil M. Lanheau, who resides on Confederate avenue, in Atlanta, Ga., found relief from this terrifying disease after all local treatment had failed. He writes:

"I suffered with a most aggravated case of Eczema the itching being so severe that I could not sleep. I used thirteen pounds of ointment, tried nearly every skin remedy, besides being treated by two skin specialists. I am now convinced that Eczema is nothing but a blood trouble, for after taking several bottles of S. S. S. I am entirely cured."

Years of untold suffering can be avoided if the real cause of a disease can be definitely determined, and the proper method of treatment employed. Hence those afflicted with Eczema will continue to suffer as long as they consider the disease a condition of the skin, and rely solely upon local applications of salves, ointments and similar remedies. If you really want to be cured you must realize that the disease is in the blood, and you can expect relief only from treatment that is directed toward cleansing the blood of the disease germs. This is why S. S. S. is so successful in the treatment of Eczema and all other diseases of the blood; because it acts as an antidote to any impurity that finds lodgement in the blood. Being purely vegetable and guaranteed not to contain a particle of mineral substance, it is an exceptionally fine tonic, and besides eliminating from the blood all traces of impurity, it builds up and strengthens the entire system at the same time.

We invite everyone afflicted with Eczema or other blood or skin disease, to write our medical department for advice, which is gladly given without charge. Full instructions as to how to treat your own individual case will be gladly furnished by our chief medical adviser, who is an expert on these diseases. Address Swift Specific Co., 407 Swift Laboratory, Atlanta, Ga.
