

"Virginia tobacco tastes better!"

480 million pounds of Virginia tobacco grown in 1918

In the U. S. A. alone five times more Virginia tobacco is used for cigarettes than all the imported cigarette tobaccos combined.

Which proves that men like that Virginia taste in a cigarette.

But to enjoy it to the limit, to get ALL the flavor, the relish, the zest of Virginia tobacco at its best, don't smoke it mixed with other tobaccos, smoke it straight.

There is a difference. Piedmont all-Virginia cigarettes will prove it.

TWO BRANCHES LEGISLATURE IN ARGUMENT

CONFERENCE COMMITTEES ARE NAMED TO ATTEMPT SETTLEMENT OF DIFFICULTIES AS TO REVENUE BILL.

BY HERBERT FELKEL.
Tallahassee, June 4—When the senate was informed yesterday that the house had refused to recede from its position on the amendments adopted by that branch of the legislature to the general appropriation bill, providing for salaries and expenses of the state government for the next two years, Senator Lowry moved that a conference committee from the senate be appointed. Senators Lowry, Stokes and Butler, later in the day, were named.

Senator Lowry also moved that the senate next concur in the house amendments to the bill appropriating for the state institutions at Chattahoochee, Marianna and Ocala, and asked for the appointment of a conference. Senators Russell, Eaton and Oliver were announced as members of this committee.

The senate was also informed that the house had refused to concur in the senate amendments to the bill naming a board of supervisors for the Broward drainage district. The senate amendment had changed the personnel to include M. C. Hardee instead of A. B. Lowe. Senator Hughlett moved that the senate not recede but he did not ask for a conference. Senator Malone did not think this would be entirely parliamentary; said he didn't think the right thing was done the other day in a similar matter, although it resulted in good legislation, and moved that a conference committee be appointed. When all the conference committee appointments were announced, just before adjournment this afternoon, Senators Malone, Mac Williams and Turner were named for this work.

Senator Butler had a telegram read from United States Senator Fletcher, asking for the enactment of a general free zone bill. A local bill authorizing Jacksonville to issue bonds for the establishment of a free zone for that port already has been passed through the senate.

A bill protecting the fresh water fish of Hamilton county, that came over from the house, was passed by the senate, Mr. Bradshaw succeeding in waiving the rules.

The house Coats bill, seeking to add a strip of territory now in DeSoto county to Okeechobee, was referred to the committee on county organization although an effort was made to place the bill on the calendar without reference.

Senator Butler introduced and passed a bill to protect the fish in the fresh waters of Duval county except the St. John's river.

The senate passed the house bill by Representative Williams, No. 25, to amend section 5 of chapter 6814, approved 1915, the same being an act to regulate the finances of counties and to provide for annual budget of expenses.

The Epperson bill, relating to tax assessments and revenue, was tabled, the senate having previously passed another house bill on the same subject.

By a vote of 21 to 0, the senate adopted the Hughlett joint resolution seeking to cure the title to between one and two thousand acres of lands in Okeechobee county, that were sold by the state. It was announced in the long preamble that the records of the land office showed large tracts designated as highlands which in truth, are swamp and overflowed.

House bill No. 788, by Mr. Waybright, relating to primary elections in Jacksonville, passed the senate.

The Perry house bill for the protection of all wild game in certain parts of Lee county, was indefinitely postponed, on motion of Senator Malone.

The house bill by Mr. Earnest, for the relief of H. S. Hosford and S. J. Revell, of Liberty county, went from second to third reading.
