

NIAGARA FALLS—The king and queen of Belgium round huge enjoyment in their visit to Niagara Falls. They donned the rubber suits and slip-overs for their feet and went down into the Cave of Winds along with the other tourists. And, of course, the photographers "got" them. Here they are.

INTERNATIONAL TRADE MEETING

The past idea of the International Trade Conference which opens at Atlantic City Monday, October 20, had its inception at informal meetings in Paris early this year. These sessions showed the need of joint action looking toward a get-together arrangement commercially by the countries which had been associated in the war. The suggestion that such a conference be held in the United States was submitted to governments and leaders of opinion in the countries concerned, where it met with instant approval.

The purpose of the Conference, therefore, is to bring together the leading business men and financiers of the United States and the foreign countries named, in an effort to come to a better understanding of questions of mutual interest, to work out programs of future development, and to inform each country of the difficulties and needs of the others.

Monday and Tuesday, the 20th and 21st, will be devoted to conference between the foreign delegates and the American committees regarding details of subjects to be brought before the general meetings. The first general session will be held on Young's Million Dollar Pier at 2 p. m. Wednesday, the 22nd. The Conference perhaps will last till Friday, the 24th; maybe till Saturday.

Following the five days' conference, the foreign delegations will tour the important industrial centers of the United States. This will enable the visitors carefully to inspect industries of interest to each, to form business acquaintances with American bankers and operators and form a comprehensive idea of American methods of finance, manufacturing and commerce. A special Pullman compartment train has been placed at the disposal of the delegates, in which visits will be made to the following cities: Philadelphia, Baltimore, Washington, Pittsburgh, Cincinnati, St. Louis, Kansas City, Minneapolis, St. Paul, Chicago, Detroit, Cleveland, Buffalo, Niagara Falls, Rochester, Boston, New York.
