

ROTARIANS ARE FOR GOOD ROADS

Committee on Public Affairs to Investigate and Recommend Action.

At the weekly luncheon of the Rotary Club at the San Carlos yesterday the matter of hurrying the construction of the Barrancas road was brought before the body and animatedly discussed. The matter was referred to the committee on public affairs who will investigate and recommend action at the meeting of the club next Tuesday.

Admiral Plunkett's letter to City Commissioner Pou was also discussed and several members expressed the necessity of lending every assistance possible for the protection of the men of the fleet.

Visitors present at the luncheon who made brief addresses were: Charles McCall, a civil engineer of Palmetto, H. McKenzie, Y. M. C. A. worker, of Odessa, Australia, now stationed at the Naval Air Station and Franklin Zeck, of New York, a son of Mr. and Mrs. C. P. Zeck, of Pensacola.

Dr. S. R. M. Kennedy discussed the rating of Pensacola in a report just made by an officer of the U. S. Public Health Service and means of bettering the rating given. A campaign to this end will be mapped out.

Oliver J. Semmes, the latest member of the club, was introduced by Capt. Aiken, and responded with a happy speech.

Foley's Honey and Tar Compound

AN OLD RELIABLE FAMILY REMEDY, recommended for coughs, colds, tickling of the throat, spasmodic croup, whooping cough, la grippe, and bronchial coughs, hoarseness, etc.
The First Dose Gave Relief
C. E. Summers, Holdrege, Neb., writes: "Some time ago I contracted a very severe cough and cold due to exposure. My cough got so bad I could hardly sleep for two or three nights. A friend of mine recommended Foley's Honey and Tar Compound, and I got a 50c bottle. The very first dose relieved me. I took a second dose before going to bed and can truthfully say I did not cough once all night. By using as directed the next two days my cough was entirely gone, and I give Foley's Honey and Tar full credit for my speedy and permanent recovery."
For more than thirty years Foley's Honey and Tar has been used with satisfaction and success.
