

What Is a Good Value?

A good value is anything that gives back as much comfort and contentment as it costs.

A cheap shoe at \$4.00 that squeaks and pinches isn't half as good as a \$10.00 pair that's smooth, silent and serene.

If you are going to buy a pair of SHOES for yourself, just remember that you can't pick a good VALUE unless you pick a good pair—and you won't get a good pair of SHOES unless you pay a fair price.

We are now showing a good collection of FALL SHOES, in the newest lasts and in all leathers.
