Easy to Make This Pine Cough Remedy

Thousands of families swear by its prompt results. Inexpensive, and saves about 25c.

You know that pine is used in nearly all prescriptions and remedies for coughs. The reason is that pine contains several peculiar elements that have a remarkable effect in soothing and healing the membranes of the throat and chest. Pine is famous for this purpose.

Pine cough syrups are combinations of pine and syrup. The "syrup" part is usually plain sugar syrup. To make the best pine cough remedy that money can buy, put 2 1/2 ounces of Pinex in a pint bottle, and fill up with home-made sugar syrup. Or you can use clarified molasses, honey, or corn syrup, instead of sugar syrup. Either way, you make a full pint—more than the money. It is pure, good and very pleasant—children take it eagerly.

You can feel this take hold of a cough or cold in a way that means business. The cough may be dry, hoarse and tight, or may be persistently loose from the formation of phlegm. The cause is the same—irritated membranes—and this Pinex and Syrup combination will stop it—usually in 24 hours or less. Splendid, too, for bronchial asthma, hoarseness, or any ordinary throat ailment.

Pinex is a highly concentrated compound of genuine Norway pine extract, and is famous the world over for its prompt effect upon coughs. Beware of substitutes. Ask your druggist for "2 1/2 ounces of Pinex" with directions, and don't accept anything else. Guaranteed to give absolute satisfaction or money refunded. The Pinex Co., Ft. Wayne, Ind.

Now Comes Springtime With its Severe Tax Upon the Human System

That general run-down condition, known as "Spring Fever" is now abroad in the land.

Few people are fortunate enough to escape the debilitating, dragging down condition that always comes with the changing seasons, and especially when nature is undergoing the transition from winter into springtime.

Just now there is a universal re-adjustment of every element in nature. Plant and animal life alike merge into the re-awakening that comes with the budding of springtime.

Naturally, such a decided change means a severe tax upon the elements involved. In plant life, it means that all the energy stored away for winter sustenance has been consumed, and the plant or tree must gather new forces to feed and develop it and give it strength and nourishment to enter upon the long dry heated term.

Similarly, the human body has just passed through the severest season of the entire year, and has been subject to the hardships of the winter season with all of its various attacks of sickness and disease. And even though you may have escaped the prevailing dangers and come through the winter without having succumbed to illness, still your system has

FLOODS CAUSE BRIDGE DELAY

CONSTRUCTION OF APALACHICOLA CROSSING HAS BEEN IMPEDED BY HIGH WATER AND LACK OF MATERIAL.

Chattahoochee, Mar. 10.—One year ago today the Master & Mullen Construction company, of Cleveland, Ohio, began their preliminary work toward building the Victory bridge crossing the Apalachicola river.

There has been twelve months of unusual delays on account of the troublesome stream which they are trying to bridge. During this time there have been no less than ten raises which caused the contractors great delay and expense. When they first began, not knowing the nature of the stream, they had supplies placed near the river, but soon they learned they could not return them there, so they had to remove to higher ground.

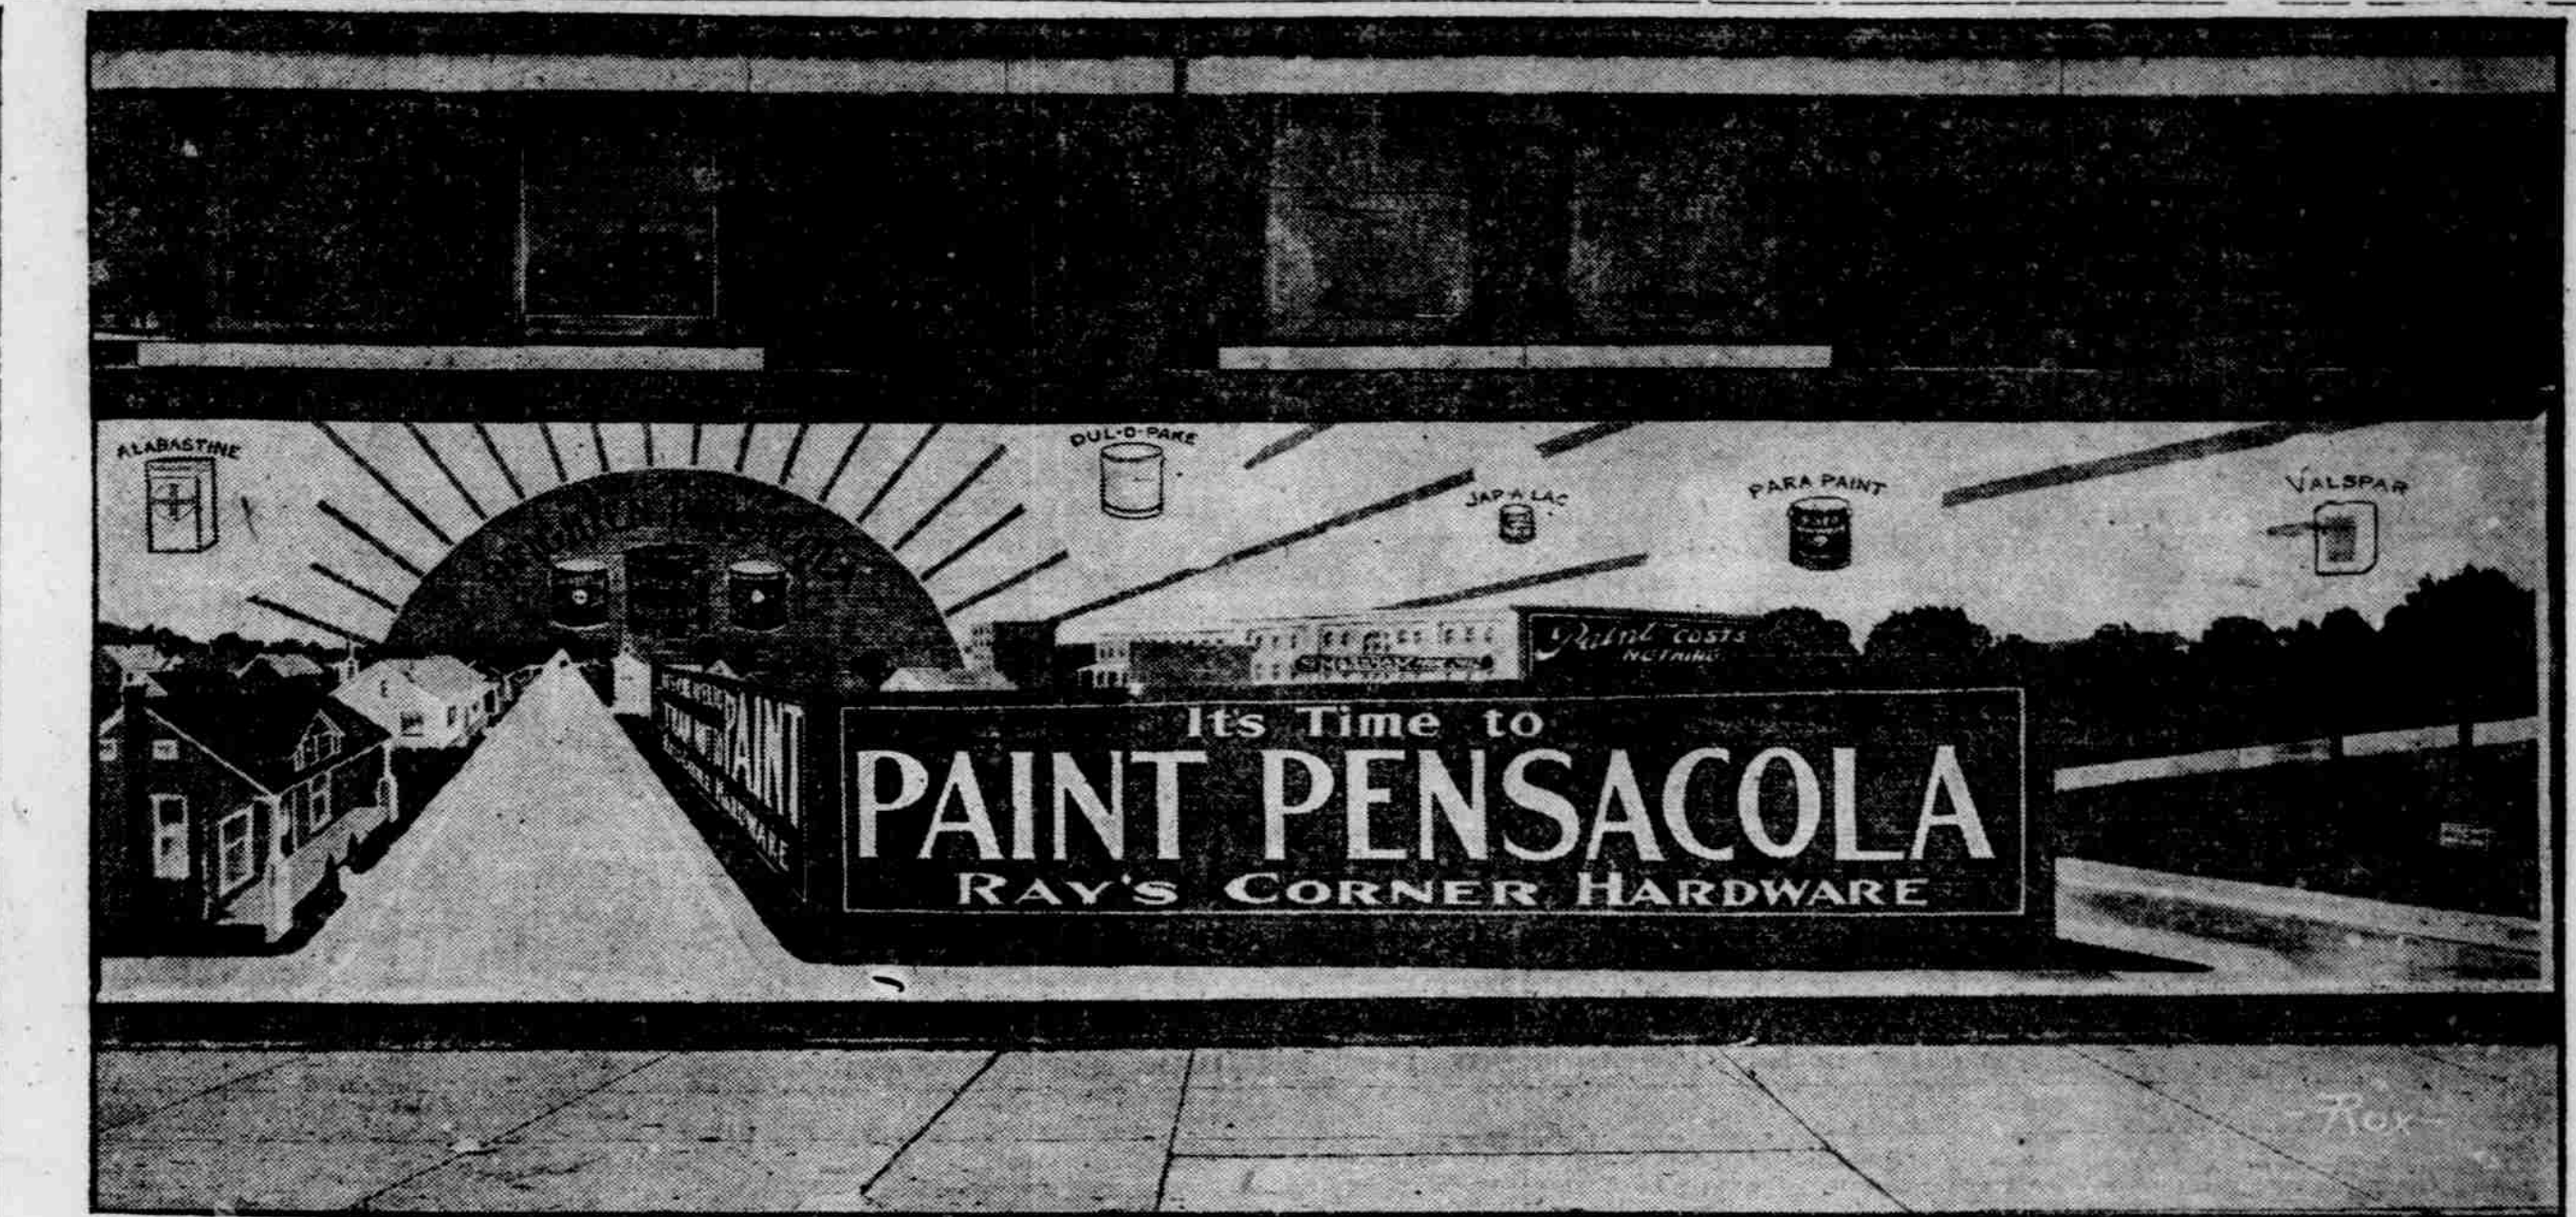

The river is not entirely responsible for the work progressing so slowly. After the contractors had made ready to go to work there had to be more investigations made for the pier sites. Mr. Pope, well driller, of Sneads, was employed by the state road department to make borings in the river bed. This work alone caused a delay of three months. When the contractors were allowed to proceed the river went the rampage repeatedly and the predictions of old residents of low water during certain months were badly shattered. The river has at no time during the past year been within its banks.

On December 16 last, the river started to rise, bringing down quantities of drift containing thousands of dollars worth of logs, uprooted trees over a hundred feet long, a large black bear, several rafts, boats, etc. The debris extended over two thousand feet upstream at the time from the bridge site. The damage to the construction was not so heavy, as only one cofferdam was lost and a part of the industrial trestle washed out.

This drift brought new vision to the engineers in charge. Viewing this drift and studying the outcome of what might happen, they decided that the shape of the piers would be drastically changed and their foundations carried much deeper.

The original plans for the bridge provided for square faces on all sides of piers. They are now changed, after three piers had been completed. It will be necessary to build "cutwaters," on upstream and downstream sides of these three piers. The additional piers will be built of a different type and design.

The contractors had purchased considerable steel sheet piling for use on the original plans. It now becomes necessary for them to purchase longer piling. They are having to return the first order and wait for the other to arrive. Some of this original order was caught enroute and returned to the

This illustration is a reproduction of the wall sign of Ray's Corner Hardware at Palafox and Garden streets. It was designed by W. L. Ray and tells its own story. Mr. Ray had the idea for the layout but local sign painters told him it couldn't be done. Nothing daunted he took pencil, paper and ruler and drew the above then asked the sign painter if he could reproduce the drawing with the result as shown herewith.

mills at Buffalo, New York.

With the new piling being enroute and the revised plans expected daily from the state road department, the contractors hope to proceed at an early date and rush the work through to completion. They are hoping that further delays will be few and far between.

Another item which has given considerable trouble is not being able to employ efficient labor. The superintendent in charge recently increased the wages and hopes to organize an efficient force for the work during this year. Then, too, considerable delay has been caused in shipments of material, even after it was bought.

It is possible that two additional piers and arches will be erected on the Gadsden county side. This is a matter which is at this time under consideration.

The question of approaches has not yet been settled. This is to be regretted for if the plans were in hand for these approaches and money ready to erect them, the present contractors would be in position to work on them during the flood periods when they are unable to work on the river. If

these arrangements were made and the work all go along together, the bridge would be ready for use much earlier, and would probably lessen the cost of construction. It is yet in the minds of some to erect temporary approaches until such time the two counties can raise the money for permanent ones.

The housing problem has been one of great difficulty for the contractors. They are now building three room knock-down house and supplying tents to all of their employees with families.

LOCAL WEATHER

(Compiled for The Journal by the Weather Bureau Office)

Pensacola, Fla., March 11, 1920. Sunrise, 6:02 a. m. Sunset, 5:55 p. m. Moonset, 10:15 a. m. Next phase of the moon, last quarter, 12th.

CALOTABS ARE BEST FOR COLDS AND INFUENZA

Doctors Now Prescribe Calotabs, the Purified Calomel Tablets That Are Nauseless, Safe and Sure.

Doctors are warning the public that simple colds and mild cases of influenza often lead to pneumonia and other serious complications. They say that every cold should receive immediate attention and that the first step in the treatment is to make sure that the liver is active. For this purpose Calotabs, the perfected, nausealess calomel tablets are the surest, best and most agreeable laxative.

One Calotab at bed time with a swallow of water—that's all, no salts, no nausea, and no upsetting of the digestion and appetite. Next morning your cold has vanished, your liver is active, your system is purified and refreshed, and you are feeling fine with a hearty appetite for breakfast. Eat what you please—no danger.

For your protection, Calotabs are sold only in original sealed packages, price thirty-five cents. All druggists recommend and guarantee Calotabs and are authorized to refund the price if you are not delighted with them.

CHATTAHOOCHEE

Chattahoochee, Mar. 10.—Miss Bernice Howell, who is teaching at Greensboro, spent the week-end at home, having as her guest Miss Lolee McCullough, of Hosford.

Mrs. M. Morgan entertained at luncheon last Friday evening, having as her guest, Mrs. Carbars, Misses Ora Barnett, Gladys Stribling, Maude Bevis, Messrs. Carbars, Hinson, Walter and Angus Gholson. Those present say they cannot describe the delightful time they had. The eats seemed to please every one.

There will be a minstrel show in the hospital hall Thursday night of this week. This is given by the Elks of Quincy, and will be assisted by the hospital orchestra.

There will be a special picture show in the hall on Thursday night, March 18. "Bear Cat" is the title of the show and it is a prohibition picture.

The special entertainment which had been arranged for the Methodist Sunday School for the 4th of March did not materialize on account of not being able to get the particular films wanted for the occasion. Another date will be arranged for Thursday night, April 8.

Miss Pearl Summerford, who has spent several weeks with her sister, who has been sick at Tifton, Ga., has returned to Chattahoochee and reports her sister better.

Mrs. Hattie Layne spent several weeks with relatives in Douglasville, Georgia, recently. She said she was glad to get back to Florida out of the snow and ice which had kept her in doors so much during her stay in Douglasville.

666 quickly relieves Colds and LaGrippe, Constipation, Biliousness, Loss of Appetite and Headaches.

112 Millions used last year to KILL COLDS HILL'S CASCARA QUININE BROMIDE Standard cold remedy for 20 years—in tablet form—safe, sure, no opiates—breaks up a cold in 24 hours—relieves grip in 3 days. Money back if it fails. The genuine box has a Red top with Mr. Hill's picture. At All Drug Stores
