TO DISTRIBUTE WAR TROPHIES

Legislation Expected to Pass This Session of Congress to This End.

(By GEORGE H. MANNING.) (Washington Correspondent of Pensacola Journal.)

WASHINGTON, D. C., April 26.—Legislation for the distribution of the vast number of guns and howitzers, trench mortars, rifles, machine guns, bayonets, and other war materials captured by the Germans or surrendered by them to the American expeditionary force, among the cities, towns and counties of the different states is expected to be passed at this session of congress.

Senator Wadsworth, of New York, chairman of the senate military affairs committee, has introduced a measure in the senate to provide for an equitable distribution of the captured war materials and Representative Kahn, chairman of the house military committee has made a favorable report to the house on a similar measure.

In re-introducing the bill again a few days ago Chairman Kahn asserted he intended to get right behind the measure its passage promptly. Both chairmen have expressed their belief that this legislation on which no final action was obtained last session will be passed before the present session is far under way.

There appear to be no obstacles in the way of the measure. The department, wishing to dispose of the great stores of captured war materials, favors the passage of the bill, and the demand made upon the senators and representatives from almost every community in the country for parts of the former German war equipment assures speedy approval of the bill when it is started on its way.

The Florida senators and representatives have introduced several hundred bills providing for donation of former German cannon and fieldpieces to the cities, towns and counties of the state.

The Wadsworth-Kahn bill, now before congress directs the secretary of war to apportion and distribute the captured war materials among the states in corresponding ratio as the number of men contributed by each state bears to the total number of men who served in the American army.

The bill has on hand for distribution to the states after retaining sufficient for training and experimental purposes about 1400 guns and howitzers captured from the Germans; 700 trench mortars, 70,000 rifles, 10,000 machine guns; 50,000 bayonets, and many thousands of canteens, grenade throwers, helmets, mess kits, knapsacks, spurs and other materials.

Under the apportionment provided in the Wadsworth-Kahn bill Florida will get four 75-millimeter guns; four 105-mm. guns; four 15-mm. guns; one 210-mm. gun; six trench mortars of various calibre; 621 rifles; 89 machine guns; 435 bayonets; 32 canteens, assorted; 15 grenade throwers; 106 helmets, assorted, and various other trophies.

The Wadsworth-Kahn bill provides that the materials allotted to the states shall be distributed in the states through the senators and representatives in congress. After passage of the bill it is expected the senators and representatives of each state will meet and work out plans for fairly distributing the captured war materials among the cities, towns, counties, agencies and organizations that have asked for them.

As the captured war materials on hand, especially big guns, are not sufficient to meet the demand even in a small degree, spirited contests are certain to arise over distribution of the trophies in the states.

EMMETT MAYS DIES AT CANTON, OHIO

News has been received of the death of Emmett Mays of McDavid at Canton, Ohio, death resulting from injuries received in an accident on the Pennsylvania railroad on which he was a flagman.

Following the accident he was taken to a hospital where he later died. His mother, Mrs. W. L. Chance of Laurel Hill, was at his bedside.

The body will be brought to McDavid for burial in the Bogie cemetery Thursday afternoon.

Mr. Mays was 27 years of age and unmarried. He was well known in Pensacola. He had been an employee of the Pennsylvania railroad for some time.

He is survived, besides his mother, his sisters, Mrs. H. A. Hally and Miss Norma Mays and Miss Marion Mays of Escambia county.

ROTARIANS MAY CHANGE ELECTION

Discuss Proposal to Elect President by Popular Ballot. The Rotary Club at its luncheon yesterday discussed the proposition to change the method of electing the president of the club. At the present time the club executive is elected by the board of directors and not by popular ballot. The matter will be discussed further at the next meeting.

The Salvation Army yesterday asked that the Rotarians volunteer two hours of their time to raise the \$10,000 community service fund. The club adopted a resolution calling on the members to volunteer and a large number of names was added to the list of workers.

COLEMAN TO ATTEND THE B'NAI BRITH CONVENTION. B. R. Coleman of the Coleman's clothing store, left yesterday for Dallas to attend the convention of the B'nai Brith. He expects to be absent from the city about ten days. En route to Dallas Mr. Coleman will stop in New Orleans to visit his brother, Demal Coleman, who graduates as a medical student from Tulane university this year.

FIND BODY OF MAN MISSING FOR WEEK

One of the Hilton boys at Myrtle Grove yesterday found the body of A. C. Kobel in an open field about half a mile from the man's home. Suicide is given as the cause of death, the decision being that the man blew off his own head with a shotgun. The body is at Post's undertaking establishment and burial will be made at St. John's cemetery at three o'clock this afternoon.

Mr. Kobel, who was a bachelor, lived alone near the school house at Myrtle Grove. He had been in ill health for some time and it was known that he was dependent. He was first missed last Tuesday and search had been conducted since that time. He was the administrator of the estate of his brother, J. K. Kobel, who was found dead some years ago in his store on Tarragona-st.

Another brother will arrive from Oklahoma this morning to take care of the estate and complete the funeral arrangements.

ROUNDING UP INDICTED MEN

State and Federal Aid Being Sought to Apprehend Ball Players Wanted.

CHICAGO, Ill. April 26.—A general roundup of men indicted in connection with the 1919 world series baseball scandal has been started by the state officials and federal aid will be sought in apprehending several persons who have not yet given bond. It was announced today at the state's attorneys office after receipt of reports that some of the alleged conspirators had fled to foreign countries.

George E. Gorman, assistant state's attorney, tonight said that he had information that Abe Attell, former world's champion featherweight fighter, and Joseph J. (Shorty) Sullivan, known in the east as a gambler, had fled to Canada. Others in the case were reported to state officials to have made plans to go to Mexico or to be there now. Mr. Gorman said that since there were no treaties with Canada under which a man could be extradited for misdemeanor, federal officials would be asked to request the Canadian government to deport Attell and Sullivan as undesirable if they are found in that country.

President Ben Johnson of the American League is enroute to Washington to make this request it is said. Detectives will be sent to San Jose tomorrow to bring back Hal Chase, arrested there yesterday.

Eddie Cloette, once the American league's leading pitcher, sent word from his Detroit home late today that he would come to Chicago within a few days to give bond. Similar news was received from Louis-Levi and Ben Levi, alleged gamblers.

Charles Risberg, George Weaver, Fred Mc Mullin, Joe Jackson, Oscar Felch and Claude Williams, White Sox players and Carl Zork and Ben Franklin of St. Louis, have given bond, Mr. Gorman said.

Local attorneys for Rachael Brown, Sullivan and Attell said that if these men had fled from this country "it was news to them." Chick Gandil, another player, is reported in Texas, and has sent word that he will come to Chicago to give bond.

CHANGE IS MADE IN ROUTE FOR PLANES

Flying Boats Will Stop at Tampa and Key West on the Flight to Hampton Roads.

The two P-5L flying boats whose flight from Pensacola to Hampton Roads, scheduled to start yesterday, was postponed by rain, will not go across the peninsula to Jacksonville as originally planned, but will go down the coast to Tampa and Key West and will then, turn north along the east coast, making such stops as are necessary. If the weather is fair the boats will leave today.

The two flying boats which made the trip to Miami and thence to Havana with Assistant Secretary of the Navy Roosevelt are now at Key West and are expected to return to the air station here the latter part of the week.

PLANS ARE READY FOR STATE DOCTORS

Florida Medical Society Will Meet in Pensacola May 10.

The annual convention of the Florida Medical Society will be held in Pensacola commencing May 10 and plans for entertaining the doctors have been completed by the local medical society. A meeting was held last night and the final plans were rounded up.

The Florida Railway Surgeons will meet here May 9 and will remain over as members of the Medical Society to attend the convention of that organization opening the next day.

STEAMER NOBLES TO LEAVE YARD

Will Go to Bruce Drydocks for Additional Repairs and Painting.

The American steamer Nobles which has been undergoing repairs at the Pensacola shipyard will leave the yard this morning and will go to the Bruce drydocks for additional repairs and painting.

The American steamer Galveston which is on the drydocks will be floated this morning and will go alongside the wharf at the Bruce plant for deck repairs.

The Japanese steamer Maits Maru came in from Port Arthur yesterday for bunker coal to Gilmore and will sail noon today for Yokohama.

The salt fields of Utah cover an area of more than 500 square miles. Mushrooms contain almost the same chemical constituents as meat. There are only three Sunday newspapers in all of Australia.

IN SPITE OF WEATHER KATCHA-KOO DRAWS

Second Performance Filled Pastime Theatre to Overflowing.

With a packed house of eager theatrical fans, Katcha-Koo, an Oriental-American fantastic composed of local talent, now being staged at the Pastime theatre, under the auspices of Community Service, blazed forth Tuesday night in a whirl of laughter and gaily, marking the second performance of its presentation.

Although a large crowd attended the opening performance Monday night, an even greater number were seated long before the curtain at the second showing.

Throughout the entire show the performers were at their best and continual scores from the audience following specialty musical numbers and choruses sounded the key-note of satisfaction and approval.

A scene in the Maharajah's private temple of Buddha, at Rasputi, India, revealed out with a mass of local color in the first act. Dancing girls, novelty song hits following excellently in the train of the plot, kept the audience in a state of ultra-enthusiasm and laughter.

Charming Miss Norma Holt, played her part enchantingly. Exquisitely vivacious in her manner, she proved almost a dream in her characterization of the winsome American lass, and her sister Dolly, portrayed by Miss Clara Fronkel, was indeed bewitching in her characterization of the riparian rights. It is probable that the Butler bill will be printed as soon as it is out of the committee so the two may be considered jointly.

The senate sustained the veto of the bill presented two years ago by Senator Cash, allowing the board of education to contract for school books unopposed which it was held that books might have been kept uniform for a period of time.

The vote was 28 to 1. Senator Johnson announcing just before the vote was taken that he saw no reason why the bill should become a law.

Among the bills introduced Tuesday were two by Senator Campbell, one allowing the internal improvement board to trade lands with private ownership, with the intent of rounding out the state or private holdings, and the other allowing the board to sell or lease oil, phosphate or mineral rights on state lands.

Senator Stokes' veto in a bill limiting coroners fees in counties of 45,000 people which means Escambia, Hillsborough and Duval. It fixes the fees for viewing a body at \$3, and for holding an inquest at \$5. He said the senators affected were in accord with the bill which therefore went to the local bill calendar.

AUTO LICENSES MUST BE PAID

Sheriff A. Cary Ellis has received orders from Governor Hardee to make prompt arrests of all persons who have failed to procure this year's license tags for their automobiles.

The letter, a copy of which was received by the sheriff in answer to a letter from State Comptroller Amos, advising that complaint had been made that fully 10 per cent of the automobiles and trucks are not yet registered.

The letter of Mr. Amos to the governor reads: "Many complaints have been made to me verbally lately by persons visiting Tallahassee that fully 10 per cent of the automobiles and trucks throughout the state have not yet been registered.

The letter of Governor Hardee to the sheriff follows: "I hand you herewith copy of a letter which I have just received from the comptroller regarding the non-payment of automobile licenses. This law should be rigidly enforced and I am calling upon every sheriff within the state to make prompt arrests of every individual who has not complied with the law. A few arrests will have the effect of bringing about the desired result, as those who are disposed to violate the law will see that the state means business.

"Will you kindly acknowledge receipt of this, together with such suggestions as may occur to you?"

IT STARTED SOMETHING. "I have not said anything to you, but have been saying to others and have induced many to take your medicine and be convinced. Mayr's Wonderful Remedy is correctly named. It removed stuff from me I never thought could be in a human being and I feel like a different person. The pain in my right side disappeared at once, which four doctors said would require an operation; also the bloating and indigestion." It is a simple, harmless preparation which removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded.

Useless warships filled with concrete, are being offered to coast towns by the British government for use in breakwaters. Cordova, Spain is said to have the oldest pavement of modern cities, the Moors in the ninth century.

MARSTON POST TO MEET TOMORROW

Regular Session Will Be Held at Chamber of Commerce Rooms. The regular meeting of Frank Marston Post, American Legion, will be held at the chamber of commerce rooms at 5 o'clock tomorrow night. The Post attendance has not been as great as it should be, the officers think, and they urge that all members attend tonight's session. A final decision will be reached on the proposal to make a try to bring the 1922 convention to Pensacola and an enthusiastic meeting is expected.

TO INCREASE PAY CIRCUIT JUDGES

Bill Introduced in Senate Raises Salaries to \$5,000 a Year.

(By JOHN C. TRICE)

TALLAHASSEE, April 26.—Circuit court judges will have \$5000 a year instead of \$4300 as at present if the bill considered in the senate Tuesday afternoon becomes law. The bill as introduced by Senator Calkins proposed a salary of \$6000, but the committee cut this to \$5000. Senator Lindsay tried to make further cut to \$4500 but failed. His effort to make the raise effective Jan. 1, 1921 also failed.

In executive session the senate considered the suspension of L. L. Meigs of Duval county, member of the county commissioners, by Governor Catts, and refused to consent to the suspension, holding that it was unjustified.

An unfavorable report on the Singletary bill allowing the internal improvement board to sell the Everglades has been made by the drainage committee.

The senate ordered 200 printed copies of the bill introduced by Senator Lindsay in reference to riparian rights. It is probable that the Butler bill will be printed as soon as it is out of the committee so the two may be considered jointly.

The senate sustained the veto of the bill presented two years ago by Senator Cash, allowing the board of education to contract for school books unopposed which it was held that books might have been kept uniform for a period of time.

The vote was 28 to 1. Senator Johnson announcing just before the vote was taken that he saw no reason why the bill should become a law.

Among the bills introduced Tuesday were two by Senator Campbell, one allowing the internal improvement board to trade lands with private ownership, with the intent of rounding out the state or private holdings, and the other allowing the board to sell or lease oil, phosphate or mineral rights on state lands.

Senator Stokes' veto in a bill limiting coroners fees in counties of 45,000 people which means Escambia, Hillsborough and Duval. It fixes the fees for viewing a body at \$3, and for holding an inquest at \$5. He said the senators affected were in accord with the bill which therefore went to the local bill calendar.

PALATKA, TOO, WANTS CAPITAL

TALLAHASSEE, April 26.—"If there is to be any serious talk of capital removal, Palatka will be a serious contender for the honor of being the next capital of Florida," said Senator W. A. Russell, of that beautiful city on the St. Johns.

"We shall be able to show that we are very much nearer the center of the state, both as regards population, industry, taxable resources and availability, than any other city that has been or can be mentioned. We have six railroads instead of two which is all that Orlando can boast, and I have the utmost fondness for the fine Orange county town which is making such a play right now to put the skills under the hopes and boast of Tallahassee.

"If it comes to a matter of bidding Palatka will do all that any other city in the state will. It will offer a beautiful site on the banks of the St. Johns river, an arm of the sea to our city, and will put up buildings or meet any offer that may be made by any other city.

"No city can say that it is entitled to the capitol but Palatka can meet any argument made by any other city in the state when the availability of that city as the capital of Florida is under consideration. Some of the arguments made by other cities apply with greater force to Palatka than to the cities making them.

"Palatka is in the field and if the matter comes to vote here, I shall do my utmost to see that her claims are considered."

ANNOUNCEMENT

We have recently secured the Nationally Advertised "FULL-O-PEP"

line of Poultry Feeds, universally acknowledged to be the best on the market today. This line consists of FULL-O-PEP Chick Feed FULL-O-PEP Developing Mash FULL-O-PEP Laying Mash FULL-O-PEP Hen Scratch Feed.
