Good Roads.

Readers, I beg pardon if I annoy you on the subject of good roads. We have been disappointed so many times after reaching the point of beginning I have made up my mind to keep up an unrelenting campaign until we succeed.

There is no better way to settle this question than to vote on the question itself instead of testing the popularity of a set of men. In the meantime we should certainly know to whom we are trusting this matter after we have decided the question for ourselves for we cannot expect to have a set of men give the best result in the matter contrary to their own opinion, therefore in justice to the voters and citizens at large of this county I hope to see every candidate who makes his announcement in this paper for office do so and himself the honor to say that he is either for or against building, grading and bridging the public highways of this county. We have noticed that in other counties that have begun road building that this always decides the question.

I expect between now and the next primary to discuss every phase of this great problem. I have been informed that the old railroad bonds have been paid. We can now put this millage of our taxes (four mills) that we have been paying on the two hundred thousand dollars railroad debt into a one hundred and fifty thousand public road bond or millage or present taxes need not be changed at all. Certainly if our forefathers could see the point—and I do not question the wisdom of that transaction at that time—for a railroad through this county must have increased the value of property more than double that amount, certainly with twice the population of their time and twice the real value of property we can now bond for a less amount and build for ourselves public highways inasmuch as they will be our roads. This railroad bond was all paid to individuals outside of the county, the money has left us, the property is owned by others now, here is the comparison: The dirt roads will be ours, the money will remain with us. Not more than two thousand dollars need ever leave the county. We have the labor and the material, I mean it will be with us during the next thirty years, cheap money at five or six per cent. It will circulate among us—our money and our roads.

Pinetta News.

Last Wednesday the 19th inst., witnessed one of the largest and most enthusiastic gatherings of people that has ever before honored Pinetta with their presence. The occasion being the Educational Rally which had been previously advertised. The patrons, teachers, and pupils from four schools were present. The weather was ideal and nothing happened to mar the happiness of the occasion, or to dampen the enthusiasm of the crowd. The local school assisted by visiting schools entertained the people until noon at which time a bounteous dinner was spread and all partook freely until they could eat no more, and yet there was plenty left. At about 2 p. m. the anxious expectations of the crowd were rewarded by the arrival of Capt. Lynch, Supt. Tedder and Pio W. B. Cate Supt. Tedder, acting chairman, introduced the speakers, and gave some very encouraging remarks. Prof. Cate spoke very intelligently on educational interests, giving good advice to both parent and teacher. Capt. Lynch, the chief speaker of the occasion, made a very interesting and appreciated lecture lasting about forty-five minutes, which has made a favorable impression on all who were fortunate enough to hear him. Immediately after the speaking a School Improvement Association was organized with Mrs. A. A. Wethington, chairman and Mrs. R. R. Connell, secretary. The crowd soon dispersed to their homes with brighter hopes for the future in educational work and more determined to do better in the future, and we look forward with pleasure and hope that the time is not so far distant when this distinguished honor will come to us again.

Last Sunday afternoon at three o'clock at the home of the bride's parents, Mr. and Mrs. N. J. Newsome, Miss Mary Newsome and Mr. Oscar Coody were quietly married, Mr. A. A. Wethington, Notary Public, officiating. There were only a few of the immediate friends and relatives present to witness the ceremony. The happy couple left immediately for their future home about two miles north of Pinetta. The groom is one of Madison county's rising energetic young farmers and his bride is one of the county's fairest daughters and loved by all who know her. We extend to them our heartiest congratulations.

Mr. M. G. West of Hazelhurst, Ga., and Mail Clerk on the Ga. & Fla. Ry., was a pleasant caller in our town last Sunday, and we think the attraction is at the boarding house.

Dr. J. P. Kinsey attended the session of the Grand Lodge, F. & A. M. in Jacksonville last week.

Mr. L. W. Ross, brother of Mrs. A. T. Bethune is seriously ill at present, but we hope to see him restored to his much wasted health in the near future.

Mr. S. B. Smith of Lamont, visited his daughter, Mrs. J. P. Kinsey several days last week.

Friday, February 4th, has been set aside by State Supt. Holloway, as Arbor Day and we trust that patrons of the school and all who will, will come together and plant out trees, as nothing is needed more in Pinetta.

Notice.

Scientific Spanking

consists in punishment only when a child is actually bad. Some mothers think that all crying is badness, it's not. When your baby cries, look for pins or some external cause, if you can't find them give the baby White's Cream Verulifuge as the chances are it is suffering from worms which keep it hungry and cross all the time. Pleasant to take—sure in it's action. Price 25 cents. Sold by W. B. Davis.

Ladies, Call at Moseley's Drug Store.

I have a few pieces of elegant china left over from my Holiday trade. I am selling at cost. I can please you in price and goods.

Overcasts at Taylor's

Phil Parramore, the clever and popular insurance agent, has been confined to his room this week with an attack of the grippe.

The hunting party composed of Dr. C. H. T. C. and Alex Smith, Will Taylor and Joe Loper, returned Tuesday from a two weeks successful and pleasant camp at Dolly's Creek.

The plying mill of the Porter Planing Mill Co., is rapidly assuming proportions and before many weeks have passed the whistle of this institution will be heard early in the morning calling hands to work.

Saturday of next week is the date set for the holding of a meeting of the County Executive Committee. Let all who are interested read the call for the meeting and learn the time and place of its holding.

Rev. W. R. Ivey, pastor of the Baptist church, left Monday afternoon for Gainesville where he is attending the State Baptist Association. He expects to return home to-day or to-morrow.

A Sprained Ankle

As a rule a man will feel well satisfied if he can hobble around on crutches in two or three weeks after spraining his ankle, and it is often two or three months before he is fully recovered. This is an unnecessary loss of time, as by applying Chamberlain's Liniment, as directed, a cure may as a rule be effected in less than one week's time, and in many cases within three days. Sold by W. B. Davis and B. F. Moseley.

To be president of a strong bank at the age of twenty-eight years is a distinction which doesn't come to very many mortals, and our young friend, Archie Livingston, has every reason to feel proud because at that tender age he has achieved so great a distinction. And what is better, he has the right to know that his own merit placed him at the head of the Citizens Bank of Madison, one of the strongest financial institutions in the entire State. Since the organization of the bank a little more than four years ago Archie has been continuously connected with its affairs either as cashier or vice president. His thorough knowledge of the banking business as well as his energy and courteous demeanor at all times has placed him well in the front ranks of Florida bankers. We congratulate the young man heartily upon his advancement and we further congratulate the stockholders upon their wise selection of a head for the institution.

From the Flagstaff (Ariz.) Gem of a recent issue, we clip the following concerning a Madison boy: "J. E. Ruffin, member of the Ruffin Drug Co., on Monday sold his interest in the firm to W. Y. Hunter. Mr. Ruffin has been in business here for many years. He and his wife will move to California to look after Mr. Ruffin's fine farming property. The new firm will be The Hunter Drug Co., and the business will be continued at the present location. Mr. Hunter will be the general manager of the new firm. He was in the employ of the old firm for over a year and has shown by his work that he is thoroughly familiar with every detail of the business. He is attentive to customers, an excellent pharmacist, strictly business, and has made many friends during his residence here. Mr. and Mrs. Ruffin will be missed by the host of Flagstaff friends but all wish them prosperity in their home in the Golden State." The many friends here of Young will be delighted to receive this evidence of his prosperity and progress in his far western home.
