Brief Mention.

Charles O'Conor is supposed to have left an estate of about $1,000,000.

Lord St. Leonards, of England, seems to be approaching the end of his tether. He was still in jail at last advices.

The 50,000 Bohemians of Chicago are to have the attention of Rev. E. A. Adams, who has been a missionary of the American Board in Bohemia.

Wildcat skins in San Joaquin county, Cal., are 40 cents apiece. A farmer living near Campo Seco has slaughtered nearly 100 of the "varmints," and a few days ago sold the skins in Stockton.

The latest "whisper" comes from New England. It is to the effect that Conkling, who wants to return to the Senate, has formed an alliance with Blaine. Me-To Platt is said to have negotiated the arrangement.

Hannibal Hamlin is not pleased at the report that he expressed a willingness to be second to Robt. T. Lincoln on the national Republican ticket. The report is thought to have grown from a newspaper paragraph suggesting "the old ticket of Lincoln and Hamlin," referring to Gen. Charles Hamlin, son of Hannibal.

Com'r Sampson, of the navy, and Prof. Barnard, of Columbia College, have been selected by the President as delegates on the part of the United States to the International Meridian Conference, which it is proposed to convene at Washington in October next, agreeable to the invitations sent out by the Department of the State.

John F. Slater the Norwich cotton manufacturer, left $200,000 to his son-in-law, Francis Bartlett, of Boston, and $1,000,000 to the same person in trust for the latter's daughter, a child of ten years. Mrs. Bartlett died nine years ago. The remainder of the estate goes to the testator's son, William A. Slatter, who, unmarried at twenty-eight, thus falls heir to about $10,000,000.

Consul General Everette Frazer, of the Corean Empire, has displayed the flag of that country at his office in New York. The flag is red, with a central figure called the "Tackin Fir;" otherwise, the "Great Extreme," or "The first great cause, least understood." Around this figure are four groups of lines, representing heaven, earth, fire and water.

The ages of the four new Methodist bishops recently elected by the general conference of the Northern Church are as follows: Dr. Ninde, of Illinois, who received 272 votes out of 403, is fifty-two years of age. Dr. Walden, of Cincinnati, who received 214 votes, is a year older; Dr. Mallalieu, of Boston, who received 206 votes, is fifty-four, and Dr. Fowler, the New York editor, is forty-eight.

The Rev. Dr. Wright, a distinguished A. M. of Trinity College, Dublin, has created some sensation by an article in which he says that many of the fellows of that university do not believe in divine revelation or the existence of a personal God. Several are, at the best, agnostics, if not atheists. There is no way for dicipliming either a fellow or professor for erroneous views, and so it is a propaganda of skepticism.

The literary world of Madrid had a good chuckle at the expense of the government. The manager of El Progreso was arrested for publishing an artical on tyrany, which was considered by the ministry as an incitement of civil war. The culprit, laughing in his sleeve, refused to divulge the name of the writer, and was sent to prison, where he would probably be now had not the government suddenly discovered that the article in question was an extract from Macaulay.

From a French State paper, lately brought to light, it appears that in 1770 the following Parliamentary decree was solemnly passed and duly registered under King Louis XV: "Whosoever, by means of red or white paint, perfumes, essences, artificial teeth, false hair, cotton wool, iron corsets, hoops, shoes with high heels, or false hips, shall seek to entice into the bands of marriage any male subject of his Majesty, shall de prosecuted for witchcraft, and declared incapable of matrimony."

THE SUN.

NEW YORK, 1884.

About sixty million copies of THE SUN have gone out of our establishment during the past twelve months.

If you were to paste end to end all the columns of all THE SUN printed and sold last year you would get a continuous strip of interesting information, common sense wisdom, sound doctrine, and fun enough to reach from Printing House square to the top of Mount Copernicus in the moon, then back to Printing House square, and then three-quarters of the way back to the moon again.

But THE SUN is written for the inhabitants of the earth; the same style of intelligence would gentle the plain people of the moon or twenty-eight times.

If every buyer of a copy of THE SUN during the past year has spent only one hour over it, and if his wife or his grandfather has spent another hour, this newspaper in 1884 has afforded the human race the attractive joys of steady reading, night and day.

It is only by little calculations like these that you can form any idea of the overwhelming influence on the opinions and acts of the American men and women.

THE SUN is, and will continue to be, a newspaper which tells the truth without fear of consequences, which goes at the facts no matter how much the process costs, which presents the news all over the world without waste of words and in the most readable shape, which is working with all its heart for the cause of honest government, and which therefore believes that the Republican party must go, and must go in this coming year of our Lord, 1884.

If you know THE SUN, you like it already, and you will read it with accustomed diligence and profit during what is sure to be the most interesting year in its history. If you do not know THE SUN, it is high time to get into the sunshine.

Terms to Mail Subscribers.

The several editions of THE SUN are sent by mail, postpaid, as follows:

DAILY—50 cents a month, $6 a year; with Sunday edition, $7.

SUNDAY—Eight pages. This edition furnishes the current news of the world, special articles of exceptional interest to everybody, and literary reviews of new books of the highest merit. $1 a year.

WEEKLY—$1 a year. Eight pages of the best matter of the daily issues; an Agricultural Department of unequaled value, special market reports, and literary, scientific, and domestic intelligence make THE WEEKLY SUN the newspaper for the farmer's household. To clubs of ten with $10, an extra copy free.
