

Foreign States, Nine Foreign Nations Represented in the Volusia Co. Public Schools

People realize how far beyond the limits of our own county the number of our public school systems are at present 572 (non-territorial) children attending schools, very few, if any, having been completed by this office, the District of Columbia, the foreign nations are represented by one thousand or more parents—tourists—now enrolled in the twenty-eight white schools of the county. To be accurate there are at present 572 (non-territorial) children attending schools, very few, if any, having been completed by this office, the District of Columbia, the foreign nations are represented by one thousand or more parents—tourists—now enrolled in the twenty-eight white schools of the county.

Foreign Nations
Canada, 7; Denmark, 2; Finland, 5; France, 2; Hawaii, 1; Italy, 4; South America, 1; Spain, 1; Total, 942.

It will be noted that Georgia heads the list with 103 children, while New York, Ohio, Michigan and Pennsylvania hold second, third, fourth and fifth places respectively.

It would naturally be expected that the largest number of children are enrolled in the tourist schools. That is true by the most part, on the other hand, there are but five out of twenty-eight schools which do not now accommodate a portion of these children. This seems to indicate that the growth and development resulting from the influx of people from other states is being greater over the county.

The tourist friends certainly should have an idea against the public schools. With the possible exception of one, none of the schools of the county charge non-residents tuition, except a fee of \$2.50 per month which is charged non-residents for attendance upon our schools. It would seem a collection from this source of \$250 per month, or \$18,000 for the year of eight months. This sum would be sufficient to extend all the schools of the county one month, making a nine months' term. At the rate of tuition charged up until a few years ago, viz., \$2 for primary and intermediate grades, \$3 for grammar school and \$4 for high school. The amount would be doubled, but the writer has no complaint against the free access of our schools to tourists' children. Our visitors have meant much to the general advancement and progress in education in recent years. They are, so far as I am concerned, welcome as long as we have room, and we have filled to capacity more buildings will be erected. Helpful suggestions made in a spirit of kindness and helpfulness are always welcome, but we haven't much patience with the fellow who will accept the hospitality of a free public school without root to him and then take delight in knocking it. We have had some experience of this kind during the winter. All we have to say to such people is that they should keep knocking until something they like more be found.

Outside of the educational advancement provided, the public school system is doing as much to advertise

Fund for Relief of Serbians Will Be Raised Here

Miss MacGill, special representative of the Serbian Relief committee of America, is in the city this week in the interest of a fund which will be raised in the Triple Cities this week for the relief of three hundred thousand starving Serbian children.

The greater portion of America has already responded to the call for funds for the starving children, the Triple Cities being one of the last communities which are asked to respond to the relief call, which has been so urgent. The quota which Daytona will be asked to raise will be decided early this week, and will, it is thought, be less than one thousand dollars, this sum being asked in small contributions from each business and resident of the Triple Cities.

Serbia, as readers of history know, has suffered untold crimes from the hands of the unholly Turk. Today, as a result, she is suffering from the loss of fifty per cent of her population with a pathetically weakened and crippled condition of her child population. Europe and America, in a small way, is repaying her for the suffering which she withstood, due to Christianly men live.

There are three hundred thousand children in Serbia today who need care practically all of them are orphans, and without exception all are suffering from the effects of prolonged under-nourishment and neglect.

Mrs. M. L. Stanley, president of the Palm Beach club, is chairman of the local committee in raising funds for the relief of Serbian children. Checks for this fund should be made out to the Serbian Club Welfare Association, and sent to Mrs. Stanley, at North Woodland avenue, or to 222 Commercial Trust Bldg., Philadelphia.

Miss MacGill will speak at the annual meeting of the Palm Beach club on Thursday in the interest of the fund, when it is hoped the ladies of the club will take an active part in raising over the top the amount necessary from the Triple Cities. The entire quota must be raised by the end of the present week, therefore

Wife of Editor on Tour, Passed Away Here Today

Mrs. Clara Nevin, wife of the publisher of the Laurel (Neb.) Advocate, and an icon of Florida with the National Editorial Association, passed away at a local hospital last night, following an illness which commenced with the visit of the national editors in Daytona a week ago.

The late Mrs. Nevin complained of feeling ill when the touring party reached Daytona, and was removed to the hospital, gradually becoming worse, following complication.

The afternoon Bingham & Huber forwarded the body to Laurel, Neb., accompanied by Mr. Nevin and several local members of the party whose internment will be made late this week.

Great regret was expressed that the pleasure trip of the party on tour of Florida should have proved fatal for the late Mrs. Nevin, who was highly regarded by the many friends which she had made.

JACKSONVILLE NEGRESS COOKS DIDN'T SHOW UP

(The Associated Press.)

JACKSONVILLE, Feb. 25.—North women of Jacksonville believe themselves are members of the walking tour in which they have begged for a few weeks past, but a few days ago a number of cooks here reported themselves at the office of the Jacksonville Negroes' Association, and sent to Mrs. Stanley, at North Woodland avenue, or to 222 Commercial Trust Bldg., Philadelphia.

Miss MacGill will speak at the annual meeting of the Palm Beach club on Thursday in the interest of the fund, when it is hoped the ladies of the club will take an active part in raising over the top the amount necessary from the Triple Cities. The entire quota must be raised by the end of the present week, therefore
