The rain Monday night was a perfect deluge for a time, accompanied by light hail in some vicinities, and there was the usual thunder and lightning of the summer shower. COUNCIL PASSED BOND SALE ORDINANCES TO THEIR THIRD READINGS

AUTHORIZE BOARD OF PUBLIC WORKS TO SELL \$100,000 TO BRYAN & CO. AND \$50,000 TO MERCHANTS BANK.

At Monday night's meeting of the city council ordinances authorizing the sale of Daytona's 1914 issue of sewerage and drainage bonds to Bryan & Co., of Jacksonville, and to the Merchants bank, of Daytona, were passed on first and second readings. Ordinance "B," relating to the Bryan & Co., deal received the votes of Councilmen Stevens and Mills, while Councilmen Conrad and Gougarty opposed it, making a tie, which was broken by Acting President Klock who voted for the ordinance. Councilman Burdick and President Schmidt were not present.

Ordinance "A," authorizing the sale of \$50,000 of the bonds to the Merchants bank received the votes of Councilmen Stevens, Mills and Gougarty, Councilman Conrad voting nay.

Both ordinances will come up for final passage at the next regular meeting of the council. The stipulated price at which both blocks of bonds are to be sold is, of course, par. Actually, however, the \$100,000 worth which Bryan & Co. propose to take will, if the sale is ratified by the council, net the city \$95,000, and the \$50,000 worth the Merchants bank offers to purchase will net \$47,000, making a total sum of \$142,000 the city would receive for \$150,000 worth of five per cent. forty-year bonds. It is contended by advocates of the sales that the city cannot reasonably expect to do better than this, considering the peculiar financial conditions which are now or may be later faced by the financial world. There are those, too, who quite as vigorously oppose the sales upon the terms named.

Bryan & Co. is a contracting firm with which the board of public works some time ago (after the deal with Spitzer & Co., of Toledo, O., fell through), commenced negotiations for the sale of part of the bonds and for the construction of the sewerage and drainage system. A member of the Jacksonville firm, Mr. Bryan, was present at the meeting last night. He verbally presented to the council an outline of his position, and made a favorable impression.

Councilman Gougarty gave notice that he will, at the next regular meeting of the council, introduce an ordinance regulating the operation of "jitney" busses in the city of Daytona. A copy of the proposed ordinance is on file at the office of City Clerk Porter.

Communications from several property owners who complained that their 1915 taxes are too high were filed for further consideration and investigation.

The street committee was authorized to purchase, when needed, a sprinkling cart for use on the city streets.

REPUBLICANS STEP UP FOR THEIR "MEDICINE"

INDIANAPOLIS, May 11. — Judge Anderson who so unfeelingly sentenced Mayor Roberts and his political cohorts who stuffed the ballot boxes in Terre Haute district to from one year for the chief of police to six years for the mayor, will today take up and pass sentence upon Roy E. Shattuck, republican candidate for congress from the Fifth district and the other republicans indicted. The "afflicted" have grave apprehensions.

MEMBERS BOARD OF PUBLIC WORKS MUST GIVE \$10,000 BONDS

Mayor Henry T. Titus, during the meeting of the city council, Monday night, arose and demanded that each member of the board of public works be required to comply with the municipal law which provides that they shall guarantee the faithful performance of their duty by giving indemnity bonds to the city they serve.

A resolution, offered by Councilman Mills and seconded by Councilman Conrad, requesting each member of the board of public works to give bond in the sum of \$10,000 was unanimously adopted. E. M. Condit, secretary of the board of public works, in speaking for that body stated that no member of it objected to giving bond but did not think it necessary or required by the municipal law.

An ordinance passed and approved March 30, 1909, specifically states that the members of the board of public works shall give bonds "for the faithful performance of their duty," and the proper disbursement of all moneys which "may come into their hands by virtue of their offices." This ordinance has not been repealed, but no member of the board of public works has been under bond in several years.

DR. G. A. KLOCK GAVE SPLENDID ADDRESS AT CHRISTIAN CHURCH

The services at the First Christian church were largely attended on Sunday evening, at which time Dr. Klock gave a splendid address on "Keeping One's Health." Among the special things mentioned were food, sleep, work and habit. He showed that most people who are "worked to death," are people who spend too much of their time in pleasures not wisely directed, and by keeping late hours, thus making them unfit for real work. He admonished all to form regular habits as regards food, sleep and work.

At the conclusion of Dr. Klock's address, the minister, S. L. Jackson, took the divisions of the doctor's address and applied them to keeping one's health spiritually. At the close of the minister's talk, the invitation was given and one young lady went forward to confess her faith in Christ.

The address by Dr. Klock is the first in the summer series to be given on the second Sunday evening in each month. Some business or professional man will occupy the pulpit discussing themes of vital interest to the people of the community.
