CRISIS NEAR REACHED IN GERMAN WAR

Dismissal Of Officers Of High Rank Shows

Step In Next Operations

Associated Press

WASH., Dec. 23... Adolph
Milder's self-appointment as con-

trol-in-chief of the German

navy and his summary dismissal

of high-ranking officers can mean

only that a new era has arisen in

West war operations.

This fact is being stressed by

admirals, who are with

particular emphasis to Hitler's

plan, that the troops "defend

people's coast in the face with

national determination."

Activity of a minor phase further

shows that Germany's objective

is the smashing Russian

offensive, which is not far from

where the Nazis were halted

20 miles to the west and

several of their best divi-

tions.

More Alexis in his radio

speech that it is the solution

substitute to pain, punishment.

Germany's chief objective is

the opening of a corridor to

freedom of action.

The British have expressed alarm

throughout the world, for those

who are in a similar attach-

to the attack.
