

# PRESIDENT ONLY ONE WHO CAN PREVENT COAL STRIKE

## SECRETARY WILSON IS UNABLE TO BRING PEACE BETWEEN TWO FACTIONS

**GOMPERS CALLS CONFERENCE OF LABOR HEADS IN WASHINGTON AT AN EARLY DATE—PRESIDENT EXPECTED TO MAKE AN APPEAL TO BOTH SIDES.**

WASHINGTON, Oct. 24—(United Press)—Settlement of the soft coal strike threatened for November 1st will be up to President Wilson, Secretary of Labor Wilson announced today. Secretary Wilson appealed to the miners and operators, who are in conference here, to remain in session until four o'clock, so he could lay their difficulties before the President. This appeal came after a rejection of his fourth proposal this morning. When this proposal was turned down the Secretary apparently decided he had exhausted his own resources to bring about an agreement.

**Labor Heads to Confer.**  
WASHINGTON, Oct. 24—(United Press)—A Conference of the heads of all International Unions connected with the American Federation of Labor has been called to meet in Washington at an "Early Date." Samuel Gompers revealed today in a telegram to the Illinois State Federation of Labor. The telegram was in reply to one authorized by the Illinois Federation yesterday requesting the Conference.

## CLOCKS TO BE TURNED BACK SUNDAY MORNING PERMANENTLY.

Question as to Whether War Time Measure Has Ever Been a Saving of Daylight.

Sunday morning at 2 o'clock time in the United States will be retarded one hour, and all clocks and watches should be set back just sixty minutes. This will mark the expiration of the war-time daylight saving law, which has come in for a great deal of criticism.

With the changing of clocks and watches there will also come a change in the hour for doing business nearly everywhere. In Palatka stores will open at 8 o'clock instead of 9 and church services will be held as during the period previous to the adoption of the daylight saving law. But all trains will continue to operate on the new time, and the post office will observe it without change.

This readjustment may cause some confusion at first but it will only be a short time before everybody adjusts themselves to it. The schools will probably return to the old opening hour of 8:30, no official announcement yet having been made.

## PRESIDENT IMPROVING.

WASHINGTON, Oct. 24—(United Press)—Bulletin issued by President Wilson's physicians said today; "The President continued slowly to gain in strength. There's nothing additional to report this morning." Mr. Wilson slept late to-day. He did not work during the morning, Dr. Grayson said.

## LODGE TO SUBMIT NEW RESOLUTION TO SENATE TODAY

**ACTION WILL BE DEFERRED BY SENATE UNTIL PENDING RESOLUTION OF RATIFICATION IS DISPOSED OF—VOTE TODAY IS DOUBTFUL.**

WASHINGTON, Oct. 24—(United Press)—Reservations to the Peace Treaty agreed on by the foreign relations committee were reported to the Senate this afternoon by Chairman Lodge. The preamble requires that they be assented to by three of the leading Allied Powers before the American ratification becomes effective.

WASHINGTON, Oct. 24 (United Press)—A revised resolution of ratification of the Peace Treaty will be reported to the Senate today, provided Senator Lodge can complete the drafting of a new resolution it was stated.

Action by the Senate will be deferred, however, until the pending amendments are disposed of. It appeared doubtful whether the Johnson and Moses Amendments would be voted on today.

**Allies Threaten to Take Hand if Government Fails.**

PARIS, Oct. 24—Allied intervention in and possibly the occupation of Hungary, in the event of a stable cabinet not being formed within two weeks is stated to be the threat carried by Sir George Clark, peace conference envoy, who left Paris for Budapest today.

## SKY PILOT DID NOT MAKE BEST TIME IN FLIGHT

**MAYNARD MAY LOSE TITLE OF CHAMPION CROSS-COUNTRY AVIATOR WHEN REVIEW OF ACTUAL FLYING TIME IS MADE—DONALDSON MAY GET FIRST PLACE.**

NEW YORK, Oct. 24—(United Press)—Although two days behind Lieutenant Belvin W. Maynard in finishing his second transcontinental flight at Meola, Captain J. O. Donaldson may be the winner of the army's 5,400 mile airplane reliability contest on the technical point of actual flying time.

A first computation by members of the Contest Board of the American Flying Club showed that Donaldson had flown the distance in 49 hours, 56 minutes, and 11 seconds, or about 11 minutes better than Maynard's time. All the figures are now being verified and members of the Contest Board will go to Washington this week to compare their official records with the books sent into Air Service Headquarters by the twenty control stop commanders who checked each flier in and out of the stations.

Revision of Maynard's time for the flight from the Atlantic to the Pacific showed that he had covered 2,701 miles in 25 hours, 11 minutes, and 8 1-2 seconds, and his time for the return was given as about 25 hours flat. One unofficial computation by the American Flying Club placed it at 24 hours, 45 minutes, and 8 seconds, and if this time were accepted as official, he would be only six seconds behind the flying time of Donaldson. The officials believe, however, that the re-check will favor Donaldson by about 11 minutes.

The performances of these two men, who are far ahead of their sixty competitors on all points of competition, represent superiority in two methods of flying that differ radically. Maynard flies entirely by compass and pays little attention to any but the most important landmarks. Donaldson flies near the ground, and finds his path entirely by reference to his map and the landmarks, using the compass hardly at all. Maynard prefers the big De Havilland plane. Donaldson likes the tiny single-seater SE-5, a scout plane, although it is much more than susceptible to adverse atmosphere conditions than the De Havilland, which is about three times as large.

Captain Donaldson also set a record for a single day's flight with a little scout plane by flying 823 miles from Rock Island to Binghamton, N. Y. Captain Donaldson said that his motor functioned perfectly throughout the 3,400 mile flight, and added that he would have been able to have flown more than 823 miles on last Saturday if the weather had not been adverse in Ohio and Western New York.

## SENATE GOES AFTER THE BOLSHEVIKS; A DRASTIC MEASURE IS INTRODUCED

## LLOYD-GEORGE MAY RESIGN AS BRITISH CHIEF

**DEFEAT IN HOUSE OF COMMONS BRINGS ABOUT A SERIOUS SITUATION, ACCORDING TO PRESS—DEFEAT CAME ON VOTE ON ALIEN BILL**

LONDON, Oct. 24—(United Press)—Lloyd George government faces a serious situation as a result of last night's defeat in the House of Commons, according to opinion generally expressed by the press today. Many officials and political experts declared they believe the resignation of the premier certain. Unionists and laborites united in defeating the government's amendment to the alien bill.

The alien bill, the earlier stages of which were disposed of during the summer session, was in the report stage. The committee had previously inserted an amendment withholding pilotage certificates from all aliens, and today the government sought by amendment to modify this restriction in favor mainly of a number of French pilots, for whom provision had been made in the existing pilotage act. This amendment, however, was defeated, although in charge of government whips.

The governments position was discussed at a cabinet meeting in Downing street today.

## SENATOR MARTIN IMPROVES.

**INTELLIGENCE OFFICER SAYS VIOLATORS GO UNPROSECUTED ALTHOUGH DEPARTMENT OF JUSTICE HAS THEIR NAME—WOULD MAKE PHILIPPINES A PENAL CAMP.**

WASHINGTON, Oct. 24—(United Press)—The Senate "Went Over the Top" in a hot chase after Bolsheviki agitators today. Lieutenant Van Ruen, military intelligence officer, told the Senate Labor Committee investigating the steel strike, that Red agitators in the Gary steel district have gone unprosecuted, although the department of justice had their names.

A drastic bill to stamp out Bolshevism was introduced by Senator McKellar of Tennessee. A portion of the Philippines is set aside by this bill as a Penal Camp for violators. An appeal for help of the department of justice in stamping out agitation at Youngstown, Ohio, was received.

Numerous telegrams also received protesting against the threatened miners strike, charging that Bolshevism is responsible.

## CENSUS ENUMERATORS ARE NOT TO BE HAD

**THOSE WHO MIGHT WORK SAY PAY IS TOO SMALL.**

Is Same Per Diem As Allowed Ten Years Ago—Impossible to Work For That Wage Now.

Of the sixteen census enumerators needed to take the next census in Putnam county only three applications have been made to the district supervisor, and it begins to look as if it will be impossible to secure enumerators for many of the counties in Florida.

The difficulty in securing enumerators lies in the small pay, the requirements as to ability of the enumerator and the necessity for use of an automobile at his own expense.

Some time ago the Palatka Business Men's Association took the matter of furnishing enumerators up. A man was sent to Jacksonville to confer with Supervisor Emery. There he learned that it would be necessary to stand an examination in November, wait until January 1 to go to work and then receive pay of 20 cents per family and 30 cents for each farm enumerated. This sounds easy, but when the blanks the enumerator is required to fill out are examined it is found that securing enough to net the enumerator four dollars per day would be a herculean job.

In addition to these requirements enumerators in the country must provide their own cars. The job is not an alluring one and it is extremely doubtful if the government will be able to secure enough men, or women, to do the work.

## FITZGERALD IS UNSEATED.
