

LEED AXWORTHY STARTING IN TURF CHAMPIONS OF TODAY

(By Associated Press.)
New York, Nov. 4.—When Peter Manning and Arion Guy established new world speed records during the fall trotting season held here, thousands of spectators took their performances as a matter of course while breeding specialists and followers of the sport went to scan pedigrees and statistics to discover if possible the origin of the unusual speed displayed by the animals.

Study of pedigrees made by W. S. Anderson, an authority on breeding and a member of the husbandry department of Kentucky College of Agriculture, revealed that the two animals derived their ability for speed from Axworthy, a sire who was not exceptional fast himself but one who is credited for the speed of his get and of his sons. He has a record of 2:28.

Studies made by Prof. Anderson that Peter Manning who set a world's record for the mile by trotting the time from 1:58 to 2:00 could not have obtained his speed from his mother, Glendora G., who had a track record of 2:25 1/4 from her sire Emmet Gratton, who had a record of 2:28.

On the other hand one would not expect the sire of Peter Manning, who has a record of 2:14 1/4 for the mile to produce the greatest speed of his breed but it must be noted that the champion's speed is not from his sire since he has not obtained it from his mother, Glendora G., who had a record of 2:25 1/4 from her sire Emmet Gratton, who had a record of 2:28.

Even when the New York suitor has the money he often seems unable to locate a home. This condition is common. Because of the home shortage, many young things after their conventional dizzy honeymoon return to live with the girl's family or the man's. Perhaps from this will come a new field of humor, the son-in-law and daughter-in-law jokes that would give mother-in-law a long-awaited relief.

"Lightning strikes hidden moonshine." And we have no doubt the moonshine knocked thunder out of it. Great gift of toughness to his descendants," Prof. Anderson said. "He also has passed an extreme speed but its value in his offspring has not been as great perhaps as his contribution of endurance. Peter Manning got this toughness or endurance through his sire Azoff in a superlative degree. Last year he was a consistent trotter and established the world's record for three heats in 2:03, 2:02 1/4, and 2:02 1/4. He also holds the world's record for four-year-old geldings with a mark of 2:02 1/4.

"Peter Manning's intelligence could have come to him through more than one line of his pedigree. This is an important factor which is sometimes underrated by people who view a trotting race. No matter how fast a horse may be or how great his endurance if he will not start right, stay in his gait or yield himself to his driver, he will not make records worthy of his speed and endurance."

Gotham's Marriage Crop Shows Dearth of License Seekers

(By Associated Press.)
New York, Nov. 4.—While elsewhere in the country more people are being married this year than ever before, in New York times are duller than usual for the license clerks and the ministers. Government statisticians recently concluded the 1921 crop of weddings would be a bumper one, with Dan Cupid harvesting 1,500,000 brides and just as many husbands from the fields of the unmarried. And yet New York city's record probably will show at least 3,000 fewer marriages than in 1920 or 1919.

There are easier tasks than giving an explanation for this nationwide epidemic of knot-tying in a year when millions are unemployed and as many more are brooding over decreases in their incomes. So say the sociologists and others with penchants for finding out what they call the why of things. But it is not distressingly futile to seek a reason for the fact that only 56,501 licenses were issued up to a recent date here this year compared to 59,065 in the corresponding period of 1920.

In the first place, they will tell you at the license bureau that there are fewer immigrants than in the past, because of the restriction laws. Unmarried aliens always had a habit of coming over here to enjoy freedom, and then almost immediately flinging part of it away at the altar. Many young men who might otherwise wed avert that when the landlord would get through deflating their pocketbooks not enough would remain to calm the butcher, the baker and those who deal in silk stockings, cosmetics, subway tickets, coats, suits and the other things needed by housewives, such as needles for darning the husband's socks and rooling pins to fashion biscuits and maintain order.

Even when the New York suitor has the money he often seems unable to locate a home. This condition is common. Because of the home shortage, many young things after their conventional dizzy honeymoon return to live with the girl's family or the man's. Perhaps from this will come a new field of humor, the son-in-law and daughter-in-law jokes that would give mother-in-law a long-awaited relief.

"Lightning strikes hidden moonshine." And we have no doubt the moonshine knocked thunder out of it. Great gift of toughness to his descendants," Prof. Anderson said. "He also has passed an extreme speed but its value in his offspring has not been as great perhaps as his contribution of endurance. Peter Manning got this toughness or endurance through his sire Azoff in a superlative degree. Last year he was a consistent trotter and established the world's record for three heats in 2:03, 2:02 1/4, and 2:02 1/4. He also holds the world's record for four-year-old geldings with a mark of 2:02 1/4.

"Peter Manning's intelligence could have come to him through more than one line of his pedigree. This is an important factor which is sometimes underrated by people who view a trotting race. No matter how fast a horse may be or how great his endurance if he will not start right, stay in his gait or yield himself to his driver, he will not make records worthy of his speed and endurance."

"Pretty Men" In Advertisements To Be Banished

(By Associated Press.)
New York, Nov. 4.—The farmer boy, the printers' devil and the work-a-day clerk are going to have their pictures on the billboards and magazine pages this winter. They will replace some of the swagger young men who have been posing several seasons for the artists hired by collar and clothes manufacturers. Not a few of these concerns have concluded that the orchid is not the flower of young American manhood, and they are going in for sunflowers.

They say the buying public doesn't like the ping-cheeked men who have been showing the readers of advertisements what to wear. They seemed to have nothing to do but watch polo ponies, indifferently peer at yachts in the cove or ignore the football players on the field below them in order to swap small talk with girls in vivid sweaters and sport skirts.

People began calling them pretty boys, cake eaters, lounge lizards, sissies. Humorists poked fun at them and the good old common people who bought most of the collars and suits said "if that's the kind of a face you have to have to be well dressed, I'll go through life a slouch. But now they are going to show the public that one can be a regular everyday fellow with a job and still be smartly clothed. Last winter there was a warm discussion within the National Association of Retail Clothiers as to the public attitude toward the "pretty men" in advertisements. This fall the result of this discussion is apparent. Recently the new catalogue of a nationally-known clothing house was published with-

Armament Confab to Be at Famous Oul Green Table

(By Associated Press.)
Washington, Nov. 4.—The "green table" at which the representatives of the nations participating in the forthcoming conference on limitation of armaments and Far Eastern and Pacific questions will sit during their deliberations will be especially made and furnished by the navy department.

The table which is destined to become historic is not of mahogany but of a light wood finished in mahogany. It is constructed in sections and is portable, making possible its transfer in case some of the full sessions of the conference are held in other than Continental Hall.

When assembled it forms a hollow rectangle with the fourth side open and measures on the two long sides forty feet, and across the third, twenty-eight feet, giving a total perimeter of 108 feet—ample room for eating at least thirty-six persons. The table will, in accordance with custom, be covered with green baize.

out a single ballroom scene, bridge party or clubhouse etching. Virile settings supplanted them. There was a drawing of an old tar talking to two sturdy youths beside a ship, a freighter, it was, not a palatial passenger carrier. Another showed a well-dressed office worker working. He was within sound of a printing press. A third pictured a farmer dressed up for a trip into town. He bore a business-like mien and apparently was just giving some final instructions to the hired man on the tractor when the artist happened along.

Dr. Prince Leaves For Denmark Post

New York, Nov. 4.—Dr. John Dyneley Prince, professor of Slavonic languages at Columbia University who was recently appointed United States Minister to Denmark, leaves today for his diplomatic post. He expects to devote part of his time in Denmark to continuing studies of that country's early history and ancient inscriptions.

"I have a special sentimental reason for being glad that I am sent to Denmark, as part of my own family originally came to America from that part of England settled by King Canute's Danes," he said. "In fact, my very name 'Dyneley' means 'Danelaw,' a name given to those settlements by the early English.

Dr. Prince is the second member of his family to hold a diplomatic position for the United States. His grandfather, Johnson, was minister to England shortly after the civil war.

After being graduated from Columbia in 1888, Dr. Prince accompanied an expedition which excavated for antiquities in southern Babylonia. His studies of ancient inscriptions were later carried on at the University of Berlin and elsewhere in Europe. His knowledge of language embraces the Semetic and Latin tongues as well as Slavonic. Each recent summer he devoted to studying Indian tribal languages in Maine and Canada.

Advice For Women Who Suffer
"I wish every woman who suffers with kidney trouble to try Foley Kidney Pills," writes Mrs. Bessie Brawner, 2522 Scoville Ave., Cleveland, O. "I could not do my house work, but since taking Foley Kidney Pills I feel like a new woman and

am able to do my work." Rheumatic pains, swollen ankles, disturbing bladder ailments indicate disordered kidneys. Foley Kidney Pills act promptly. For sale by J. H. Haugh-

Announcement

F. D. Meintzer, formerly of the Cushman Bakeries of New York, and late of the Palatka Baking Co., has purchased the Old City Bakery at 620 Lemon street and will operate a first class bakery and conditor shop. And will always have on hand a full line of breads, cakes, pies, and in fact everything in the pastry line.

IF IT IS BAKED, WE BAKE IT

We are prepared to cater to parties and will make any specials wanted. Wedding cakes a specialty and exclusive designs. Give us a trial. Call Phone 202-W.

H. G. WELLS

Has Come to America to Write His Views of the Washington Armament Conference for Readers of

The Florida Metropolis

Florida's Greatest Newspaper
JACKSONVILLE, - - FLORIDA

**The Price of Bread—The Length of the Working Day—The Government Tax on Earnings—
The Well-Being of the Race—The Salvation of the Country—The Education of the Children—
The Fate of Future Generations—The Sacrifice of Humanity—The Destruction of Civilization**

These are just a few of the human problems that are hanging in the balance at the Washington Conference on Limitation of Armaments.

Upon the outcome of this conference depends the answer to the questions which were the underlying causes of the World War and which the Peace Conference at Versailles failed to solve.

But H. G. Wells will not be the only expert who will write of the Disarmament Conference for readers of The Metropolis. The management of Florida's Greatest Newspaper has lined up what it believes is the strongest staff of special writers to cover this big event. The following are included:

DAVID LAWRENCE, Washington's Foremost Political Writer.
WILLIAM JENNINGS BRYAN, resident of Florida, thrice candidate for president.
MARY ROBERTS RINEHART, one of the world's greatest women writers.
PETER B. KYNE, one of the country's greatest novelists.
NORMAN HAPGOOD, REAR ADMIRAL FISKE, JAMES W. GERARD, GABRIEL D'ANNUNZIO, and others.

The Metropolis will also publish the reports of THE ASSOCIATED PRESS, THE UNITED PRESS, THE INTERNATIONAL NEWS SERVICE, THE UNIVERSAL NEWS SERVICE, THE CONSOLIDATED PRESS, THE NEWSPAPER ENTERPRISE ASSOCIATION.

**No Southern Paper Can Beat This Lineup of Experts. Nothing But the Best is
Good Enough for Metropolis Readers**

Order the paper NOW from your newsdealer, as his supply on this important series will be limited to advance orders only, or mail your check direct to The Florida Metropolis, Jacksonville, Florida.
