## **BOARD OF TRADE** GIVES BANQUET

"Push Palatka and Putnam County." The Palatka Board of Trade closed mother year of successful effort for the development of Palatka and Putnam unty by giving a banquet at the rooms the Palatka Athletic Association

last Monday night.

This affair was attended by fully 100 representative business and professional men of Palatka, and is unique in the history of the city in that in all that body of men there was not one thought other than of a determined purpose to all unite under the banner and leadership of the board for a forward movement in this

city and county.

The banquet was a happy thought, carried to perfection under the direction of Mr. Robert Ranson, general manager of the Florida Fuel and Fertilimanager of the Florida Fuel and Fertilizer Co., recently organized to develop the big peat bogs north of the city. After an hour spent in eating and in social converse, the toastmaster of the evening, Mayor H. A. Davis, who is also president of the board of trade, rapped for order and called upon Mr. Ranges and the converse of the c son, who eloquently and carnestly sound-ed the key note of a united movement for development. Mr. Ranson was roundly applauded. Judge E. E. Has-kell responded eloquently and further urged the necessity of earnest and united

ka and Putnam county was the slogan of the meeting sounded by every speaker. The whole affair was an expression of a purpose on the part of those present to work for home development.

At the conclusion of the exercises, President Davis read his annual address, which follows. The board also elected the following officers for the ensuing year: President, George B. Selden; vice-president, John N. Walton; secretary, H. M. de Montmollin; treasurer, Henry Strunz. Fifteen new applications for membership were received.

President Davis' Annual Address. Members of the Board of Trade.

I am glad to say that the march of progress and prosperity has gone steadily forward in our city and county, and we can look back with a county, and we can look back with a certain amount of pride to what has been accomplished during the past year.

I note with pleasure that our business men take advertising space in this journal sufficient to about cover the cost of its publication.

Mr. F. J. Cunningham, a New York contractor, has under construction a number of dwellings, all of which are handsome in design and will add greatly to the appearance of the city.

One of the best evidences of the progress and prosperity of any community is the demand for real estate. Never before in the history of Palatka has so much property changed hands as during the past year, and in each instance the considerations were so satisfactory as to show a decided increase in values.

Another one of the evidences of the progress and prosperity of our city is the number of conventions that have been held within our gates in the past year. A further proof of prosperity may be noted in the fact that a year ago not an nutomobile was in Palatka; whereas, today, besides those owned by quite a number of our citizens, there are six of these vehicles for public hire.

In June the general government inaugurated a free postal delivery, same being divided into two districts, and if the increase is as great in the next six months as in the past, additional carriers will have to be employed in order to give the people adequate service.

The bridge and court house will stand a monuments to the Palatka board of I regret to state that our membership

has not increased as it should and that the very class of business men who may fairly be considered to derive the most beneft from the efforts of the board of trade are the very ones who are furnish ing the least support. If those, who by their indifference and tack of public spirit are impeding the work of this or-ganization, would change their tactics and devote a little of their time to boosting and pushing everything pertaining to the future growth of our city, we would make better progress.

Palatka is now on the upward trend.

Never in the history of the city have the prospects been brighter and the true spirit of progressiveness been so general. An air of confidence now pervades all channels of trade and industry, and these optimistic sentiments have attracted attention in all parts of the country.

Its people may talk among themselves as much as they please about its advantages-and it may have many-but, unless these advantages are advertised, the people outside know nothing about them and consequently are not attracted; and the best organiza tion for such an effort is a board of trade conducted as a business proposition. One that will not be an occasional, spasnodic effort, but a persistent every day effort on business lines. Such an organ ization must not be dependent upon an occasional passing around the hat, but must have a certain fixed sum for its maintenance. Nor must its work depend upon a few. Mr. Willson left here some three years ago to take charge of the company's business at Tifton, Ga. but was recently promoted to the office of traveling freight agent. His many old friends in Palatka were glad to see him.

It is the purpose of the purchaser to colonize the lands by inducing settlers from the west to take up small tracts for farming purposes the coming fall. Much of the land is of fine quality, and suitable for general farming.

The deal means that new people and lots of them, are coming to Putnam county, and that we are entering upon a period of development along agricultural lines that is going to make old imors eatch their breath.
