Benita Today.

Have you noticed the feature programs this popular theatre is running daily. Today is no exception, as a Biograph drama, heads the bill, entitled, "The Old Actor," in which the popular little actress, Mary Pickford, takes the leading role, supported by the usual strong company of Biograph actors. An Edison comedy and a Pathe drama complete the picture program. Miss Waring, direct from Greenwood's circuit, is making many friends by her clever singing, having a strong and clear voice. She handles only the latest songs and will sing one of her strongest numbers today, "Day and Night." This program is well worth your money today so don't miss it.

LEADING FIGURE AT PRESBYTERIAN MEET

Rev. Dr. M. A. Mathews, a commanding figure at the Presbyterian General Assembly now in session at Louisville, Ky., is Rev. Dr. Park Mathews, pastor of the First Presbyterian church, Seattle, Washington. He was chosen moderator of the assembly this year on the first ballot, his nearest competitors being President James G. McClure, of the McCormick Theological Seminary of Chicago. Dr. Mathews received 418 votes, while Dr. McClure received 157.

Dr. Mathews, who is known as the "Tall Pine of the Sierras," is six feet four inches tall and weighs less than 150 pounds.

MAN CHARGED WITH CRUELTY TO AN ANIMAL

CHARLES HARRIS, A DRAYMAN, IS ARRESTED BY OFFICER SWANSON, WHO SAYS ANIMAL IS UNFIT FOR WORK.

Police Officer Swanson arrested Charles Harris, a negro drayman, yesterday afternoon and he was taken to police headquarters and will have to answer to a charge of cruelty to dumb animals.

It charged that Harris was driving an animal to a dray which was in no condition to be at work. In view of the fact that there has been considerable public opinion aroused against parties who have been driving animals unfit for work it is expected that the outcome of the Harris trial will be awaited with interest by Pensacolians.

The case will be heard by Recorder Welch this morning.

GUILLEMARDE ST. DRAINAGE.

The bond trustees presented the report of Engineer Rommel relating to additional storm water drains on Guillemarde street. In this the engineer submitted three propositions, any of which would relieve the situation in that section, the lowest estimate of cost being \$2,600 and the highest \$5,200.

The matter was referred to the water and gas committee after much discussion, in which Chairman Kugel-moyer and gas committee, Aldermen Moyer, Renshaw, Fisher and Concanon participated.

Alderman Moyer, in the course of his remarks, said the water and gas committee was the only committee which had any money and inasmuch as the drainage is for the purpose of relieving and protecting the property of the water committee it was nothing but proper that the water department should bear the expense.

Alderman Fisher withdrew his objection to the report going to the water and gas committee when he learned that it was the intention of the council to allow this committee to select one of the three propositions submitted by the engineer and then compel the water department to pay the expense.

Chairman Kugelmann said the aldermen appeared not to know the amount of expense of the water department, how much money was on hand or anything about the expense of improvements contemplated.

Alderman Bear intimated that the surplus of this department was something tremendous, and Alderman Moyer said that the water department was the only one receiving big sums of money every three months.

The motion was finally passed and the committee instructed to report at the next meeting.

WOOD PAVING GOOD.

City Engineer Thornton reported that the brick paving in certain sections of the city is showing indications of wear, but suggested that inasmuch as the guarantee of the paving company covered three more years that the paving company not be required at the present time to make repairs.

The engineer said in his report that the wood block paving shows no signs of wear and apparently is in good condition.

Chairman Merritt of the bond trustees stated that the paving company would make all repairs to the old paving before it completed the present contract.

ROSEWATER HAS IMPORTANT JOB

Victor Rosewater, of Omaha, Neb., will be very much in the public eye for several days next month, beginning June 6. He is chairman of the national Republican committee, which will meet at Chicago on the above date and determine which of the contesting delegations at the national Republican convention shall be entitled to seats. As there are many contesting delegations it is not unlikely that the rulings of the national committee will determine whether Taft or Roosevelt shall receive the nomination.

NEW CITIZEN IS ALREADY IN LOVE WITH CITY

CHARMS OF PENSACOLA AT PRESENT AND BRIGHT FUTURE PROSPECTS CALL FORTH AN OUTBURST OF ENTHUSIASTIC PRAISE FROM LAWYER.

Judge C. W. Girdlestone, who recently opened law offices in the American National Bank building, was yesterday interviewed by a Journal reporter. The reporter found the judge in a very communicative and optimistic frame of mind. Asked what induced him to leave Mississippi and come to Pensacola, he replied: "It was a plain business proposition. This city, in my opinion, has the brightest future before it of any city in the United States. Without doubt it will more than double its population before 1920. This rapid growth will be caused not alone by the opening of the Panama canal and our splendid deep water harbor but also by the facts that here we have a delightful climate, both winter and summer; a pure water supply, than which none in the country is better; well kept and well lighted streets; office buildings and hotels that would do credit to a city twice as large; and a wide-awake Commercial Association. Other good things are in store for us, but not these enough to make me a fixture here."

ISSUE ANOTHER BULLETIN SOON

COMMERCIAL ASSOCIATION WILL ISSUE BULLETIN DEVOTED TO INDUSTRIES OF CITY—OTHER NEWS OF THE ASSOCIATION.

Secretary Leland J. Henderson, of the Pensacola Commercial Association, is preparing the matter for the association bulletin which is to appear in a few days. It will be the Industrial Edition, devoted to a statement of the Pensacola industries, of the waste products and their utilization. In addition to this information suggestions are to new industries which may be started to good advantage here will be given.

The office force of the association has been at work collecting the data for the Industrial Edition of the bulletin for several months and the secretary feels confident it will contain information which will be of interest to Pensacolians and the outside world.

Secretary Henderson has written a Panama Canal article with reference to Pensacola which will appear in the Tradesman either this or next week. The secretary wrote the article at the request of the editor of the Tradesman and it was a rare opportunity for obtaining some good publicity.

A paper company is inquiring of the waste matter at the saw mills in Pensacola. The company is searching for a location where there is a supply of raw material and the Commercial Association will furnish the information and will seek to bring the industry to Pensacola.

Well-Meaning Bride. "Darling," said the young bride, "I don't mind your going to baseball games." "Thank you, dearie," he said. "But there is one thing I wish you'd do." "And what is that?" he inquired. "When the team is going to play an extra-inning game I want you to call me up beforehand so that I will know when to have supper ready."—Detroit Free Press.
