New Kind of Calomel Safe and Delightful

The new kind of calomel, known as Calotabs, retains all of the good medicinal virtues of the old style calomel, yet is entirely purified and free of the nauseating, disagreeable and dangerous qualities. You can, therefore, eat what you please and go where you please, with no loss of time from your work.

One Calotab at bedtime, with a swallow of water—that's all. Next morning you awake feeling fine, your liver cleansed, your system purified and with a hearty appetite for breakfast. Calotabs are sold only in original, sealed packages, price thirty-five cents. Your druggist recommends them and will refund your money if you are not delighted.—(Advt.)

Eradication of the Tick

(Continued from Page 5.)

not a great many cattle at the time it was being worked, but I want to tell you that since we have made Dade, Broward, Monroe and a part of Palm Beach county free, there has been a development of dairy and beef cattle herds of considerable importance. For the first time in the history of those counties they can safely ship in pure bred and high grade cattle from the northern States.

"But what I want to particularly call to your attention is the opportunity you have of helping to make a wide white belt across the red map of Florida next year. We are counting on Polk county to put on systematic dipping of cattle early next season, at the same time with Hillsborough, Osceola and Brevard counties and divide the tick forces in the State.

"Why are we so earnest in our campaign against the cattle tick? Because it transmits a disease that kills large numbers of the cattle and stunts all that survive. The quarantine was originally put on to protect the cattle industry in the northern States from ticks carried there by our southern cattle. That was before we knew how to eradicate the ticks, but for 25 years we have demonstrated that ticks can be eradicated, so you people will have to accept as a fact the statement that it can be accomplished in this county, and with your hearty co-operation the ticks can be cleaned out by autumn of next year. When that is done you will not have to continue dipping your cattle for ticks, and the county expense will stop.

"Live stock is the real foundation for development of this county, which is primarily an agricultural county. Live stock builds up the soil, and in connection with your large trucking operations will take care of the crop that follows to the best advantage.

"I want to make it plain to every person here that we can accomplish complete eradication of the cattle ticks under your present open range conditions just as easily as any other way, and we want you to continue to utilize the open range as long as it is available to you.

"But, notwithstanding the fact that Polk county is a great grazing country, milk in the cans and butter from northern States is being shipped in here in large quantities to feed your people. The dairymen are not to blame for the present high price of milk. The tick is to blame and that is why the business men should make it their business to help the farmers and cattle owners in this movement.

A number of Boards of Trade have taken responsibility for starting the machinery for holding the elections necessary before systematic work can be taken up in any county.

"It takes organized leadership to get results and that is where your business organization can be of very great benefit to the county at large by taking the initiative in circulating petitions calling for an election this fall, to be held in connection with the general election, so it will not entail any additional expense on the county.

"It will promote co-operation between the business men and the men in the country, and be a great help all around. Getting this county released from quarantine will be the greatest asset you possible can obtain."

BACKACHE IS DISCOURAGING

But Not So Bad If You Know How to Reach the Cause

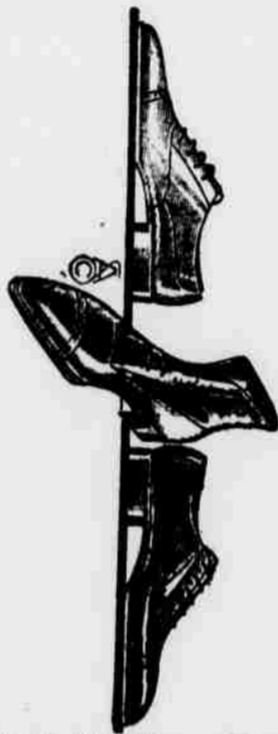

Nothing more discouraging than a constant backache. Lame when you awaken, pains pierce you when you bend or lift. It's hard to work or to rest. Backache often indicates bad kidneys. Lakeland people recommend Doan's Kidney Pills. Read this case: Mrs. E. C. Eades, E. Bay St. and Iowa Ave., says: "I suffered from backache and other kidney trouble a year ago. I had a heavy, bearing-down pain in my back and it made me feel miserable all over. As Doan's Kidney Pills had given my husband
