

## Mexicans Give Gen. Huerta Almost Unanimous Vote of Confidence

### MINISTERS AND HEALTH OFFICERS OF NEW ORLEANS IN PLAGUE FIGHT

Urge Congregations to Cooperate in the Clean-Up Campaign.

**NO NEW CASES OF DISEASE REPORTED**

Canvass of Infected Zone is Made by Surgeon General Blue, Who Says the Situation is Satisfactory—Assistant Surgeon General Rucker Will Take Charge of the Work.

**BY ASSOCIATED PRESS.**  
New Orleans, July 5.—Ministers of practically all the local churches today urged their congregations to cooperate with the city health authorities in the clean-up campaign in connection with the eradication of the bubonic plague. They spoke at the suggestion of Dr. W. T. O'Reilly, city health officer.

No new cases of the disease were reported today and no deaths. A canvass of the infected zone was made by Dr. Blue, Surgeon General of the United States public health service, and Assistant Surgeon General Chas. Williams of public health service, who arrived from Washington today to take charge of the laboratory work.

Assistant Surgeon General Rucker arrives Tuesday. He will be in charge of the work. Dr. Blue then returns to Washington. The work of exterminating the rats is to be continued with a large force of experts. The situation is satisfactory, Dr. Blue said.

### WOMAN KILLED MRS. BAILEY IS NOW THE BELIEF

Detectives and Sheriff Collect Sufficient Evidence in Murder Mystery to Warrant an Arrest.

**BY ASSOCIATED PRESS.**  
Freeport, N. Y., July 5.—Sufficient evidence has been discovered to warrant the arrest of a woman for the murder of Mrs. Louise Bailey in the office of Dr. Edwin Carman here last Thursday night. The sheriff announced this tonight. He said a woman would be arrested this week, probably at the close of the inquest which will be resumed tomorrow. Detectives working on the case said they believe that one of their number had found a clue leading to the belief that the killing was the result of a conspiracy, and he believed three women in a nearby village hatched the plot. Revenge was the motive.

Dr. Carman, in whose office Mrs. Louise Bailey was murdered was shot at three times tonight as he drove his automobile through Baldwin, near here. He was not hit.

**MINISTER TO GREECE SAYS HE WILL NOT RESIGN**

Athens, July 5.—George Fred Wilkins, American minister to Greece, today said he knew nothing of the report that President Wilson had asked him to resign. He reiterated he received instructions to go to Epirus and confer with the international commission regarding Albania. He admitted the state department was not responsible for his recent report which aroused much discussion.

### Many Congressmen Hit Hard by the Recent Dry Order in Navy

Philadelphia, July 6.—More than a score of congressmen, with Governor Goldsborough of Maryland, a number of lieutenant governors of various states and other officials, are the first persons outside those on the roster of the navy to feel the effects of Secretary Daniels' dry order.

The party here, for the Independence Day celebration, were taken to League Island to inspect the battleship Michigan. Captain Albert P. Niblack, of the Michigan, was showing the visitors over his ship.

"Gentlemen," he said, "I would like to offer you some refreshments, but you came to late. I don't mean too late today, but too late in the year. You should have been here before June 30."

"How about some ginger ale?" queried a thirsty lawmaker.

"Ginger ale has 4 per cent of alcohol in its composition," said the captain.

"How about some grape juice?" asked another congressman.

"Grape juice," said the imperturbable captain, "contains 2 per cent of alcohol."

### DICTATOR RE-ELECTED PRESIDENT OF MEXICO

### CHINESE MUST LEARN MODERN MEDICAL WAYS

They Must Be Taught to Doctor Themselves, According to a Report of the Rockefeller Commission.

**BY ASSOCIATED PRESS.**  
Peking, July 5.—The Rockefeller commission which is here investigating China's needs in a medical and surgical way has already found that a most important point is this: the Chinese must be taught to doctor themselves along modern lines and not rely, except for the present, upon the foreign medical men.

The country is so vast and the need of the medical men so extensive that all the doctors and surgeons in America could be utilized in China. Such a great invasion, or even enough to make any wide impression, is impracticable. The solution must be the training of the Chinese doctors. At present there are only a few scores of them trained along modern lines, and these have difficulty in making a living. The Chinaman is suspicious of the secondhand training of the modernized Chinese doctor, and if he is moved to resort to foreign treatment he prefers to go direct to the foreign doctor.

The commission, which is represented here by Dr. Harry Pratt Judson, president of Chicago university, and Dr. Francis W. Peabody of Boston, has not gone far enough to commit itself to any definite plan, but its report undoubtedly will be largely concerned with the problem of making the foreign-trained native doctor respected in China.

The United States department of state has temporarily detached Roger Hankow to aid the commission as an interpreter and guide in its tour of investigation, and the Chinese government, both central and local, has furthered rather than impeded the work of the commission.

In the medical schools, the commission has found various methods of trying to coin medical characters and combinations of characters or expressions in Chinese.

It was only three years ago that the first class of Chinese educated in China took their medical degrees from the union college (where American and British missionary doctors work together) here in Peking. Last year the first class, a small number, of women doctors were graduated. Because of prejudices against the treatment of women by men, women doctors will have a valuable place in the medical work in China.

While the class of Chinese who prefer the old-style Chinese doctors is still in the majority, the foreign doctors have more than what they can do.

**THEIR MEDICINE POOR.**  
Chinese medicine is a poor thing. The Chinese have had for centuries remedies for certain well-known diseases, remedies which are often very effective. But they have never, apparently, studied anatomy, and know little or nothing of the reasons for actions and counteractions. Much if not most of their work is quackery. They have very little knowledge of surgery. As a rule the Chinese doctor cannot set a bone. Men whose fingers are broken could be stuck together by an ordinary man in Europe or America become permanent cripples in China. Such are to be seen even on the streets of Canton, Shanghai and Peking, where the services of the foreign doctors are always available. They are men who have gone to their own instead of foreign doctors, and probably have received plasters, or even medicine to take internally, for their broken bones.

Some of the tales that go through the country about the missionary doctors are to these people like stories of the Bible. A man learns of a surprising cure, which seems to him miraculous. A friend has been shot by brigands or by marauding troops of the government and is paralyzed down one side as a result. The foreign doctor opens his head, takes out a little piece of metal, and the man begins at once to walk and talk. Or it might be in the case of a woman who was

**ENTHUSIASM RUNS HIGH AT BIG SUNDAY SCHOOL CONVENTION**

The Sunday school parade at Chicago; bottom, left to right: Mrs. H. M. Hamil, Miss Anna A. Gordon and Miss Margaret Slattery, leaders at convention.

Chicago, July 5.—The greatest enthusiasm has marked the sessions of the triennial convention of the International Sunday School association in Chicago. Hundreds of delegates came from every section of the world, and the most hopeful reports were given of the growth and work of the Sunday schools in all countries.

Doubtless the most spectacular event of the convention was the parade of fifteen thousand men Sunday school workers on Michigan avenue. The parade was viewed by thousands along the line of march.

A noticeable feature of the convention was the fiery zeal of the workers present in their opposition to

### REPUBLICANS TO FIGHT PASSAGE OF RIVERS AND HARBORS BILL

Elections Held Only in Districts Controlled by the Federals.

### FEDERALS TO MAKE THEIR LAST STAND

Rebel Troops Under General Pablo Gonzalez Have Been Ordered to Proceed to Quertaro, Where Federals Have Been Concentrated for Possibly the Last Important Battle of Revolution.

**BY ASSOCIATED PRESS.**  
Mexico City, July 5.—President Huerta is asserted, received an almost unanimous vote of confidence in the elections today in the district controlled by the federals. Besides the re-election of Huerta the returns indicate the re-election of the present deputies and senators. General Blanquet appears the vice presidential favorite. The vote was the lightest in years.

### HUERTA ORDERED BALLOTS CAST PREPARED FOR HIM

Vera Cruz, July 5.—Rumors here say Huerta and Emiliano Zapata the revolutionary leader will form an alliance soon. Most Mexicans do not credit the report and say it is inconceivable because of the long enmity Zapata has for Huerta.

Judge Jalapa arriving here today said that Huerta ordered all ballots of the election today prepared for Huerta and Blanquet.

### REBELS ORDERED TO FIGHT FEDERAL AT FINAL STAND

Eagle Pass, July 5.—Troops from the division of the east have been ordered by General Pablo Gonzalez to proceed to Quertaro. This word was brought from Saitillo today by messengers. The final stand of the federals is expected to be made at Quertaro. The troops will be furnished by General Jesus Carranza, who recently captured Cortes, near San Luis Potosi. This movement is believed significant of the part the eastern division is to take in the final assault on Mexico City.

The withdrawal of the troops under

### SENATORS SHOW NO INTEREST IN WORK

The Daily Appearance of the Trade Commission Bill Finds Only a Dozen or So Senators Present and Provision Adopted at Democratic Caucus to Keep Up Attendance Has Failed.

**BY ASSOCIATED PRESS.**  
Washington, July 5.—Republican senators promise to make a hard fight to prevent the passage of the rivers and harbors bill. They declare the measure that passed the house carrying forty-three millions of dollars to which the senate added ten millions more provides for expenditures of fifty millions in the future. They will oppose it to the finish, they declare. Forah, Burton and Kenyon are leading the opposition and they think some democrat will support them.

Some embarrassment may be caused the majority leaders before the measure is passed. It is said to have helped arouse opposition. It now comes up a short delay, when no other privileged business is before the senate. Democrats favoring the bill say though that it will pass and they expect some republicans to vote for it.

### SENATE NOT INTERESTED

The senate is showing little interest in the work before congress. The appearance of the trade commission bill each day finds only a dozen or so senators present and few seem interested in the debate. Efforts to get an agreement for a vote twice have failed. Action, though may come before the week end. Other trust bills still are in committee and probably

### POSTMASTER A. GIBSON FELL DIES AFTER A LONG ILLNESS

MEADE WILSON IS DEAD AFTER SHORT ILLNESS

Succumbs to Quick Consumption in Asheville, N. C.—Body Will Be Brought to Pensacola and Buried Tuesday Morning.

**BY ASSOCIATED PRESS.**  
Asheville, N. C., July 5.—Meade Wilson, brother of Congressman Emmett Wilson, died Sunday morning in Asheville, N. C., and the body will reach Pensacola tonight and be interred in St. John's cemetery Tuesday morning.

The news of Mr. Wilson's death will be received with surprise and regret by friends all over Florida. The cause of death was probably what is known as quick consumption.

Mr. Wilson had come to Asheville about two days ago for a brief rest, but not even his family anticipated that his life was in danger and the news of his serious illness a day or two ago was a surprise and shock to both family and friends. Mrs. Wilson and their two sons, together with his brother Hon. C. L. Wilson, were with him at the time of his death.

Meade Wilson was born in Mississippi 41 years ago last May. At an early age he came to Pensacola and entered the employ of the E. & N. railroad, with which company he served until 1907, having worked up from the bottom rung of the ladder until he became one of the most popular and valued passenger conductors in the service. In 1907 he returned to Florida to take up his life insurance business and later moved to Asheville where he had been connected first with the Union Central Life, but for some time had represented the Fidelity Mutual of Philadelphia.

Mr. Wilson is survived by his wife and two sons, Frank and E. Meade, Jr. Mrs. Wilson was Miss Carrie Bond of Blue Springs, other surviving members of the family are his father, Dr. J. C. Wilson of Chipley, two sisters, Mrs. W. E. Smith of Marianna and Mrs. E. A. Meade of Washington, D. C., seven brothers, A. M. Wilson of Tallahassee, C. L. Wilson of Marianna, Frank C. Wilson, Jr. of Pensacola, Dr. P. P. Wilson of Sneads, Congressman Emmett Wilson of Pensacola and the latter's twin brother, J. A. Wilson, of Jacksonville, and Walter Wilson of Clearwater.

**A. GIBSON FELL.**  
For Two Months He Had Been Confined to Home by Bright's Disease.

**WAS APPOINTED POSTMASTER IN 1912**

Dies on the Second Anniversary of His Appointment—Deceased Was a Native of Warrington and He Had in Some Respects a Notable Career—Funeral Tuesday.

Postmaster A. Gibson Fell died of his home in Pensacola, 219 North Barcelona street, at 6:32 Sunday morning. The funeral services will be held at the home Tuesday afternoon at 4:30 o'clock and the interment will be in St. John's cemetery.

For more than two months Mr. Fell had been confined to his home by Bright's disease and the latter, coupled with heart failure, caused his death. For weeks he put up one of the hardest fights ever made against the disease which finally carried him off, and his splendid vitality was all that held him up during the last 20 days of the struggle. Several weeks before his death his sight failed and only by their voice could he recognize the members of his family and friends who called to see him. During the last few minutes of his life he suffered excruciating pain which was relieved only when death finally conquered.

Alexander Gibson Fell was born at Warrington, Florida, June 22, 1866, and he had in some respects a notable career. He resided at Warrington until seventeen years of age, working in the navy yard. He was then sent to New York to finish his apprenticeship as machinist. From there he was transferred to sea duty and served three years on vessels as engineer, returning afterwards to the Pensacola yard and worked there for several years as machinist.

In 1885 he moved to New Orleans and resided for several years as secretary and treasurer of the New Orleans Transfer Co.

Mr. Fell saw service during the Spanish-American war, being chief engineer aboard the Sumner, N. Smith, the flagship of the New York Herald's fleet of dispatch boats. After the war he was appointed master machinist at the Pensacola navy yard and held that position until the yard was closed.

On July 5, 1912, Mr. Fell was appointed by President Taft postmaster at Pensacola, and death came to him exactly two years afterwards, or on the second anniversary of his appointment. He was married by the senate on July 13 and he assumed charge of the office several weeks later.

The deceased is survived by his wife, who was Miss Helena Borze of New Orleans, and three children: Frank B. Fell, of Washington, D. C.; John G. Fell, of Pensacola; and A. G. Fell, Jr., of Shreveport, La. The boys both saw their father a few weeks before his death and the one at Shreveport will arrive in Pensacola tonight or tomorrow morning for the funeral.

Mr. Fell was a valued member of several fraternal orders, having membership in the Elks, the Knights of Honor, the Woodmen of the World, and the Elks.

The funeral services Tuesday afternoon will be conducted by Rev. John H. Brown of Christ church and by the Masonic order.

"Major G. B." as he was familiarly and affectionately known among his friends, was a strong personality, a man of ability and convictions, a loyal friend and an exemplary citizen. He made a good record as postmaster just as he made a good record as a machinist.

### BONDSMEN WILL NAME ACTING POSTMASTER

Surety on Bonds of A. Gibson Fell, Deceased, Will Assume Charge of the Office.

Immediately on the death of Postmaster A. G. Fell, Assistant Postmaster Fred Roeger yesterday notified the Partridge Insurance Agency, Pensacola representative of the Fidelity and Deposit Co. of Maryland, the surety on the bond of the deceased postmaster at Pensacola. The agency provided in the postal regulations, the bonding company will appoint an acting postmaster to assume charge of the office pending the appointment of a new postmaster.

Leslie Partridge, of the Partridge Insurance Agency, representing the bonding company in Pensacola, will probably receive instructions today respecting the wishes of his company, and the company, through some representative designated by it, will no doubt take charge of the office immediately.

### A CHORUS OF 300

Kansas City, July 5.—A song service led by a chorus of three hundred tonight closed the joint convention of Baptist young people's union in the south.

### PUTS PRICE ON NEGRO ASSAILANT

Columbia, S. C., July 5.—Governor Blease has issued a proclamation offering a reward of \$200 for the delivery of the body of Floyd McCullum to the sheriff of Pickens county, "dead or alive—just so there is enough of it to be recognized as him, or upon proof of three reputable citizens that know him that he is dead."

McCullum, according to message received by the governor, is the negro who killed James Hendricks, a white farmer, and afterwards attacked a woman, spurring her by the offer of the reward, searching parties have redoubled their efforts to capture and bring McCullum, who is said to have taken to the swamps.

### PRICE ON KISSES NOW CUT TO \$7.50

Milwaukee, July 5.—With the advent of the open air kissing season, Judge Pate today set the price at \$150 per kiss. This is official until further notice, the court says. Emil Harper, of Chicago, aged 22, and Clark Young, of Racine, aged 19, were arrested by an officer who saw them standing on the corner indulging in a long kiss. An automobile flashed a light upon them. The officer assured the court that there were at least two kisses imposed. Judge Pate fined Harper and Miss Young \$15 and costs each.

### Thirteen-Hour Flight Across Ocean an Early Possibility

Washington, July 5.—That it will soon be possible to fly across the Atlantic ocean in a heavier-than-air machine in thirteen hours is the assertion of Dr. Alexander Graham Bell, inventor of the telephone. In communication to the National Geographical Society, of which he was formerly president.

"The distance from Newfoundland to Ireland is less than 2,000 miles," said Dr. Bell. "This means that if you go at 100 miles an hour you will cross the Atlantic in twenty hours, less than a day."

"We have flying machines that go at a greater speed than that. We already have machines that could cross the ocean if their engines could keep going twenty hours."

"At an elevation of two miles in the air there is a constant wind blowing in the general direction of Europe, having a velocity of 25 to 50 miles an hour. Besides, the air is rarer at that height and a machine can fly faster."

"Our best machines should be able to cross the Atlantic in thirteen hours."
