"Fire's Out"

THEN comes the matter of insurance. You get out your policy and note the company in which you are insured. Certain questions should not arise to worry you at such a time.

You shoud not be worried by the question of whether you will be fairly treated by the company in which you are insured.

You should not be worried over the question of whether the company can pay the loss.

You should not be worried by the question of whether you have had enough protection to cover your claim.

To be insured in this agency eliminates the first two of these worries.

We represent only companies which have sufficient reputation and capital to stand by their losses.

By consultation with our representative before taking out your policy you will be told the proper proportion of insurance to carry and that eliminates the third.

The evident thing to do before the fire in order to eliminate worry is to be insured by an agency in whom you can rely to look out for YOUR interests.

Stop Those Early Bronchial Coughs

They hang on all winter if not checked, and pave the way for serious throat and lung diseases. Get a bottle of Foley's Honey and Tar Compound, and take it freely. Stops coughs and colds, heals raw inflamed throat, loosens the phlegm and is mildly laxative. Best for children and grown persons. No opiates. D'Alemberte's Pharmacy. (Adv.)
