We Wish You a Happy and Prosperous New Year

THE past year has been a very prosperous business year with us. Our sales were all that we could expect or hope for. Our customers have increased in numbers, and we were enabled to give them greater and better values from our large and carefully selected stock than ever before.

For the year 1909 we will be prepared, as heretofore, to take care of all your wants in the Mercantile line.

We would be pleased to number you as one of our regular customers for the New Year.
