

**Stein-Bloch,
Hart, Schaffner
& Marx,
Kirschbaum,
and Schloss.**

Look the world over—you cannot beat this combination. The firms above named stand for years of "Knowing How" to make clothes for Men, and well have they mastered their art. All there is in clothing that will improve the appearance and still leave comfort to the wearer has been found by them. They don't make a style for one season and then drop it. They study it year after year until they know what man-kind wants. There is a vast difference between

**HAND-MADE
CLOTHING**

and the ordinary kind. Notice the wearer of a Hand-Made Suit and you will readily detect the Individuality in the fit around the collar—it's there in every one,

We are glad to show these clothes because we know what they are—won't you let us show you?

If It Comes From Fearnside's It's Guaranteed

**Ideal Fertilizers
BEST**

To gain a place on our regular list a formula must not only produce results, but results with a PROFIT. The user of fertilizer considers the effect on his pocketbook the REAL result.

IDEAL FERTILIZER produces the right effect, for it works with nature. The preference of each class of vegetables for its source of plant food is carefully studied as well as the proper proportions to give perfect balance—no lack, no waste.

With proper application of proper food, vegetation outgrows diseases and insects to a great extent, and being strong and vigorous, produces fruit that is pleasing to the eye and palate and brings financial returns pleasing to the grower.

Do not lose the maximum profit due you by using poorly balanced plant food from improper sources. I D E A L stands for profit.
