

Pure Beer an aid to sleep

Hops are tonical and soporific. A bottle of pure beer at bedtime will benefit you greatly. But be sure it's pure.

Get Schlitz in Brown Bottles

Schlitz is brewed in the dark, cooled in filtered air, every bottle sterilized, aged for months to prevent biliousness.

The windows of our bottling plant are of brown glass.

Schlitz is made pure and the Brown Bottle keeps it pure until it is poured into your glass.

See that crown or crest
is branded "Schlitz."

COMMUNITY CORN STUDY DAY IN FIELD IMPORTANT

President Andrew M. Soule, State College of Agriculture.

Every community should have a corn study day. The farmers should get together and go through the different fields examining and judging for themselves of the relative merits of the different strains produced, the difference in fertilization and soil being taken into consideration.

It would be well for the teachers and the boys and girls to meet in such a conference, or possibly the school might be made the center of such an enterprise as this and the farmers invited to participate. It makes no difference who is responsible for the undertaking; the thing is to have the work done, and a corn study day will shortly become one of the most important outings for pleasure and profit in every community which participates in this movement.

After having decided on the best varieties for growth in a given community, the work of selection should then proceed systematically. On most of our soils it will be well to select seed from plants which have two well-developed ears. The medium sized ear sorts will be found more satisfactory for growth on our average Georgia soil than the big-eared varieties. The growth of big-eared varieties had best be confined largely to bottom lands. The ears chosen should be from plants

which are free from disease in so far as a careful examination reveals. They should be plants which seem to have made a vigorous, consistent growth from germination to maturity. A fair amount of foliage is important for several reasons. First of all, the leaves are valuable for feed, and second, they constitute the lungs of the plant and enable it to manufacture food more rapidly and completely. The ears should be selected from a stalk which has stood up well throughout the season and is not so tall or slim that it is likely to be broken over by the wind. The ears should point downward rather than upward and should be attached to the stalk by stout relatively short shanks. The ear chosen for seed should be carefully examined; it is important that the rows of grain run straight, that the tip and butt be well covered, that the grain be fairly hard and flinty and free from weevil damage. The rows should be tightly packed together on the cob and the grain of uniform size from tip to butt. All these things have an important bearing on the future crop for if the grain is misshapen it will not seed uniformly through the planter, and besides that, it is not as likely that the germs or young plants will be as vigorously developed as is well shaped seeds.

SOIL SURVEY WORK.

W. A. Worsham, Professor of Agricultural Chemistry.

The College of Agriculture in co-operation with the Bureau of Soils of the United States, has undertaken the soil survey of Terrell, Clay, Colquitt, Turner and Tattnall counties, the counties to be taken in the order mentioned. The physical survey work will be in the hands of David D. Long for the College of Agriculture, who will co-operate with such persons as are assigned to the territory by the Bureau of Soils.

A physical survey of Habersham county has been completed recently. Government bulletins have been issued lately on Ben Hill, Dougherty and Chattahoochee counties. These reports the physical survey. The Department of Agricultural Chemistry of the College, which is making chemical analyses of the various types of soil found, to determine plant food content, has issued report on Ben Hill county and has data complete on two other counties which will be issued in bulletin form later.

FOUR-CROP CONTEST.

J. Phil Campbell, State Agent Boys' and Girls' Club Work.

Supplementing the Corn Club work and developing it along natural lines, the State College of Agriculture and the Department of Farm Demonstration Work of the United States in co-operation, have begun a four-crop contest. Into this contest five boys from each county and five farmers can enter. The crops to be used are oats followed by cowpeas, after the peas corn and after the corn cotton. Three acres are required and three years in which to complete the program of crop rotation.

Boys who enter the four-crop contest must be between 10 and 21 years of age. The only difference between the boys' contest and the farmers' contest is that the farmer is required to put in a winter cover crop, preferably a clover.

These contests will be directed and supervised by the farm demonstration agents wherever these demonstration agents are to be found in a county.

THE WAY TO PREVENT COLD WEATHER DISEASES

There would be lots less sickness during cold weather if folks would take ordinary common-sense precautions against it. When you hear there is smallpox around, you don't lose much time in getting your family vaccinated. But lots of you do not use the same preventing colds, the grippe, bronchitis, pneumonia, typhoid fever, rheumatism and other diseases, some of them very serious and dangerous, and some of which nearly every member of your family is almost certain to suffer from before winter is over unless some medicine is taken to build up the body and put it in perfect order before cold weather sets in.

Vaccination prevents the growth of germs of smallpox in the blood, and puts the system into a proper healthy condition to resist smallpox. Rexall Olive Oil Emulsion is designed as an aid to prevent as well as relieve disease. It strengthens the body to overcome the germs and helps to put your system into the right condition to resist disease. It contains the four Hypophosphites recommended by physicians to tone the nerves and blood, in combination with purest Olive Oil, to nourish and strengthen them.

You who are weak and run-down, and you who are apparently well now, but are liable to suffer from various cold weather ailments, use Rexall Olive Oil Emulsion to get and keep well and strong. For the tired-out, run-down, nervous, emaciated or debilitated—the convalescing—growing children—a-fee people—it is a sensible pleasant-tasting aid to renewed strength, better spirits, glowing health.

Rexall Olive Oil Emulsion—king of the celebrated Rexall Remedies—do for freedom from sickness of you and your family. You'll be as enthusiastic about it as we are when you have noted its pleasant taste, its strengthening, invigorating, building-up, disease-preventing effects. If it does not help you, your money will be given back to you without argument. Sold in this community only at our store—The Rexall Store—one of more than 7,000 leading drug stores in the United States, Canada and Great Britain.—J. L. Andrews, Brunswick, Ga.

APPLICATION FOR CHARTER.

GEORGIA—Glynn County.

3 the Superior Court of Said County: Norris S. Dever, Vernon C. Burne and Lawrence R. Akin, Jr., all citizens of Georgia and residing in said county, present this petition for incorporation, and thereupon they respectfully represent a-d show to the court:

1. Petitioners desire that they, their associates and successors, be created and founded a body corporate and politic under the name of "Glynn Investment Co.," which name is that of no other Georgia corporation, with its domicile and place of business in said county, the object and purpose whereof being pecuniary gain and profit to the shareholders.

2. The particular business which such corporation upon being chartered and organized will engage in, is that of a general real estate dealer, engaging in purchasing, leasing, selling and renting lands on its own account for profit and (or) as agent for others for hire or on commission; that of farmer and truckman, engaging in operating and conducting farms and truck gardens in raising for its own use and for sale of all kinds of farm and garden products; that of a stockman and poultryman, engaging in the breeding and raising of cattle, sheep, hogs and poultry of all kinds, and other domestic animals for market and sale and (or) for its own use; that of a merchant engaging in conducting and carrying on a general merchandise business, in buying and selling on its own account and (or) on commission for others, all kinds of wares, goods and merchandise, such as is usually kept for sale and (or) sold in retail country stores and (or) meat markets and green groceries.

3. The capital stock of such corporation to be ten thousand dollars, but with the privilege of increasing it from time to time, by a majority vote of the shareholders to finally not over fifty thousand dollars, but all the shares to be of the par value of one hundred dollars each. And they desire to have the right and power to accept in payment of stock subscriptions real or personal property useful or needed in its business.

4. And the petitioners desire that said corporation have, enjoy and possess, in addition to those powers specifically mentioned herein, all the rights, powers and privileges recognized as belonging to all corporations under the law, called "The Common Powers," including those specified in Section 2276, and those set out in clauses five, six and seven of Section 2823 of the present Code of Georgia, Volume One, the Code of 1910.

Whereupon, petitioners pray the order of the court sanctioning this petition, founding such corporation and conferring upon it all said powers and privileges, for the period of twenty years.

Courtland Symmes & Scarlett

Petitioners' Attorneys.

The foregoing petition filed in office this 31st day of October, 1913.

H. F. du Bignon,

Clerk Superior Court, Glynn County, Georgia.
