

The Pacific Commercial Advertiser

Issued Every Morning, Except Sunday, by the

HAWAIIAN GAZETTE COMPANY
At No. 318 Merchant Street.

WALLACE R. FARRINGTON, EDITOR.
THURSDAY, JANUARY 24, 1895.

THE Nation, in summing up its slurring comment on Admiral Walker's report, says: "All this certainly makes up an 'astounding' document, as the Washington despatches gravely call it, and we agree with Lodge, that to have had so much good laughing matter retained 'in the dusty pigeon-holes of the Navy Department' would have been a sin and shame." About this time the Nation is about to experience the old adage, that he laughs best who laughs last. The policy which the Nation upholds will, in years to come, be held up to the ridicule of every American citizen. When the serious features have been healed and worn away, it will be a source of amusement, if national affairs can drop to that level, that any sane American should have lent a voice of commendation to such acts of imbecility as this country has suffered at the hands of would-be diplomats.

THE MAN-WHO-KNOWS-IT-ALL.

Unfortunately, there is among the men who went to the front in the recent rebellion a class of citizens which partakes of the character of the man-who-knows-it-all, and, like that little-needed individual, is ever present to flaunt opinions on the street-corners, or, if so fortunate as to have a newspaper mouthpiece, to bring its ideas before the public clothed in language of a more guarded type.

Those who are telling what "we" will do or "we" want do if the Military Commission does or does not do thus, and so are displaying nothing but the shallow foundation of their mental structure. If they will stop to think a little, they must come to know that the maintenance of the dignity of the Republic includes the fair and impartial trial, as well as the protection of all prisoners, whether before a civil court or a court-martial. As the ADVERTISER has previously stated, the fate of the rebels is in good hands. Neither the personnel or the doings of the Military Commission are to be questioned. It is very easy for one with a smattering of the facts to stand aloof and inform the public just how rapidly or in what order a body in full possession of each and every fact, should proceed. This is one of the worst features with which public officials have to contend. While to a certain extent it amounts to nothing it is very much like the yapping cur, which causes discomfort although there is really nothing very serious connected with its presence.

In times like the present it is a very good plan to keep studiously quiet and let the law take its course. Thus far the dignity of Hawaii has been upheld by a policy that has not been marred by the semblance of a mistake. The fears of the interference of a foreign power should a war ship arrive during the present trial we believe are unfounded. There has yet to appear an instance giving an opening for foreign interference, and this fact is made positive by the careful conduct of affairs over which cool and discreet minds are presiding. There is one, and only one policy that will carry this nation through the reefs which today are threatening on every hand, into the clear open where our ship of state will float serenely for years to come. That policy is now being worked out with a success that will give the names of the men toward whom the eyes of the world are centered, a prominence in history that can never be wiped out by the pen or tongue of the man-

who-knows-it-all. Should any nation see fit to raise its finger against the administration of justice, the people of this country can rest secure that the blot is not upon the fair name of Hawaii-nee. In many respects the country is beginning anew. It is better to go slow and sure, than be obliged to go back and patch up old sores. Let the man-who-knows-it-all keep a quiet tongue in his head.

MORE AMERICAN OPINIONS.

We want no more ex parte statements from foreign lands. Who can estimate the injury inflicted upon Hawaii and upon this country by the perverse partizanship of Commissioner Blount? It is a pleasure, by the way, to read the straightforward and thoroughly American report of Admiral Walker, who was in command on the harbor of Honolulu from April until September of this year. He speaks of the new Republic in appreciative terms; expresses the fullest confidence in its ability to stand unless interfered with by England or Japan; and sets forth in detail the peril of British support of an attempt to restore the ex-queen. His vigorous argument for the constant presence of an American war vessel in those waters is in refreshing contrast with the words in which the hauling down of the American flag was defended in Mr. Blount's report.—Pacific Christian Advocate.

The admiral's condemnation, though not outspoken, is strong and uncompromising. The admiral seems to hold the conviction that it is for the interest of the United States, above all other nations, to possess part or the whole of Hawaii.—The Standard, Troy.

It reflects no credit on the administration. On the contrary, it is, in fact, an implied censure, so far as an officer in Admiral Walker's position, acting under hide-bound instructions from his superior officers, dare make. But he has fearlessly done his duty.—The New York Recorder.

One of the most noticeable features of the controversy from the beginning has been the ease with which old, time-worn information could be palmed off by sensation mongers on hysterical night editors and even leader writers as startlingly new and portentous disclosures.—The Advertiser, Boston.

Auction Sales.

James F. Morgan.

THIS DAY.

Don't fail to patronize us and save money. 2845 td

Timely Topics

January 21, 1894.

What the people are after today and all the time is labor-saving machinery. It does not make any difference what the line of business is labor-saving machinery is sought after. Men whose minds take an inventive turn put the energies in this direction more than any other, the manufacturers demand it and the inventors are trying to fill the demand. We have among our goods probably a hundred different articles designed for this purpose. Among the most important of these are the implements used in the cultivation of sugar cane land. Take first the Fertilizer Distributor, a machine worked by one man that will distribute the fertilizer over nine acres of land in one day. It not only saves labor but it does the work more thoroughly and with absolutely no waste of material. Our orders for this article have exceeded the demand and we have been obliged to order more. The Cane Cultivators from the same factory are recognized on Hawaii to be much superior to anything of the kind ever used here. These implements are not experiments, they have been used for a long time in Louisiana where they have given great satisfaction.

The Wertheim Duplex Sewing machine is more of a labor saver than any other make, because it does a greater variety of work. Every lady knows the trouble it is to sew ruffles, and that a machine that will sew just what is necessary for ruffles is not the stitch that answers for making boys trousers. It's a labor saver that will sew both and the Wertheim is the only one that will. It not only sews the chain and lock stitch, but it makes a combination of both that is as pretty an embroidery stitch as you want to see. We have a number of these machines in various styles of finish, the highest priced one is cheaper than you can get an ordinary machine for. You save money and save labor in getting a Wertheim.

These occasional rains cause havoc with the water by making it muddy and impure. We have been selling the Improved Stone Filter which makes it as clear as a crystal. There is another and very celebrated filter called the "Pasteur." We have made arrangements for handling this article which is exclusively used in public institutions, places of business and private houses in the United States. One of them has been placed in the Queen's Hospital and after a careful test in filtering muddy water, milk and oil combined, a Honolulu physician says:

"I have examined the 'Pasteur Filter' manufactured by the Pasteur Chamberland Company. I consider it the most efficient filter I have ever seen."

These filters are rented to persons or sold outright as preferred. Parties desiring to examine one can communicate with us and Mr. H. L. Theron will call upon them at their residence or place of business and thoroughly explain the working of it. We expect a large business in this article and from testimonials we have examined we have no hesitation in guaranteeing it to be a superior article.

Our stock of hanging lamps for people who do not use electric lights (as well as those who do) is as complete as any to be found in Honolulu. Our island trade in this respect is so large that we are obliged to keep our stock up in order to supply it.

General Merchandise

There are a great many homes having zinc-lined bath tubs that are in good condition with this one exception: they lack the features of a porcelain lining. How to overcome this without going to the expense of getting a new tub, has been a question that has worried a great many.

One pot of our WHITE ENAMEL PAINT will do the work, forming as it does a GLOSSY SURFACE, almost equal in hardness and durability to that of porcelain itself, being at the same time hardly distinguishable from porcelain.

Consult your physician and he will tell you by all means to paint your bath tub with Enamel Paint.

The KEYSTONE EGG BEATERS are little gems. Try one if you want your eggs quickly and thoroughly beaten.

We also call your special attention to our economical BARREL and CYLINDER CHURNS, they are easy workers, have all sizes and prices.

We have a handy CLOTHES DRIER, having ten arms made to fasten on the wall, when not in use by a simple pull these arms fold up like a fan, thus taking up but little room.

Remember we sell Standard Oil Co.'s PEARL OIL at \$1.80 per case, C. O. D., delivered to any part of the city free.

Was It
A Dream?

No, for my awakening was a stern reality. Yes, I entered McINERNY'S SHOE STORE yesterday and bought a pair of

HATHWAY, SOULE

— AND —

HARRINGTON'S

WAUKENPRAST

Shoes

FOR \$5.00

I could scarcely believe my own eyes, and this morning I bought another pair for I believe in laying in a stock when such inducements as this is offered.
