UNLAWFULLY ON OTHERS' PROPERTY.

Nature of Charges Made Against Thompson, Price and Burns.

CIRCUS MEN FOUND NOT GUILTY.

Decision in Jack's Case Reserved—Judge de la Vergne to View Carter Premises by Night. Defendant Says He Wasn't There—Price and Burns Guilty of Assault and Battery.

Jack Thompson was arraigned before the District Magistrate yesterday morning on the charge of being found at night without lawful excuse in the enclosed yard of another, to wit, the premises of Mrs. J. L. Carter. Defendant plead not guilty.

Mrs. Carter sworn stated—Live at the corner of Fort and Beretania streets. Between 12 and 1 o'clock Friday night, August 12th, saw defendant climb the fence and come opposite the parlor window. Was watching for some one who had been stealing bread; called my husband and defendant ran. Am positive it was Thompson for I saw his face as he climbed through the fence. He has no right to be on my premises.

Cross-examined—Had been watching at the parlor window for over a week. Defendant ran when my husband opened the shutter. Was going to shoot but my husband interfered. Defendant ran toward the Popular House.

J. L. Carter gave substantially the same testimony as that of his wife and in cross-examination stated that he recognized Thompson perfectly at the gate. He ran up Fort street and turned in when he got to a place that witness judged was the Popular House.

Prosecution then rested and Jack Thompson gave his story as follows: I was not on the Carter premises on the night of August 12th. Don't remember where I was or with whom I was. Am living at the Popular House. Was convicted once for driving a hack without a license. Don't remember any other conviction.

Defense rested and now all that remains to be done in the case is to have Judge De La Vergne visit the Carter premises by night, and look out of the parlor window while the electric lights are burning in the streets. After that he will give his decision in the case.

Next on the list was the case of J. W. Price and W. J. Burns charged with being found at night without lawful excuse in the premises of Mrs. J. Sullivan.

L. E. Frost, sworn, stated—Am living at the Hawaiian hotel. Was at Mrs. Sullivan's at the beginning of the month. Had one room in the cottage at the rear. On the evening of September 1st at about 11 o'clock heard defendants come into cottage. I was asleep when the door opened. Asked them what they wanted. They followed me when I went out. Price must have gone through my room. They had no right there.

Cross-examined—Was in bed asleep. Burns had a watch in his hand. He struck at me. I was not intoxicated.

G. Hughes sworn, stated—Live on Sullivan premises. It was after 10 o'clock on the night of September 1st. The defendants came into my room after Frost did. Something was said. Do not recall what. There was a bit of a shuffle between Price and Frost. Some blows were struck. Price struck first. Burns was only looking on. I tried to stop them the best I knew how. Frost did not make any defense.

H. Carl, sworn, stated—The defendants were hitting at Frost who was lying on the bed.

A nolle prosequi was entered and defendants discharged.

Immediately after this a charge of assault and battery was served on Price and Burns. To this both defendants plead guilty and were sentenced to pay a fine of \$20 and costs each.

DRAMATIC SUCCESS.

Play Teeming With Action and Dramatic Effect.

The performance of "Tribby," to be given next week by Palmer's company, promises to be a dramatic event in Honolulu. The reserved seat sale commences tomorrow morning at Hobron's. The sale promises to be a large one.

In dramatizing Du Maurier's great novel Paul M. Potter, instead of losing any of the interest or intrinsic value of the work, has added largely to the potent features of the novel. The action opens in the studio of the "three musketeers of the brush" at a time

when Tribby has become thoroughly at home as one of the household of the three artist friends and has won a loving place in the heart of each.

In the second act high carnival prevails in the studio over the joint occasions of Christmas eve and announcement of the engagement of Tribby and Little Billee. In the next act, and supposedly after a lapse of five years, the principal characters meet in the foyer of a music hall where a new singer's appearance is announced. The singer proves to be Tribby, but under the mesmeric influence of Svengali, she fails to recognize her quondam friends. In the last act she lapses into an apparent hypnotic condition and, gazing at a picture of Svengali, so dies.

PUNAHOU'S BOOM.

Increased Attendance and Every Prospect of Success this Year.

The present school year has brought in a rich harvest for Punahou College in the shape of a very much increased attendance. The preparatory department has 120 and the collegiate 70 with a promise of quite a number more. The boarding department contains more boys than there were boys and girls put together last year. Everything seems to point toward a most prosperous year.

Among the new teachers is Miss French who brings wide experience and high ability to her department. She will open classes to the public in oils, water colors, China painting, etc. J. L. Howard, of the Stockton Business College, will have charge of the business department.

W. H. Babbitt will have charge of the Latin department and will enthuse the boys and girls too for that matter with the athletic spirit.

In September Atlantic.

One of the most striking figures at the Harvard University commencement last June was Booker T. Washington, the negro president of Tuskegee Institute. The University conferred upon him at that time the degree of A. M. and by honoring him honored itself. He has developed at Tuskegee, Alabama, an institution which is a more powerful agency for the elevation of the negro race than almost all other agencies together. The true, true in economics and socially true,—method of quickening and elevating not only the negro but the whole South he explains in a noteworthy article in the Atlantic Monthly for September.

In a recent letter to the manufacturers Mr. W. F. Benjamin, editor of the Spectator, Rushford, N. Y., says: "It may be a pleasure to you to know the high esteem in which Chamberlain's medicines are held by the people of your own state, where they must be best known. An aunt of mine, who resides at Dexter, Iowa, was about to visit me a few years since, and before leaving home wrote me, asking if they were sold here, stating if they were not she would bring a quantity with her, as she did not like to be without them." The medicines referred to are Chamberlain's Cough Remedy, famous for its cures of colds and croup; Chamberlain's Pain Balm for rheumatism, lame back, pains in the side and chest, and Chamberlain's Colic, Cholera and Diarrhoea Remedy for bowel complaints. These medicines have been in constant use in Iowa for almost a quarter of a century. The people have learned that they are articles of great worth and merit and unsusceptible by any other. They are for sale here by all druggists and dealers. Benson, Smith & Co., agents for the Hawaiian Islands.

THE PASTEUR FILTER

STANDS ALONE IN THE WORLD AS A GERM-PROOF FILTER.

"The very best filter yet devised cannot rid the water of all micro-organisms, with the sole exception of the PASTEUR FILTER."

From report prepared for the Parliamentary Bills Committee of the British Medical Association, of England, in the "British Medical Journal," July 6th, 1895.

In a report just issued, General Zurlinden, the French Minister of War, reviews the progress made in the army since 1886, in point of prophylactic measures. The most striking results are still as they were in Mr. de Freycinet's reports from 1889 to 1892, those relating to typhoid fever. In 1886 the number of cases of this disease was 7,771, being over 14 per 1,000; in 1894 it was 3,060, being under 6 per 1,000; a reduction obtained by an almost progressive decrease in each year. This result is shown by a detailed examination of the circumstances of those stations where the reduction has occurred to have invariably followed on the purification of the drinking water supplies. The report instances twenty-nine of the garrisons most subject in earlier years of typhoid fever, in each of which the introduction of an uncontaminated water supply has been followed by the disappearance of the disease, except in isolated cases, the majority of which were shown to have been contracted outside the barracks. In those cases where a new water supply has been provided, and the water was drunk UNFILTERED, epidemics followed from time to time on the contamination of the source, and disappeared on the application of PASTEUR FILTERS.
