Extraordinary Bargains in Nottingham Lace Curtains

SALE BEGINS MONDAY MORNING AT 8 O'CLOCK.

A saving of at least one-third and in many cases a great deal more can be effected on every pair of curtains purchased next week at this store. This is another one of those rare opportunities presented to housewives and hotel keepers in which they can replace old or worn-out curtains with new ones at a surprisingly low cost.

Besides we have an immense assortment to choose from.

Every curtain is full length and width—3½ yards long and 50 to 60 inches wide.

TIME TO SEND HELP

(Continued from page one).

have not yet been arranged. We shall have a public meeting as soon as possible, and discuss the matter.

"It is certain that thousands of San Francisco people will be utterly destitute as a result of this calamity. Men who a few days ago had means are penniless now. The Associated Press reports three hundred thousand people homeless. This is a proposition the imagination can scarcely grasp, but there is every reason to believe that is is a careful estimate.

"Many of these people, thousands of them, through no fault of their own, have lost all they had, even their clothes. They must be fed and sheltered and given a chance to start again. An American city so stricken can always know that all the rest of the nation will hasten to the rescue, and it is inspiring news to learn that relief trains are already crossing the continent. Let us do our share."

Honolulu and all of the Hawaiian Islands will probably subscribe liberally for the fund to aid San Francisco sufferers. In all the local lodges and societies, as well as business concerns, and on the street generally, there is a strong feeling in favor of goodly subscriptions towards the needed relief. The Elks' weekly meeting came last night, and they subscribed $2,000. Special meeting of Masons was called for this move. The Chamber of Commerce and Merchants' Association have both been busy, with the result that the acting governor, as the head of the Territorial Government, has been asked to take hold of the proposition, and will lead a movement to secure funds.

CROCKETT REFINERY

(Continued from Page One).

Nebraskan is now at this port. She is scheduled to depart Sunday night for Kahului and to leave that port next week for San Francisco with a total of 5,300 tons of sugar. Ordinarily this sugar would go to the Crockett refinery, but until it be learned whether the refinery is able to handle the sugar, the cargo will not be sent to that place.

Every possible effort is being made to ascertain the conditions at the refinery. This morning Alexander & Baldwin sent a cablegram by way of Manila to W. M. Alexander at Oakland directing him to send messagers to Crockett and to spare no expense to learn the conditions at that place. Fully twelve hours will elapse before anything definite regarding this situation can be ascertained. George M. Rolph, the manager of the refinery, is a hustler, and the local people are confident that the instant he can advise them regarding the situation, he will do so.

The operator at San Francisco has been making special efforts at the urgent request of Manager Gaines of the local station, to learn something regarding the condition of the refinery. One report yesterday was to the effect that the railroad as far as the tanks at Crockett had been damaged. This indicated that the refinery had sustained no damage. This morning the San Francisco operator stated that the Crockett refinery had been badly shaken up. Later he reported that he was unable to say anything of that refinery or of the Western refinery. The latter belongs to the Spreckels interests. Naturally W. G. Irwin & Company are greatly concerned regarding the situation at San Francisco, both as regards the refinery as well as the Oceanic Steamship Company.

The Sugar Factors' Company will not regard anything as official until they have received cable advices from their agents. In event of their refinery being destroyed or seriously crippled, the sugar which was originally to have been shipped to San Francisco will be sent either to Seattle or some California port for shipment by rail, across the continent to Eastern refineries.

The conditions in California make no difference, however, with vessels in island ports, loading sugar for the Atlantic seaboard.

PASSENGER LINERS TO BE OPERATED FROM 'FRISCO

H. HACKFELD & COMPANY RECEIVE ORDERS TO PROVISION THE NIPPON MARU FOR HER RETURN FROM SAN FRANCISCO—PACIFIC MAIL BOATS PROBABLY TO BE PROVISIONED HERE FOR ROUND TRIP.

The following cablegram was received this morning by H. Hackfeld & Co. by way of Europe:

"OAKLAND, April 21—Provision Nippon Maru sufficiently for trip from Frisco to Honolulu."

This came from the Toyo Kisen Kaisha agency which has evidently established offices in Oakland. The order means that the Nippon Maru will probably be dispatched from San Francisco Bay for Honolulu and the Orient on her return trip. The vessel is due at Honolulu next Monday from Yokohama. She will reach San Francisco on April 29. She is due to leave that city May 11. This report is rather favorable in character, for it indicates that conditions are not so bad, but the Toyo Kisen Kaisha expects to dispatch its vessels either from San Francisco proper, or from some other point in the vicinity.

Later in the morning came another order from the Pacific Mail as follows:

To Agents Pacific Mail S. S. Co.:

OAKLAND, April 21, 9:24 a. m.—Provide all Pacific Mail boats with provisions for round trip.

AID FOR OUR PEOPLE

Late yesterdaw Acting Governor Atkinson sent the following cable:

Spreckels, San Francisco: Arrange headquarters for relief people from Hawaii. We will furnish funds needed. If unable personally to attend to same, secure responsible person. Cable names Hawaiians injured.

(Signed) ATKINSON.
Acting Governor.

By service message the cable office in San Francisco was informed that the sender would authorize an expenditure up to $100, if necessary, to secure the delivery of the message.

This action was taken by Acting Governor Atkinson after consultation with President George W. Smith and Secretary E. H. Paris of the Merchants' Association.

The responsibility of making this effort to care for such of our own as may be stricken was taken by the Acting Governor and the representatives of the Merchants' Association in full faith that the Association and the public would approve.

The cable was filed to be sent both by way of Europe and direct to San Francisco to insure its delivery at the earliest possible moment.

HOW TO SEND THE MONEY

MUCH DISCUSSION OF PROPOSITIONS TO GIVE AID TO STRICKEN SAN FRANCISCO.

The matter of subscriptions to a fund for the relief of sufferers by the San Francisco disaster is being discussed on all sides today. Last night the Honolulu Lodge of Elks held its unusual meeting and in the course of the evening the members present put up $700 in cash for the purpose. This added to $1,000 which is voted as a lodge, makes $1,700, and it was decided to get enough to make the total $2,000. This will easily be obtained from members not present at the meeting last night, it is expected.

The money will probably be sent by cable to the Oakland lodge, as soon as possible, with instructions to use it for the benefit of Elks who are sufferers.

Other local lodges will take up the proposition, it is understood, and will send large sums forward to their nearest representatives.

The matter to be settled before any money is sent, is the condition of the banks at the other end. The San Francisco Examiner has resumed publication across the bay, and it is regarded as likely that the banks will proceed to start business through their banking associates in the same way. Or it may be that they will be able to establish headquarters in San Francisco, and if their vaults' contents are not destroyed, as is thought by those best informed here, they will very quickly be able to go ahead. If this is found to be the case, money can be cabled from Honolulu as soon as the cable is in shape to carry business from Honolulu.

C. M. Cooke, President of the Bank of Hawaii, said this morning that he was disposed to think that a list of individual subscriptions would be preferable to lumping subscriptions under the names of big associations. This was in answer to a question regarding a rumor that the Planters' Association had decided to make a big subscription. President Cooke said that the matter had not been formally discussed as yet, but would be taken up in time.

Rumor had it this morning that the Planters' Association was to offer $100,000 to the fund, but no formal action has been taken by the Association. Another report was that 25 cents a ton for last year's sugar crop would be offered, which would amount to about the same thing. This is a suggestion which came from J. A. McCandless, who strongly favors it.

Honolulu is probably far behind most other American cities in offering to help San Francisco, and many citizens are inclined to criticize severely the slowness of action. Los Angeles' action in sending $100,000 has already been cabled here. It seems probable that Honolulu is an exception so far in having done nothing. By the time Honolulu begins to discuss the matter, next week, the rest of the United States will have subscribed enough so that no help from here will be needed, according to one view.

The corner stone of the Japanese Makiki Congregational Church will be laid on Sunday afternoon at 3 o'clock at Kinau and Pensacola streets.

SUGAR CARGOES DEPART

The bark Kaiulani got away from Kaanapali three days ago for San Francisco with a full load of sugar. The bark Olympic sails tomorrow morning for Oakland with 37,243 bags of sugar. Her sugar will be sent overland. The S. S. Nevadan will be dispatched next week from Kahului for San Francisco. Some of her sugar is for overland shipment and some for Crockett. If Crockett be out of commission that sugar will probably be stored or else shipped overland. The Nevadan will depart for Kahului tomorrow afternoon at 5 o'clock.

THE RINK OPEN

The rink will be open all day as usual. Music this evening. With the new skate now in use there is little or no waiting for a chance to skate. As on last Saturday evening an opportunity will be given couples to have the floor for a short period. Also for ladies alone. Davenport will do some fancy skating. For those who wish to "reduce," skating makes pleasure of an otherwise arduous labor. An automatic scale has been put in so the results may be had.

KAANAPALI.

Departing, April 18.—Am. bark Kaiu'ani, Colly, for San Francisco.

HALEIWA.

The Haleiwa Hotel, Honolulu's famous country resort, on the line of the Oahu Railway, contains every modern improvement and affords its guests an opportunity to enjoy all amusements—golf, tennis, billiards, fresh and salt water bathing, shooting, fishing, riding and driving. OPERATOR GETS BREAKFAST.

The operator at the lone cable hut in San Francisco cabled this morning that he had shot four quail for his breakfast. It would be hard on the Honolulu people should he be arrested for violating the game laws of California. However he is not to be blamed for breaking the law for he cabled that yesterday he had only had the tail of a chicken and two slices of bread to eat and "was famished."
