HURRICANE BROUGHT DEATH AND DESTRUCTION TO CAROLINES

MISSIONARY STEAM SCHOONER MORNING STAR ARRIVED THIS MORNING FROM GILBERT AND CAROLINE ISLANDS WITH NEWS OF THE DAMAGE WROUGHT BY THE STORM LAST APRIL—MANY LIVES LOST AND GREAT DESTRUCTION OF PROPERTY.

With details of the disastrous hurricane that devastated part of the Caroline Islands last April, the missionary schooner Morning Star arrived this morning from the Caroline and Gilbert Islands. The vessel came for a two-fold purpose. She is to undergo some needed repairs and is take on the annual stock of stores for the missions of the Line Islands.

Captain G. F. Garland, the master of the vessel, tells an interesting story of the hurricane. He says that the storm broke on April 19 and lasted that day and most of the following night. The destruction that was wrought was the most disastrous in recent history of the islands. Practically all of the eastern Carolines were devastated by the storm. All suffered alike. With one exception every building owned by the American Board of Foreign Missions was levelled to the ground by the storm. Every native house and hut in that part of the islands was blown down and most of the trees were leveled. The cocoanut crop and other food supplies of the natives were ruined. Several years will elapse before the natives can recover from the losses sustained through the storm. About nineteen natives throughout the islands

BIG CHANGE IS PENDING

AMERICAN-HAWAIIAN LINE HAS IN ALL PROBABILITY DECIDED TO ELIMINATE THE LONG ROUTE BY STRAITS OF MAGELLAN AND TRANSHIP FREIGHT ACROSS THE MEXICAN TEHUANTEPEC RAILWAY&WILL AFFECT HAWAII VERY MATERIALLY.

Reference was made in the cable dispatch from New York yesterday to a contract which the American-Hawaiian S. S. Company has made with the government to perform the Tehuantepec national transport business between the Atlantic and the Pacific until the isthmian road had been completed. This dispatch is evidently in error in the most material respects and no idea is conveyed of the real purpose of the contract. There are general indications which go to show that the American-Hawaiian line has in contemplation some very extensive plans for a material change in its present system of operations. Nothing definite can be learned here of the matter although the mainland is evidently aware of the plans of the company.

News by the San Francisco newspapers yesterday contains information which has bearing on the case. This information is to the effect that the American-Hawaiian line had contracted with the Union Iron Works for the construction of two new 550 foot steamers. This new cntract was necessary by the increase and prospective increase in the company's business.

This fact taken in connection with the dispatch from New York shows that the company is evidently going to eliminate the long route around South America through the Straits of Magellan and instead of making that long trip, will divide the fleet and operate from the Hawaiian Islands and Pacific Coast to the Gulf of Tehuantepec

BASEBALL MAGNATE SHOT

SAN FRANCISCO, July 15.—Eugene Bert, president of the Pacific Coast Baseball League, has received a serious wound by accidentally shooting himself.

PEARL HARBOR WORK DELAYED

SECRETARY McCLELLAN NOT VERY HOPEFUL ABOUT GETTING AN IMMEDIATE APPROPRIATION.

G. B. McClellan, secretary to Delegate to Congress Kalanianaole, was among the passengers on the Manchuria yesterday,, returning from Washington. He had discussions with a large number of the congressmen and senators, and gave them much information about island affairs. Among the matters discussed were the improvement of Pearl Harbor and the possibility of some reimbursement of Hawaii for her large customs payments.

"The members of the naval committee and others appeared to be very non-committal," said McClellan, "in discussing Pearl Harbor improvements, when the matter of immediate appropriations was talked. This was noticeable yesterday during the trip to Pearl Harbor. It is very good for us to have had Chairman Foss of this committee here, but it would be a good thing if we could have also some of the Naval Board. The fact that we have not had any of them makes it difficult to get an appropriation. The estimates come from the Naval Board, and the work of the committee is usually that of elimination of items rather than putting new ones in, so that it is difficult to start an appropriation unless the Naval Board acts.

"As to the reappropriation of some of the customs duties for Hawaii, it appears to be the opinion of such leaders as Payne, chairman of the House Ways and Means Committee, that we can do better by asking for direct appropriations, rather than for such a reappropriation. The idea of returning our revenues does not seem to appeal to the leaders and would probably meet with the opposition of Payne and others.

"The traveling members of the Congress are a very open-minded lot, anxious to learn all they can about the conditions for which they are to legislate."

While in Washington Secretary McClellan engaged General W. W. Dudley as counsel for Kuhio in the Iaukea contest. General Dudley has had much experience in such work. He went over the evidence with McClellan and at the conclusion of his examination of the case expressed confidence in the outcome.

THE DOLLAR FREE

The steamer Stanley Dollar is free to go with all the passengers she can carry, provided that she can clear herself from the numerous libels brought against her by Japanese. Inspector Birmingham, who arrived here yesterday from the coast, this morning examined the vessel and gave her a license to carry passengers, and it was arranged that she should clear this afternoon.

Another large libel suit was in preparation for the vessel this morning.

LANDSKRONA SAILED TODAY.

The bark Landskrona sailed this morning in ballast for Port Townsend.

M'VEIGH SUSTAINED VERY BAD FRACTURE

RUNAWAY HORSE FELL ON LEFT LEG OF SUPERINTENDENT BREAKING BONE NEAR ANKLE.

Superintendent Jack McVeigh of the leper settlement did not arrive by the steamer Likelike this morning. The vessel called at Kalaupapa for McVeigh but Dr. Goodhue the government surgeon decided that it would be very unwise to move McVeigh while the latter's leg was in its present condition so the superintendent will probably remain at the leper settlement for some weeks.

The mishap to McVeigh occurred last Thursday morning. He was riding a fractious horse in Kalaupapa and the animal bolted. McVeigh gave the horse rein for a short distance and then pulled him in. The road was rocky and the horse fell on McVeigh. The latter's left leg was caught under the horse and broken in three places near the ankle. The injury was very serious, although not likely to permanently deprive McVeigh of the use of the leg. Dr. Goodhue said that it would be wiser to keep McVeigh at the settlement for the present instead of moving him as the broken limb will be put into a cast today. The swelling had subsided considerably last night when the Likelike put in at Kalaupapa.

MAY SELL EXTRA ISLAND STEAMERS

C. L. WIGHT OF THE INTER-ISLAND COMPANY LEFT LAST NIGHT FOR A TRIP TO ORIENT.

C. L. Wight left by the S. S. Manchuria yesterday for a three months vacation in the Orient. While his trip is taken ostensibly for a vacation, it is understood that he will while in the Orient, endeavor to dispose of some of the extra steamers of the Inter-Island Steam Navigation Company. There are three or four wooden vessels which would be excellent boats for inter-island trade about Japan and even the Philippines. He will offer them it is said, for sale.

PROMOTION FOR SERVICE.

Frederick Josephson the chief master-at-arms of the U. S. S. Iroquois, has been promoted to be mate in the navy. This promotion takes Josephson out of the list of petty officers and makes him a warrant officer. His present appointment is for life, whereas his former was by four year enlistment. Josephson has been 25 years in the navy. He has a fine record and his promotion was made on that account.

HURT BY AUTOMOBILE.

Moon Sing a laundryman was run over by an automobile this morning on the Waikiki road near Lewers Lane. The Chinese sustained a fracture of the left arm and left forearm. He was attended at the Queen's Hospital.

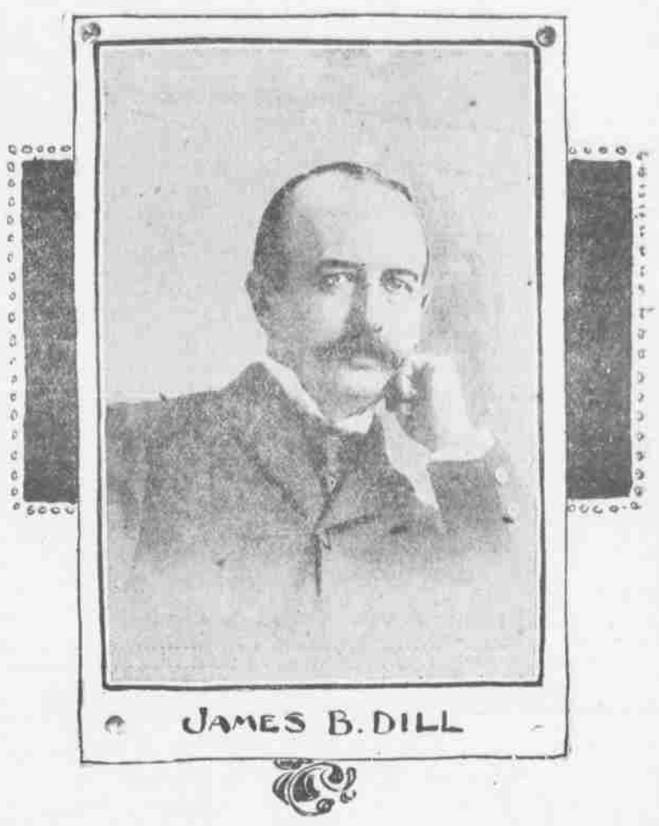
A TRIBUNE OF THE PEOPLE

JAMES B. DILL ONE OF THE BEST KNOWN TRUST AND CORPORATION LAWYERS IN NEW JERSEY ABANDONS A PRACTICE WORTH $200,000 A YEAR TO ACCEPT A JUDGESHIP AT $3,000, BECAUSE HE BELIEVES IT HIS DUTY.

NEW YORK, July 6.—James B. Dill, one of the foremost corporation lawyers of America was appointed today by the Governor of New Jersey Judge of the Court of Errors and Appeals of that state. He surrenders an income of $300,000 a year from his law practice to become a Judge with a salary of $3000 a year. His last private act was to refuse a retainer of $25,000 offered by an insurance financier.

Although maintaining his residence in New Jersey, Dill has been considered a New York lawyer. His office is in the heart of the New York financial region. Many great trusts have been his clients; indeed, he was the legal father of scores of them, and he has been sought in consultation in nearly every important financial litigation.

Capitalists, promoters, bankers, brokers and even his brother corporation lawyers are asking why he has done it. Dill is silent, but a friend of his speaking for him, said today: "Dill feels that the time has come when a corporation lawyer must decide upon which side he will ally himself, whether on the side of honesty, of law and of justice or with the financial schemers who grow more defiant of the law each year and make demands upon their lawyers for services that conflict with their conscientious scruples. He goes on the Court of Errors and Appeals bench not as the friend of corporations, but as a stern and fearless judge."



JAMES B. DILL

PREPARE FOR LAND OPENINGS

LAND OFFICE AND SURVEY DEPARTMENT BOTH GIVING ALL TIME TO THE PREPARATION OF LISTS AND RECORDS SHOWING WHAT GOVERNMENT LANDS THERE ARE AVAILABLE IN THE ISLANDS FOR SETTLEMENT.

The Territorial land office and survey department are hard at work upon a complete new list of the available government lands for settlement. This is a preliminary to the efforts which are to be made to bring settlers here and provide them with homesteads, a policy upon which Acting Governor At-
