FILIPINOS ARE DISAPPOINTED

ELEVEN NATIVES OF PHILIPPINE ISLANDS WAIT ON SECRETARY MOTT-SMITH AND PRESENT A PATHETIC APPEAL TO GOVERNOR FEAR TO FIND WORK FOR THEM—THINGS NOT WHAT THEY WERE LED TO BELIEVE.

From what took place in Secretary gold, here. Then they told of reaching Mott-Smith's office this morning it is here and finding that the rate of pay evident that some Filipinos in this country are a feature and also that men brought over under the auspices of the Territorial Immigration Commission have been having a pretty hard time. Eleven young Filipinos, none appearing to be more than 22 years of age, presented their complaint, in a petition to Governor Fear. They told of their troubles and said that they had been discriminated against in regard to pay, working alongside of men who were given higher wages than they and of how much they were disappointed in Hawaii, the gold-brought under the auspices of the Territory. In the first place they complained that they had been told that they would get \$30 per month.

MAY JOIN PACIFIC FLEET AT MANILA

The information, correct or otherwise, is contained in a despatch to a San Francisco paper dated Puget Sound Navy Yard, Washington, September 16, to the effect that the United States cruiser Colorado is coming to Honolulu to meet the cruiser fleet to participate in target practice at Manila Bay. If this be so it would indicate that the Pacific fleet, which, according to originally scheduled should have sailed yesterday from Samoa for Honolulu, is coming here again only to go hence to Manila, or that the Pacific fleet is now en route to Manila and that the Colorado will follow the fleet from here. She is due here early next month. Or it may be that the Puget Sound Navy Yard despatch was mistaken in using Manila Bay and it may have been meant for Magdalena Bay, the mistake possibly being a typographical error. The fact remains that Honolulu has since the Pacific fleet left here received no news of its whereabouts or intended movements. Following is the despatch: PUGET SOUND NAVY YARD, (Wash.), September 16.—The cruiser Colorado, which has been in dry dock the past thirty days undergoing repairs made necessary by grounding on Lip-Lip Point, August 16th, will leave the dry dock September 20th and the yard about September 23d for San Francisco. From there she will go to Honolulu to meet the cruiser fleet to participate in target practice at Manila Bay.

READY NOW TO GO AHEAD

LEPERS' MOVING PICTURE SCHEME CAN BE PUT THROUGH AT ONCE IF THE MONEY SUBSCRIBED IS AVAILABLE—THOSE WHO HAVE PROMISED SUBSCRIPTIONS ASKED TO SEND THEM IN AT ONCE.

The Leper Settlement moving picture fund is wanted and all who have offered contributions are asked to send in the coin at once. The Leper Settlement at Molokai should have a fine moving picture machine with the funds which have been collected and the matter will be taken up at once if the money can be obtained. It will be handled through a committee of three, who will be asked to serve by Superintendent Jack McVeigh. At the present time there is \$296.75 available and in the hands of the secretary of the Board of Health. This sum comes from three sources: \$109 from the concert given by Madame Arral, under the patronage of Mrs. Dr. Humphris, Mrs. Dr. Cooper and others, \$142.75, which was collected in the Settlement itself, and \$45 which was sent in to the office of the Hawaiian Star and turned over the day after collected, now some weeks ago. The money collected by others has not yet materialized at the Board of Health. The noticeable feature of the funds collected is that the sum of \$142.75 was collected in the Settlement itself. When it is realized how little chance there is for these people to earn any money and of their need of many little things which we the people on the outside would never dream of going without it will be seen that this sum is really a very large one, and that it shows that while help is being given them from the outside they are not a bit backward about helping themselves.

NEW SWEATER COATS.

DR. HAYES NOW CITY PHYSICIAN

At a meeting of the Board of Health held this afternoon a change was made by which Dr. Hayes, of Molokai, will take the position of Government physician for the district of Honolulu, handling the dispensary work as well as making outside calls on the poor when needed and looking after the Government homes. He will take the work which has, up to this time, been handled by Drs. Sinclair and Baldwin, at a salary of \$150 per month, making a considerable saving to the Board of Health.

The change was made as the result of a committee report after an investigation of the dispensary affairs which were criticized rather severely at a recent meeting of the Board. Changes in methods of handling the dispensary will also be made.

GIRL IN DANGER

Honolulu's still talking ghost and when one man meets another on a street corner and asks "What's the latest?" the other fellow wants to know if he means the latest independent candidate or the latest ghost. And when women meet, why, its "do you really think the little Spanish girl, Esperanza, is a medium?" In the opinion of sober minded people as distinguished from merely serious minded people, the case of Esperanza, is perhaps one of the most fit subjects ever arising in this community for the careful consideration of the Society for the Prevention of Cruelty to Children, or the Humane Society, for the almost-woman in a pitiful state of mind as the result of the way she has been in the last few days teased and tortured into talking about what she either knows nothing of nor could easily explain if she wanted to.

It was late last night before she retired and then she had for hours been in tears as the result of questions and cross-questions. In the light of a day's perspective the doings of Sunday at the Pecarick mansion on Punchbowl begin to appear more and more "fishy" and there appears to be more and more improbability of any "true psychic phenomena."

If Mr. and Mrs. Pecarick were as scared as they say they were over the alleged doings of Sunday and they believe, as they say they do, that the dancing furniture and flying bric-a-brac was due to the pretty Spanish servant, why should they stay in the house last night with Esperanza under the same roof?

Last evening, after the police had chased away the curious hundreds, many of whom were willing to pay to get in, the Pecaricks and Esperanza and a barber and a very few neighbors sat around in the dining room, with a little wine, and yawned. Had it not been for the few neighbors, still believing and hanging around to see the ghost walk, the family would have retired early.

It was not so long ago that a house on Emma street was said to be haunted. Some superstitious neighbors saw a boy or two emerge through a window, glass and all going, and terrific noises followed. They at once started the cry or ghost and the inmates of the house, when asked afterward, "admitted" that ghosts had been making a manifestation. Later the facts proved otherwise.

Not that Sunday's case is anything (Continued on Page Five.)

Auto Delivery.

POLITICS

The political discussion of the day is as to who will be most affected by the independents. No one seems to take seriously the chances of electing "Foxes-have-holes" Long, and the chances of Admiral Beckley to handle the county money is regarded as about even with that of Laukea to get another term.

To complicate the situation, there is the fact that the Home Rulers have a convention tonight, and Achi stands on street corners with a Labor party in his pocket, threatening, or promising, endorsements,—according to the way it is looked at. The Home Rulers, it is stated, will put up a complete senatorial ticket, but they will pass up a lot of offices for which they think they have no chance. That of county clerk is one, and Kalaokalani will be endorsed. Cathcart will be endorsed for county attorney and Wise for sheriff. For treasurer, it is reported that the admiral and Achi are in cahoots and mayhap the little pocket party in the Fifth will come to Beckley's rescue.

Beckley is sincerely sorry for Von Holt and Trent, who are about to spend their energies in a useless campaign against him, but duty's call to office must be obeyed and so the admiral will agree to look after the county money when Trent's turn is up.

Long's vote, it is thought, will come from the Cathcart side more than the Edings side, and may elect the latter, Long expects the Civic Federation vote, and it is mostly Republican. His candidacy is therefore cheering to the Edings men, but political feeling it has aroused is solidifying the Republican ranks and the contest between Edings and Cathcart promises to be an interesting one.

Laukea's vote also is regarded as likely to come from the Republican side mostly. Laukea, it is thought, will run far behind the independent vote of William Henry, when he made a vigorous independent canvass and got about 800 votes. If he gets the Civic Fed vote, he will naturally hurt Wise, and as Jarrett is specially strong among his party following, Wise's supporters feel the need of hustling.

In this connection there is some chance that Laukea may not get a Civic Fed endorsement. It is certain that Wise has supporters in the federation, and it is equally certain that Laukea has lost most of his support, during the last six months.

George Kaea, the gambler who got on the Republican legislature ticket in the wee small hours when the convention was nearly asleep and a lot of members had gone home, insists on running. He filed his nomination papers this morning. However, his action is regarded as a bluff, and Kaea will be done away with, say the party leaders.

The fact that the Home Rulers are going to put a complete senatorial ticket in the field, is another complication that is viewed in various ways. For supervisors they will put up Senator Kalaokalani, and he is certain to run strong.

An executive session of the Republican County Committee was held this afternoon, at the conclusion of which Chairman A. F. Judd dictated the following report of proceedings:

"The question of the ratification meeting has been put up to the chairman and secretary of this committee, to confer with the chairman and secretary of the Central Committee. We will try to have that conference meeting this afternoon later.

"This may be called the first preliminary meeting of the County Committee. We made a tentative list of speakers for the various meetings. Our attempt has been to get the most effective speakers.

"A list of names of proposed speakers cannot be given out because their consent has not yet been asked.

"E. H. Paris has resigned from the County Committee on account of the pressure of business, and I have appointed A. R. Phillips in his place.

"The committee discussed a whole lot of things without arriving at any decisions. That would naturally be the case at the first meeting of the committee. Many things have to be tentative just now owing to the financial conditions.

"This committee agrees with me that the committee should not incur any bills without seeing where the money is to come from, as this is to be a business campaign."

CORPORATIONS TEST CASE ON

The case of the United States vs. the Haleakala Ranch Company, in which a test of the Federal law forbidding campaign contributions to be made by corporations in the coming election is to be made, was commenced before Judge Dole this afternoon at 1 o'clock. Attorney A. Lewis Jr., appearing for the defendant corporation and U. S. District Attorney Breckons for the gov-
