"OLD" AUSTRALIA Capt. Houdlette Writes of His Trip to Alaska.

Former Liner Made a Record Run. Thirty-five Vessels Carrying Gold Seekers—At Skaguay.

Capt. Houdlette, of the S. S. Australia writes to San Francisco from Seattle as follows:

"Here we are back at Seattle after going the rounds—first Seattle, then Tacoma, then Port Townsend, then Victoria, Juneau and Skaguay, back to Juneau and Seattle. We had 4-5 passengers, horses, cattle and donkeys, and quarters of beef and mutton the whole length of the deck.

"I think the whole community has gone mad. Men who call themselves as gentlemen lose all signs of gentility when they start for the mines and act more like beasts than anything else.

"We went from Victoria out the straits outside of Vancouver Island up to latitude 56 degrees 29 minutes north, then in by Cape Ommersey, hence we had only 243 miles of inland steaming. I think by keeping outside all the time we shall come out all right, although we have to pass some pretty bad places and if it should happen to snow or get thick it would make you feel very uncomfortable, for the water is of such great depth that one cannot anchor.

"You never saw such a mob as there is now here, all madly rushing for the gold fields. There are thirty-five vessels carrying passengers from Portland and Seattle to Dyea and Skaguay, and all are going full, with more freight than they can carry. Seattle is booming.

"It is a sight worth seeing going up these channels—mountains on both sides from 3000 to 5000 feet high, covered with snow and ice. Some of the glaciers are three miles wide and thirty miles long and from 1000 to 3000 feet deep of the bluest ice.

"The night we arrived at Juneau we had to keep first to right and then left to keep clear of icebergs. We broke the record from Victoria to Juneau, 58 hours 13 minutes, and 6 hours 53 minutes to Skaguay. The best trip of the Queen was 66 hours to Juneau. Our time is not bad for the old ship in strange waters.

"The Cottage City came into Juneau while we were there with her stern and forty feet of her keel gone. There were three hundred passengers on board. She had three feet of water in her engine room before they could find a place to beach her.

"The Whitelaw got ashore before she reached Skaguay, and then burned to the water's edge about five hundred yards from us.

"I want to give you a little idea about Skaguay. It is built, you might say, on a mud flat, between high mountains. Everything is mountain up here, and not a bit of level land to be seen. The wharf where we lay is a half-mile long to town, and the rise of the tide is 28 feet. The tide goes nearly to the town and such a town. It is full of gamblers and gin-mills. You will first come to the house of some family, next door a shop, next a hotel and next a gambling den, and that is the way all over town. Up the valley toward the White Pass hundreds of dead horses lie, and the water the people use comes down that way. When summer sets in they will die off like sheep.

"We took forty Indians at Juneau to work cargo, as the gang at Skaguay wants 75 cents and \$1 per hour. We had to get United States troops to patrol the docks to protect the Indians. The night the Indians were paid off they got up courage and went up town. About 3 o'clock they came running on board. The gang had fired about a dozen shots at them. You never saw such a scared lot of Indians in your life. The head one woke me up, saying that three of them had been shot, but the alarm proved to be false, as no one was shot. You can form some idea of the tough crowd at Skaguay."

An Easter Opening.

Miss M. E. Killean announces her Easter opening for Monday, Tuesday and Wednesday of this week. Miss Killean's attractive and complete millinery establishment is in the Arlington Block, on Hotel street. The proprietor has but lately returned from the States and brought out the latest New York and Parisian fashions. These new goods will be shown for the first time this morning and are bound to find favor with the ladies. Miss Killean has been catering to the Honolulu millinery patrons for some time and understands well their wants and needs. She has purchased for this retail market, and has been careful in buying with the intention of giving full value and the very best and newest of everything in the millinery line.

A Monster Benefit.

It may be necessary to repeat the native church benefit concert scheduled for Saturday evening next, in order to give value received to all the purchasers of tickets. Interest in the event is growing and the sale of admission slips continues. Enough tickets are out already to comfortably fill the opera house. The promoters of the concert, started out to do something large, will not be satisfied till effort ceases to meet with result. There will be fine music and the proceeds will go to assist three native churches in the

suburbs. At the concert will be afforded an unusual opportunity to hear the best native musicians.

A Backdown.

Says an exchange published in the States: "Oxnard has concluded that it will not pay to antagonize the sugar beet growers near Grand Island, Neb., so he has withdrawn the clause providing that in case of Hawaiian annexation he will pay a half dollar less per ton for beets. This was intended simply to add to the pressure exerted by the sugar trust against annexation. The trust and its backers made a formidable showing, but as most of their arguments have been exploded, they have fallen into the condition of a boy seen in daylight."

Races Next Saturday.

The next big out-door local event will be the racing on Saturday afternoon of this week at Kapiolani park. The horses are all in training again, and some of them are showing up better than ever before. On Sunday morning about 100 horsemen were at the track to witness some trial performances. Just now interest centers in the pacers owned by Cunningham, McDonald, Quinn and others. The crack runners will come in for attention later. Every effort will be made to have Saturday's program entirely satisfactory to all.

THE HIGH REPUTATION

Of the Criterion Barber Shop, since the advent of the introduction of the individual cups, is constantly increasing. People, who formerly shaved at home, now patronize this shop.

Sealed tenders for furnishing the Board of Health with "pure calf lymph supplied from the Vaccine Institution at Hastings, Hawke's bay, N. Z.," are called for.

Parson Smith held forth for two hours in front of Hart & Co., Ltd., last evening after church and for his eloquent and interesting discourse had an attentive audience.

With the few days of favorable weather, Contractor Fred. Harrison has made a fine showing on the big two-story cottage for the Hawaiian Hotel.

Schilling's Best baking powder makes the biscuits light. Schilling's Best tea makes them seem lighter yet.

Stock Taking

With us means hard and tedious work, work that cannot be avoided any more than the Friday house cleaning. In fact stock taking is a form of house cleaning on a very large scale. Below we quote you a line of goods which we are anxious to sell rather than count them in on the inventory. Not that there is anything wrong, just the contrary, but by selling them now it saves handling, counting and remeasuring.

- TURKISH TOWELS, all widths. LINEN NAPKINS. LINEN TOWELS. TABLE DAMASK. BLEACHED and UNBLEACHED DAMASK. SHEETING, all widths, from the narrowest to the widest. FLANNELETTES. SERGES. GINGHAMS. WHITE and COLORED FLANNEL. SEINE TWINE.

J. T. WATERHOUSE Queen Street

What Is the Meaning Of a Guarantee ?

It is confidence in the article you sell, sufficient to warrant you to stand by it under all circumstances. That's the confidence we have in our goods, and that's why we are not afraid to stand by them, not only before, but after they are sold. All other goods perish, or are consumed in a short time and the dealers' responsibility soon ceases, but a choice piece of Jewelry or Silverware lasts forever, and the Jewelers' responsibility with it. It is to your advantage to purchase such, where the guarantee is your safeguard, where great distance does not make the guarantee valueless to you, and where it is the honest endeavor to give satisfaction in every instance.

OUR STOCK Certainly offers advantages not to be found elsewhere in the city of choice goods, entirely new, and absolutely new in design. We know the prices are right.

A Model Plant is not complete without Electric Power, thus dispensing with small engines. Why not generate your power from one CENTRAL Station? One generator can furnish power to your Pumps, Centrifugals, Elevators, Plovers, Railways and Hoists; also, furnish light and power for a radius of from 15 to 30 miles.

Electric Power being used, saves the labor of hauling coal in your field, also water, and does away with high-priced engineers, and only have one engine to look after in your mill. Where water power is available it costs nothing to generate Electric Power. THE HAWAIIAN ELECTRIC COMPANY is now ready to furnish Electric Plants and Generators of all descriptions at short notice, and also has on hand a large stock of Wire, Chandeliers and Electrical Goods. All orders will be given prompt attention, and estimates furnished for Lighting and Power Plants; also, attention is given to House and Marine Wiring. THEO HOFFMAN, Manager.

FOR SALE. California Horses. MATCHED TEAMS, FAMILY HACK AND SADDLE HORSES. Orders Taken for All Classes of Horses. STABLES, King St., Opp. Singer's Bakery J. A. McDONALD, P. O. Box 422.
