## HORSE RACE TALK

Keen Interest in Two  
Matches for the Track.

Park Record to Be Broken—Wag-  
ers—The "Two in Three"  
Proposition.

It was reported last evening that a  
hul of the younger "sports had sent  
forward by the Doric an order for a  
harness racing horse that would show  
the way to any of the late importa-  
tions of speed stock. It will be dif-  
ficult indeed to get such a horse, but  
the assurance is ventured that the animal  
will be forthcoming for June 11  
business.

The matter of two heats in three  
instead of three in five for the pacing  
and trotting events has not been drop-  
ped by any means. The change is still  
being persistently urged by men of in-  
fluence in the Hawaiian Jockey Club  
and it is likely to be made. It is strong-  
ly recommended by many of the best  
patrons of the track. One of the owners  
who has been in marked opposition to  
the proposed reform from the first  
said yesterday, when perhaps off his  
guard, that he would have been agree-  
able but for the fact that a certain  
individual with whom he had an old  
difference was so much in favor of the  
change. This temper may disappear.  
On next Saturday occurs the match  
between Hollinger's Margaret H and  
Norton's Directress. The favorite had  
been up to yesterday Directress, but  
some of the backers of the favorite  
have been trying to "hedge," that is  
protect themselves by betting some-  
thing on the other entry. Both ani-  
mals are in good condition and have  
been showing the mile in the neigh-  
borhood of 2:28.

More interest is taken in the Violin-  
Irish Lassie match than in anything  
of the sort here for years. It is known  
that Violin has worked out the mile  
in 2:24 and that Irish Lassie has done  
the same thing in 2:25 or under. It  
is claimed that in the fast trial caught  
the driver of Irish Lassie "slowed up"  
in a very marked manner on the last  
eighth. One wager has been made  
"that if Irish Lassie wins the track  
record (2:21 1-2) will be beaten." Men  
are at the track every day now with  
split second watches trying to satis-  
fy themselves as to the merits of all  
the match horses as well as others in  
training for June 11. In the match  
events there does not enter that fear  
prevailing on open days that by some  
means the best horse may not finish  
first.

### IDEAS FOR INDUSTRIES.

Possibilities for Development in  
Fruit Culture.

MR. EDITOR:—I have read with  
much interest your forcible articles on  
"No Tropical Fruits," "Local Study,"  
etc., in which you show yourself to be  
a true patriot who has the welfare of  
the masses of the people and the de-  
velopment of the resources of the  
country at heart. We have the capi-  
tal, skill, soil, climate, muscle and ev-  
erything else needed for the people to  
work under proper methods and this  
would soon be a land "flowing with  
milk and honey." I would suggest the  
following plan which might be greatly  
modified to suit ideas and conditions.

Let the Government appoint Industrial  
Boards from the ablest local men and  
women throughout the Islands, whose  
duty would be to direct and encourage  
the people, to teach those who needed  
instruction, to form associations, to  
offer prizes for well kept ranches, to  
find markets, excellent produce, to fine  
gardens, excellent produce, to find  
produce, etc. If the land in Kona alone,  
which is now a dreary waste, were  
properly cultivated, it would be capa-  
ble of giving a comfortable living to  
every Hawaiian on the Islands. The  
papaia, coconut tree, grape vine and  
peanut, grow well by the sea. A little  
higher the banana and pineapple do  
well. Thousands of pigs and chickens  
could be raised from the fruit of the  
papaia. Honey might be produced in  
great abundance. The palm from  
which the Panama hat is made, grows  
well here. In the coffee belt all kinds  
of fruit and garden produce can easily  
be raised. Above the coffee belt there  
is excellent timber which could be  
turned into lumber and furniture.

Each school should have a few acres  
of land on which the pupils might be  
taught to produce everything of which  
their locality is capable. The school  
hours should be extended from 8:30 a.  
m. to 4 p. m., and the pupils should  
enjoy a good free lunch at noon. The  
girls could make all the children's  
clothing, make hats, cook, etc., while  
the boys would do the rougher work on  
the land and in the school factories.

You have advised the manufacture  
of gloves. Could not the raw material  
be produced and shipped to France,  
Japan and other countries, to be made  
into gloves? It seems to me that great  
quantities of raw silk and cotton  
might also be produced in Hawaii  
which would find a ready market in  
other parts of the world.

I am suggesting nothing new in my

little plan. Our present school sys-  
tem is nearly broad enough to take it  
all in. The agricultural, horticultural,  
fruit growers' associations, polytechnic  
and agricultural schools are all based  
on similar principles.

Yours sincerely,

R. LAW.

Kailua, May 2, 1898.

### Funeral of a Child.

A coffin containing the body of a lit-  
tle child was carried to the King street  
cemetery yesterday by four little girls,  
dressed in white. Behind, as mourners,  
were four or five more little girls  
dressed in white and three men. All  
were Portuguese. It was remarked as  
very strange that there were no wo-  
men taking part in the funeral.

### REWARD OF MERIT.

At the CHICAGO CYCLE SHOW in  
1897, each visitor on entering the  
Show was handed a coupon reading as  
below:

"After viewing the exhibits, kindly  
fill in the name of the Bicycle which  
pleases you best as regards beauty  
and mechanical merit, and deposit the  
coupon in ballot box near exits.  
Name of Bicycle....."

The "Shirk" received 17,489 ballots  
against 12,377 the next highest. When  
it is known that all the leading makes  
of wheels in the United States were  
on exhibition at this Show, the above  
speaks for itself. The HONOLULU  
BICYCLE CO. have secured the Agency  
for this strictly high grade wheel.  
IT WILL INTEREST YOU TO CALL  
AND SEE IT.

The SHIRK is the best thing that  
ever happened.

We wish to thoroughly impress on your mind

## A Big Cut!

For one month I propose to make a big cut in  
**Horse Supplies.**

Here is a partial list of the goods on which the cut will be  
made: Salt Sacks, Horse Boots, Sheets, Hoods, Scrapers,  
Bits, Sponges, Brushes, Bandages, Ointment, Condition Pow-  
ders, Embrocation.

Many of these goods are cut 50 per cent. making them lower  
than ever before and lower than you will be able to buy them for  
a month from now.

SPECIAL NOTE:—This ad. made its appearance for the  
first time May 1. Since that time the response has been very  
generous. Don't wait too long.

SPECIAL NOTE NO. 2:—The fact of active war being in  
existence will bring the price of these goods up higher than  
before the cut. Better invest now.
