IN A LIBEL CASE

Expected That Forty Witnesses Will Be Called.

Fatal Gift of Beauty a Factor-Interpreter-Peculiar Relations of Two Well Known Lawyers.

The libel case now on in Circuit Court on appeal from the District Magistrate of Honolulu is occupying the time of a goodly company of people and from the present outlook will hold the boards for quite a period. It is said that there will be more than forty witnesses in all. Quite a number of these are from the Island of Kauai, including the Sheriff of that district.

This case is titled the Republic vs. Edmund Norrie and Wm. Horace Wright. Defendants are alleged to have published "falsely, maliciously, etc." statements concerning the treatment of laborers on Lihue plantation. The jury was secured on Thursday evening and the lawyers made their opening presentations yesterday morning. Then the first witness for the State was called. Initial evidence for the prosecution comes from a woman—wife of the laborer imprisoned and subsequently released through a legal technicality. One claim of the defense is that a lady who was infatuated with this woman on account of her beauty conspired to get her husband out of the way. There was trouble in getting an interpreter. Capt. C. W. Zeigler was called and officiated for a time. He was satisfactory to the State and one of the jurors said that the work was good enough for anybody. The defense did not like the captain's style and had him excused. Mr. Lange of E. Hoffschlaeger & Co. was then secured. At evening the woman was still on the stand. It is questioned if her fatal gift of beauty which aroused the chivalry of Messrs. Wright, Norrie and Seller of the Press and Messrs. Creighton and Gear of the law, will have the same effect on the jury. Mr. Kinney, attorney for the State, does not seem impressed unduly by it. Attorney Creighton, on the contrary, is of well known gallantry and it is noticed that he is putting up the legal battle of his life.

It's funny how these lawyers are first on one side and then on the other. Some ultra-good people might intimate that they could possibly be open at times, to the indictment of insincerity. Mr. Kinney is now for the said-to-be libelled and Mr. Creighton for the paper. In a few days there will be another suit of this same class with Kinney for the paper and Creighton on behalf of the said-to-be libelled. Kinney and Creighton have grown up together in Honolulu and before the Courts of Hawaii. Their relations just at present need not estrange them at all. In all likelihood it will simply weld their friendship. Both common interest and utility suggest this and it is not at all probable that legal ethics will be violated. When they get through with the present case they can just exchange papers, references, etc., and can even have Stenographer Jones transcribe the notes of their remarks and swap sheets. In the coming case Kinney can read what Creighton has maintained for the liberty of the Press and people and Creighton can repeat, without it losing any force or application, what Kinney says about the bad writers and their inaccuracies and their general worthlessness and unreliability as viewed from the standpoint of the injured.

A CUTTER OF CLOTHING.

Not a Tailor and a Serious Result Follows.

E. Dunbar, at one time a member in good standing of the Mounted Patrol and now a hackman, was convicted in Circuit Court yesterday on trial for malicious injury. It was a rather unusual case. C. C. Conley, also an ex-horse policeman and Dunbar were room-mates. Conley was also a cable. Some trouble arose between the pair, but for reasons known only to themselves they failed to resort to a settlement by force. Going to the quarters of the pair a few hours after the row, Conley found that some one had been "doing all kinds of things," as he says, to his wardrobe. His reserve clothing was cut and slashed and torn worse than a sugar mill or a harrow could do the job. Conley hastened to the police station with the complaint that Dunbar had made the raid on the clothing. Mention was also made to Colonel Fisher that Dunbar had not even spared a suit of N. G. H. cut, color, material, trimmings, etc. Dunbar was arrested and the case came before a jury yesterday. Deputy Attorney-General Dole prosecuted and Paul Neumann was for the defense. The examination of witnesses for both sides was concluded just in time to properly or correctly adjourn for lunch. During the noon hour Mr. Neumann suddenly became so ill that he was unable to return to Court and sent word to that effect. In view of this fact the attorney for the Republic expressed willingness to submit the case to the jury without argument and the defendant agreed. A verdict of guilty was returned for the jury by Foreman A. E. Murphy. The judge stated that Dunbar would not be sentenced until Attorney Neumann could be in Court.

CRIME AT HILO.

Man Known Here Charged With a Cruel Deed.

The authorities here have been notified of an attempt at Hilo to commit a most cruel and revolting crime. The frightful effort was against the life of an infant. That the one with murder in heart did not succeed but was an accident. The person accused is Geo. H. Ruttman, who has been in Hilo over two years and who married at that place. He is quite well known here. Ruttman is charged with trying in the most cruel fashion to end the life of a baby but a few hours old. It is in the information from the police department branch at Hilo that the fellow narrowly escaped summary and violent punishment at the hands of citizens. There was a threat to lynch Ruttman. He was saved by officers. It is stated that Ruttman threw the infant, before it had received any of the attentions usually given the newborn, down into the vault of an out-house. The crying of the little child was heard by a native neighbor. The native told some haoles and an investigation was made. There was a prompt rescue of the infant and it is now doing well. Ruttman came to the Islands in the latter part of 1894. It was said that he was well connected in the States. For a time he was with the extra Mounted Patrol and held a lieutenant's commission. He violated the rules and was dismissed. Next he was sent to jail on a suit brought by a hotel keeper and remained in prison for some time. Finally he went to Hilo.

Electric Stoves.

While on the Coast recently Theo. Hoffman, manager for the Hawaiian Electric Company, placed an order for a consignment of novelties and the goods came by the Zealandia. In the office at the works now may be seen electric cook stoves, bath heaters, chafing dishes, immersion coils, substitutes for hot water bottles and bags and the tailor's goose by the flock. Heat is secured direct from the common current. The stoves, etc., are fitted with fine resistance coils and heat in a few seconds. Mr. Hoffman is quite a cook himself and in showing his electrical goods yesterday turned out an omelette in five minutes from a cold start. He also took the desperate chance of preparing a beef steak Spanish on the electric stove. The ovens, which are pronounced a great success, are yet to come. The bath heaters are popular already and will have a big sale. The heavy coil is nickel plated. It will bring a tub of water to the right temperature in a very few minutes.

Perhaps the most unique affair in the whole exhibit is the substitute for the water bags. This is a pliable pad containing a battery or coil of fine wires. It is set and the current turned on. In a couple of seconds the result is all that could be desired. If Bilmarin was here now he would want to have a pair of presentation shoes made out of the material.

Basket Ball.

The second two of the series of games of the basket ball tournament were played in the gymnasium of the Y. M. C. A. last night. In the first game the Diamond Heads won over the Honolulu by a score of 5 to 4. The second game was just as close, the Pacific besting the Y. M. C. A.'s by a score of 2 to 1. Both games were very hard fought and the play was very exciting at times.

BOCK BEER

Is a treat indeed. That's delicious beer for you. As delightful as any one will ask for. Brewed in the early fall, of carefully selected hops and malt. Of mature age and double strength. Have you tried it at the Criterion Saloon? It's just the right temperature.

PERSONAL MENTION.

G. B. Davis, a sightseer, recently a visitor to the islands, was heard to remark that in all his travels he had never been groomed in as satisfactory a manner as at the Criterion Barber Shop. Individual cups for rent for a nominal sum, if desired.

A Model Plant is not complete without Electric Power, thus dispensing with small engines.
Why not generate your power from one CENTRAL Station? One generator can furnish power to your Pump, Centrifugals, Elevators, Plovers, Railways and Hoists; also, furnish light and power for a radius of from 15 to 30 miles.

Electric Power being used, saves the labor of hauling coal in your field, also water, and does away with high-priced engineers, and only have one engine to look after in your mill.
Where water power is available it costs nothing to generate Electric Power.

THE HAWAIIAN ELECTRIC COMPANY is now ready to furnish Electric Plants and Generators of all descriptions at short notice, and also has on hand a large stock of Wire, Chandeliers and Electrical Goods.
All orders will be given prompt attention, and estimates furnished for Lighting and Power Plants; also, attention is given to House and Marine Wiring.
THEO. HOFFMAN, Manager.

Monuments and Headstones.

The undersigned is prepared to do CEMETERY work of all kinds, and supply MONUMENTS and HEADSTONES of which he has a great variety of the latest and most artistic designs, and will also supply stone coping separately for surrounding cemetery lots.
Estimates given in Marble, Granite, Hawaiian Stone, etc.
FRED. HARRISON.
