

**A Warm Weather Policy.**

The best at the lowest price at HOPP'S.

During the last fortnight we have refrained from talking shop for three reasons:

First—Every one felt so wrapped up in the "Boys in Blue" that they did not care much about furniture or listening to any lengthy talk on our part.

Second—The weather having been such that people would much rather stay at home and keep as cool as possible in preference to moving around in the sun.

Third—This reason of course is of more interest to us than to our customers, unless they are directly interested by having goods in our repair shop. Regardless of the hot weather we have had as much, and some days more, than we could handle in the repair and upholstery department. So that while you folks have been entertaining or keeping quiet we have been operating a bee hive.

We do not object at all, in fact we will be more than pleased to see the orders roll in to such an extent that we would be forced to employ additional upholsterers.

**Table Talk.**

The biggest shell doesn't always hold the biggest kernel. It doesn't take a page of advertising to tell of these

**Oak Extension Tables.**

But a whole page could not offer you bigger bargains. They are from Hopp's stock—which means Hopp's values. They are reduced because there are only a few of them. The first time you are down town drop in and examine them, they are just what we claim for them.

There is no necessity to buy if you feel they are not worth more than we ask for them.

Manager.

**ARGUE AT LENGTH**

A House Committee Does Not Like the Opium Bill.

**ON A HIGH MORAL PLANE**

Criticises Construction of Act. Board of Health and Physicians—Officials.

The act placing use of opium in the Islands under control of the Board of Health has passed the Senate. The adverse report given below has been presented in the House, but the act has some strong advocates in the lower branch and the fight will be a close one. The committee says:

The claim of those who favor the act is that it will put an end to smuggling of opium and that it will restrict its use. This claim your committee does not think can be good. Inquiry shows that though it may make the gains of the smuggler less, there will still be inducement for him to smuggle. As to the restriction of its use, your committee sees that the act provides that opium shall only be supplied to those who are now habituated to its use, but what is to prevent those habits from furnishing the drug to others who have never used it, thereby swelling the number of its users, who will in time, demand their supply of the legal purveyor of the institution created by law to pander to the appetites of the victims of this habit.

Under Section 1, your committee would point out that there is no proper definition of opium. For instance, the form of opium used for smoking is not the medicinal opium, nor can opium as prepared for smoking be used in medicine or for the manufacture of medicinal preparations of opium.

Under Section 2, the Board of Health is constituted a body for the importation of that which is forbidden to firms and individuals; the importation of an article which all agree is the most harmful and degrading drug within the reach of man. Boards of Health are constituted to conserve the health of people, they should not be the agents that assist in hastening them to a miserable grave.

Section 3 is one that will strike every one who gives it thought as essentially a vicious one. The Government Physician, the District Magistrate and the Sheriff or Deputy Sheriff, of the different judicial districts, are, by this act, constituted an "Opium Board." Would any one propose the appointment of Government officials to act as a board to allow other vices incident to weak humanity?

Can any one think that a self-respecting educated physician, one whose mission in life is to heal the sick, restore to health the afflicted, and lead to a higher hygienic life, would so far forget his duty and his calling as to serve on a Board whose duty it is to serve out the means of degradation to erring fellow creatures? And what would be the opinion of our Board of Health appointing any Government physician refused to serve on an Opium Board? As the law reads there must be a Government physician on the Board, and should a conscientious man refuse to serve there would be nothing to do but cancel the commission and appoint a man who could put his conscience in one pocket, while he put dollars in the other.

Then consider another member of the "Opium Board," the District Magistrate. On the one hand, he is the dispenser of justice, on the other he furnishes a victim with the means of crime. This is an anomaly which is self-apparent and self-convicting. An opium smoker might commit a crime under the influence of the drug and might have to be sentenced to punishment by the very member of the Board who assisted in furnishing him with the drug.

One of the many reasons that are advanced for the licensing of opium, is that unlicensed it corrupts the officials. While we have good material both among District Magistrates and Deputy Sheriffs, it does not seem as if there is any better material than there has been among our police and customs officials and the means of corruption are as likely to be used to defeat the present law, as ever they were to defeat prohibition of the drug.

The act provides that no minor shall be enrolled on the list of habitual users. This will not, cannot, from the very circumstances of the case, prevent minors from obtaining access to the drug through the habitual users, whether from curiosity, weakness or as a bribe to greater crime and misfortune.

Under Section 4, the Board of Health will have to furnish the Opium to the Opium Boards, in such quantities as they, in their discretion, think sufficient. By whom and by what standard is the "quantity sufficient" to be determined? Who of the Board, unless he be a user of opium, can say when the "quantity sufficient" has been reached?

A member of the Opium Board is required by this act, to dole out to each holder of a permit, fifty grains of opium a day. That is, on each and every day of the year, every holder of a permit, weaker, more debased, nearer to the end, by authority of law, by act of Government, will tremblingly approach this Government dispenser and obtain his further allowance in order that he may be still further degraded.

It is not necessary to go into the further details of this act. That those who support it are entirely honest in their views, is to be presumed. But

that it will work harm and be a source of corruption appears on the very face of it. Aside from all political reasons, and these in the minds of the committee are strong, for it must be remembered that it was the attempt to pass an opium license bill and a lottery bill which finally overthrew the monarchy, was in fact the terrible cause of that cataclysm, there is the consideration of the man's duty to man, no mere sentiment, but the duty of the stronger, the better in evolution, to his weaker, his less educated, the man further advanced advanced brother, not further to degrade him, rather to assist him as far as possible by removing from his path, by putting out of his reach, all means, all temptation which may further cast him down.

Your committee therefore recommends the bill be laid on the table.  
(Signed) A. V. GEAR,  
A. T. ATKINSON,  
D. H. KAHAULEILIO.

**NOVELTIES AND MILLINERY.**

By the Barkentine W. H. Dimond, Miss Killeen, of Fashion's Mirror, received a large invoice of all the latest in sailors and other hats and novelties in dress making trimmings. It will pay you to investigate.

**Mythical Bargains.**

We never make efforts to induce people to visit our store in search of mythical advertised bargains which do not exist or which are "just out." Such methods are dishonest and are certain ultimately to prove futile. What we advertise, we have, and it is always exactly as represented.

Some certain-to-please bargains which we are offering this week are

**The Passing Regiment**

On to the field of glory, there to do deeds of valor, and hoping for the best, all pursuits in this life, are rife with grave responsibilities, the future is uncertain, the end is unknown. The only sane way is to improve the present. Note the inducements and facts, then judge accordingly. Shoes need thought; shoes need attention; if you have to get a pair, consider many things; leather does not improve in keeping, the results are quickly found out when you wear shoes that are not new. There is no value in uncertainties. Remember our shoes are new, are up-to-date in shape, and are marked in price to satisfy everyone. Test this at
