From Childhood To Motherhood Took it as a Child: Now gives it to her own Children. Mrs. Mabel Boulton of Brisbane, Queensland, has had the following unusual and most delightful experience:

AYER'S Sarsaparilla procured some for me and I am happy to say that after having taken two bottles I regained health, vigor and good appetite and have not been troubled ever since. I am now married, have a family of my own, am still strong and well, and can recommend Dr. Ayer's Sarsaparilla as a good family medicine.

DANDRUFF KILLER DANDRUFF KILLER DOES IT. DOES WHAT? Why it kills the dandruff and saves the hair. If you are troubled with dandruff, prickly heat or any scalp or skin disease, try a bottle of DANDRUFF KILLER. It never fails to cure.

IS MOST TERRIBLE Horror of the Punishment for an Anarchist. Solitary Confinement in Darkness. Not Permitted to Talk, Read or Smoke-The Prison. Special Letter to the New York World. Geneva:—Luccheni's punishment will be, for an anarchist, the most terrible that can be conceived. It will be total silence. He will not be made a "martyr." He will simply be shut up, set to work and forbidden to talk.

All the prison guards take turns in watching the cell, and he has had little chance of getting special privileges. He is allowed to receive no visits or letters or to communicate with the world. All sorts of letters have been sent to him, but he has seen none of them. These come from all parts of Europe—one or two from the United States. All the letters received are not from sympathizers. In one there came a bit of rope and a rough sketch of a man being hanged. "This is what you ought to suffer," says the writer.

The cantonal penitentiary of Geneva, the Eveche, is a gloomy, gray stone building hard by the famous old Cathedral church of St. Pierre (the church of John Calvin) in the Rue de l'Eveche. Some fifty prisoners are confined there at present—all males. Of these only one is a life prisoner, a parrot who has already passed sixteen years in his cell. Here Luccheni will enter, never again to come out. He will be put to work at shoemaking. On Sunday mornings there is a service in the penitentiary chapel, which Luccheni may attend if he wishes, but as Anarchists scorn religion he may deny himself this comfort. There is also a prison library from which the prisoners may each take a book every Sunday. They are permitted to read on Sundays, and may also read at the dinner hour. Prisoners who have undergone this punishment four or five years have declared that they would prefer death. Some have begged to be killed.

For Luccheni it will be particularly hard. He sees before him a life absolutely without hope; the ceaseless talker will be reduced to everlasting silence, the preacher of the bad cause will be without an audience and without a public, the idle and noisy anarchist will be forced to work industriously every day of his life from 6 in the morning until 6 at night and cannot even dispose of the fruits of his own enforced labor. If the anarchists have any wit they may see a certain terrible irony in the fate of Luigi Luccheni.—Ben H. Ridgeley, United States Consul at Geneva.

IN THE SOUDAN. There May be Another Opportunity for "Fighting Kitchener." LONDON, Feb. 22.—According to a special dispatch from Cairo, the disquieting news has been received there that the Khalifa, at the head of greatly augmented forces, is marching on the Nile.

CAIRO, Feb. 22.—The Khalifa has left Sher-kella and is moving northward with a considerable force. He has been fiercely raiding the Arabs along the route, and the latter have become panic-stricken. Major McConald, the head of the British expedition which has been exploring East Africa, has started for Omdurman, and Major Hunter, the recently appointed Governor of Omdurman, and other British officers on a furlough, have been recalled.

LONDON, Feb. 22.—The Daily News publishes the following dispatch from Cairo: The Khalifa is advancing upon Omdurman with between 15,000 and 20,000 men. Preparations are proceeding to meet him.

A footnote to the dispatch says: The facts are that Colonel Kitchener's scouts came in touch with the Khalifa, strongly entrenched with 16,000 men, and the British officer having only a small force, he found it necessary to retire on Omdurman. This retirement the Khalifa regarded as a sign of weakness, and it led him to rally his forces to the advance. Lord Kitchener has 90,000 men at Omdurman.

ABOUT HAWAII. (Examiner Answer to Query.) J. F. Moser, Kendrick, Idaho.—Hawaii is not a good place to go with the expectation of making a living at the present time. The advices from the islands are that they are overrun with new arrivals, especially of professional men for whom there is nothing to do. The climate is good for weak lungs. The total area of the islands is 6,587 square miles. Honolulu is the principal place on the islands, having something over 28,000 inhabitants.

FOR REVENUE. Japan is Forced to Point of Increasing Postage. SEATTLE (Wash.), Feb. 22.—A bill has been introduced in the Japanese Parliament to amend the postal law. The bill proposes to raise the postage on letters (first-class mail matter) to 3 sen on every momme and a fraction (double the present weight); on post cards (second-class mail matter) to 1 1/2 sen, return cards 3 sen; on newspapers to 1 1/2 sen on every 30 momme and a fraction, 1/2 sen each being charged on papers weighing less than 20 momme if posted singly, the weight of other printed matter being raised from 16 momme to 20 momme. It is proposed that these amendments shall take effect from April 1st. Telegraph charges and railway fares will be raised simultaneously with the postage.

A Model Plant is not complete without Electric Power, thus dispensing its small engines. Why not generate your power from one CENTRAL Station? One generator can furnish power to your Pump, Centrifugals, Elevators, Plovers, Railways and Hoists; also, furnish light and power for a radius of from 17 to 30 miles. Electric Power being used, saves the labor of hauling coal in your field, also water, and does away with high-priced engineers, and only have one engine to look after in your mill. Where water power is available it costs nothing to generate Electric Power. THE HAWAIIAN ELECTRIC COMPANY is now ready to furnish Electric Plants and Generators of all description at short notice, and also has on hand a large stock of Wire, Chandeliers and Electrical Goods. All orders will be given prompt attention, and estimates furnished for Lighting and Power Plants; also, attention is given to House and Marine Wiring. THEO. HOFFMAN, Manager
