

Harness Snaps, Plumbers' Torches, Tinned Rivets, Spiral Packing, Mal. Iron Oilier, Screw Plates, Soft Dash Leather, Mouse Traps, Steel Squares, Bicycle Saddles, Handle Bars and Pedals, Wire Horse, Scrub, Dog, Stove and Sink Brushes; Seine Twine, Telephone Cords, Steel Tapes, Cup Hooks, Spring Balances, Bird Cages, Stanley Planes, Belting, Churns,

WHAT ABOUT ALL THESE ITEMS?

Well, they have just arrived per "Austarlia" from New York and as they are items we have calls for every day we supposed you wanted to know that we now had a good stock of all these things.

We also had 55 Bicycles on the Australia. Columbias and Ramblers, 12 Chainless and the rest Chain Wheels. Those who ride them say they are the best wheel made on earth. We are too modest to say so, but we think so just the same.

E. O. HALL & SON,
—LIMITED.—
Corner Fort and King Streets.

Ready = Rock Asphalt ROOFING.

The strongest, most economical and durable Roofing ever sold in this market. Easily and quickly laid, and adapted to any roof from flat to one-half pitch.

It is a NON-CONDUCTOR OF HEAT, which, together with the fact that it is practically indestructible, particularly recommends it for this climate. Does not require to be painted and any workman can lay it. Endorsed by leading architects and builders. Call and see samples.

Asphaltum Piping
FOR WATER MAINS, SEWERS AND ELECTRICAL CONDUCTORS.

The best pipe in use; will out-last any piping ever placed on the market. Contractors and Plantation Managers should investigate this Piping. They will find just what they have been looking for—a pipe that is strong and will not corrode.

THE CHALLENGER BY AUTHORITY.

Shamrock Will Contest for America Cup.

Work Well Advanced—Guarded By Detectives—Similar to the Defender—Lipton Confident.

BOSTON, April 12.—A dispatch to the Herald from Gourock, Scotland, says:

The work on the Shamrock has advanced far enough to need the services of detectives, who are now the subject of ridicule for their recent action, as witness the taking into custody of some actors, supposed to be dimension-seekers. The challenger will have a steel boom 22½ inches in the slings and 115 feet long. A steel mast is also made, and this will be tested on the Clyde in the preliminary trials when good tests will be made. It may be used in the races, though in case it proves too rigid, will not give and seems liable to pull out the chain plates, the wooden mast will be used. The challenger will have a very large sail plan, quite 13,000 square feet in working sails, with nearly 85 feet from deck to hounds.

Fife's Fairlee carpenters are now at Chiswick making the hollow spars. The carpenters have been working four weeks on the extra club poles, extra gaff and extra spinnaker poles. There will be a duplicate full set of steel spars also made. Sir Thomas Lipton has told the workmen, in case no information leaks out, that he will make them substantial presents. The Shamrock is building in a corrugated iron shed, and for the last week has been guarded by detectives both day and night.

The challenger will not be far off in her dimensions from the new Defender and this is shown by the few tons difference in the lead ballast which is in their respective keels. Two suits of sails are already made and these will be tried out on this side.

The steam yacht Erin, which is to convey the Shamrock will take along a large number of sailmakers and carpenters.

Sir Thomas Lipton intends making a big affair of the cup races, for, besides the friends who will accompany him from this side, hundreds of invitations will be sent out to American friends, who will be his guests on board one of the large New York pleasure steamers.

While in Scotland last year Sir Thomas extended a number of invitations to friends to be present at the launching. These have been recalled. The challenger will be launched about the middle of May, and, if report is true, she will be blanketed like a Derby winner from keel to deck when she slides down the ways.

Sir Thomas Lipton is very confident of winning. In fact, the rumor here is that the big yacht which Watson is designing for C. D. Ross is to be built at once, so as to be ready for an early American challenger.

IN JAMAICA.

KINGSTON, Jamaica, April 11. — The Legislative Council resumed its sessions today. The Governor, Sir Augustus Hemmingway, read a statement making absolute and unconditional surrender, withdrawing the additional officials and members, restoring the constitutional status quo ante bellum, and appealing to the representatives to accept the right hand of fellowship and to allow by-gones to be by-gones, announcing that he relied on their patriotism to aid him in solving the difficulties.

Thereupon the representatives withdrew the vote of censure on the government passed on Friday last and voted \$500,000 to meet the immediate liabilities, pending a re-arrangement of the finances of the island.

IN HONOR OF ADMIRAL DEWEY.

NORTHFIELD (Vt.)—The trustees of Norwich University have decided to begin the foundations for Dewey Hall on May 1st, the anniversary of the battle of Manila bay. This testimonial to the Admiral has received his explicit approval.

REMARKABLE CURE OF RHEUMATISM.

Kenna, Jackson Co., W. Va. About three years ago my wife had an attack of rheumatism which confined her to her bed for over a month and rendered her unable to walk a step without assistance, her limbs being swollen to double their normal size. Mr. S. Maddox insisted on my using Chamberlain's Pain Balm. I purchased a fifty-cent bottle and used it according to the directions and the next morning she walked to breakfast without assistance in any manner, and she has not had a similar attack since. —A. B. Parsons. For sale by all Dealers, Benson, Smith & Co., Ltd., agents for H. I.
