Minerva Mirillo.

The new effervescent aperient for the Liver, Blood and Stomach. Invaluable for persons of sedentary habits.

SOLD EVERYWHERE. Minerva Mirillo

Is a mild and pleasant, but exceedingly effective aperient, keeping the blood pure, regulating the liver, clearing the complexion, removing zesty matter from the system, and generally warding off disease. Made from, and containing all the valuable properties of grape fruit. Prized by travelers, sea-faring men, and residents in hot climates. A sure preventive of diarrhoea, and a delightful invigorator of the constitution. When used simply as an aperient, it has most satisfactory results. Valuable for all persons of sedentary habits, removing depression and head affections, and generally bracing up the nervous system.

THE TWO STAPLES

Market Reports on Sugar and Coffee.

No Advance Anticipated in Raw Sugars—Hawaiian Coffees Hold Their Own and Are Firm.

Willett & Gray's latest concerning the New York sugar market is to the effect that in the second week of July there were buyers for centrifugals at 4 1/2 cents and for muscovados at 4, but few sellers, one cargo only having been placed since the holiday at last quotations. Some holders are inclined to try for 1-16 cent advance, but as the independents do not seem to want further supplies at the moment, it is doubtful if any advance can be established, particularly as Europe, after a temporary firmness and advance, is again showing considerable weakness and decline.

A reciprocity treaty has been concluded in Washington by the representatives of the United States and Great Britain covering the trade with Jamaica, and now awaits ratification by the United States Senate and the Jamaican authorities. The terms of the treaty are withheld, as usual, until it is acted upon in the Senate. The exports of sugar from the Hawaiian Islands to all ports (San Francisco, New York, etc.) from January 1 to March 31, 1899, were 73,652 tons (2,240 lbs.) against 65,168 tons for the same period last year.

Otis, McAllister & Co. report the receipts of coffee at San Francisco for the week ending July 12 at 16,194 bags, of which 242 were Hawaiian. Prices of the latter do not show any material decline during the past month, chiefly for the reason that stocks are small and firmly held; something strictly fancy will still bring high figures, but such coffees are very scarce. We believe that considerable concessions would have to be made on the asking prices of medium grades in order to effect sales of any consequence. Sales have been made of 15 bags Peaberry good to fancy washed, at 12@16c; 139 bags good current quality, at 13@14c; 573 bags prime, at 14@15 1/2c; 19 bags fancy, at 16@17c; 68 bags fancy extra bold washed, at 18c; 10 bags Triage, at 5@7c. To-day's stocks in first hands amounts to 963 bags.

The world's visible supply: June 1, 1899, 6,261,302 bags; against May 1, 1899, 6,341,194 bags; against June 1, 1898, 5,475,022 bags.

IN PHILIPPINE WATERS. WASHINGTON, July 13.—The Navy Department has obtained by telegraph from Manila a complete list of Spanish vessels purchased by General Otis from the Spanish government and turned over to the Navy. With the addition of these vessels, all of which draw little water, Rear Admiral Watson will have a sufficient number of light-draft craft to police the Philippine archipelago and to operate against the insurgents in numerous lagoons and rivers of the Island of Luzon. According to a telegraphic report received at the Navy Department the vessels purchased are thirteen in number, twelve gunboats and one torpedo boat. The gunboats are the Calamianes, Mariveles, Buhusan, Pampanga, Samar, Albay, Manileno, Panay, Vasco, Urdaneta and Guardoqi. The torpedo boat is the Barcelo.

In addition to these the fleet in the Philippines has been increased by the purchase or capture of the tugs Rapido, Sureste and Petrelita, the steam launch Iona and the steam barge Ondina. Nine vessels are now in serviceable condition which were captured by Dewey. The fleet in the Philippines is sufficiently large for all present purposes. The best of the thirteen vessels purchased are sister ships, the Bulusan, Pampanga, Paragua and Samar. They are steel gunboats of eight feet draft, built in 1885. Each is 114 feet, 135 tons displacement, and is credited with a speed of ten knots. The armament of each consists of one 3.5-inch Hontoria breech-loading rifle, one 2.7-inch Hontoria breech-loader and two machine guns. The Spanish names of the mosquito fleet will not be changed.

BITS OF HUMOR AND STERLING FACTS.

"Is Mrs. Barkis on your calling-list, Mrs. Montmorency?" "Yes; but not on my visiting-list. We call the telephone book our calling-list now." The Sterling wheels are in the lead! Horses for racing purposes, or most any other, are in comparison to the Sterling. One of these handsome, up-to-date wheels is "a thing of beauty and a joy forever." The joys of an open-air existence and a spin on one of the built-like-a-watch wheels is a pleasure worthy of a king. "With all my worldly goods I thee endow"— He stopped short—his strong brain seemed to reel—"At least with all of them"—he stammered now—"Except my brand new Sterling Chainless wheel."

Editor—"Did you write these jokes yourself?" Manager P. C. & M. Co.—"Yes, sir." Editor—"You must be older than you look." Don't ride a wheel unless it's a good one. Don't pay more than a wheel is worth. Don't take chances on an unknown make. Go to the Pacific Cycle and Mfg. Co., on Fort street, and buy a Sterling bicycle that has a reputation.

JAS. F. MORGAN Auctioneer and Broker, 33 Queen Street. P. O. Box 594. Telephone 72.
