

Kaiulani Tract

Situated on the east side of Kalihi Valley. The view to Pearl Harbor is the best in the city of Honolulu. The soil is very deep; no stones or rocks on the place.

Water will be laid before purchasers are ready to build.

A space will be set apart in memory of the late Princess Kaiulani for a park.

The lots will be sold at the lowest prices in the market, with which other real estate agents will not afford to compete.

Applications for lots will be received at our office, and will be given preference of choosing lots in the order they are received.

For further particulars apply to—

IS IN A TURMOIL

All of South Europe on Verge of Revolution.

So Says an Informant of the London Times—Disintegration of the Austrian Empire.

NEW YORK, Nov. 1.—A Times' cable from London says: Passing from the all-absorbing war-communications topic, it may be interesting to note how disintegration appears to be rapidly coming over the Austrian Empire. Thanks partly to the efforts of the Ultramontanes and their anti-Semite tools, race hatred is at a white heat and different sections of the empire may be said to exist in a state of half-suppressed civil war. Between Czech and Teuton there seems to be even less room for a truce, and parliamentary institutions have ceased to possess any meaning except to afford an arena for free fights.

One wonders how long Austria can hold together under such conditions. It is always the fashion to say that the break-up will come when the aged Emperor dies, but it is coming now, and I am not sure that the German Emperor is not casting a covetous eye toward the German portion of the Austrian dominions. Austrians do not love the North Germans, and their introduction into the German Empire would by no means strengthen it, were it for no other reason than that it would mean an addition of a large Catholic population, whose opinions would be likely to introduce greater divergence of views into the councils of William's already rather grumbly Empire than prevail now. The answer to this is that the passion for bigness is so pronounced today that we should not be surprised to find the house of Brandenburg trying to augment its power at the expense of the decaying Hapsburgs.

The truth is that all Southeastern Europe is in a turmoil, which looks as though it is approaching a series of revolutions. Wherever we look there we find unrest, from the Golden Horn to Prague, at Vienna, at Budapest and at Cracow. Little principalities like Serbia and Bulgaria are probably destined to be devoured by one great power or another, and we fear that the power most active will not be Austria, well though as Austria has administered Bosnia and Herzegovina. These principalities are simply let alone because Hungary is not untrammelled, and big powers stalling around cannot make up their minds what is to be done with the Turk.

It would be a curious outcome of our quarrel with the Dutch Huguenot burghers of the Transvaal and the Orange Free State were the Eastern question, on the initiative of Russia, to spring into new vitality, threatening final solution, and one must watch all signs of political unrest in that corner of the world with the closest attention. Nothing is going to happen immediately, as far as one can see, but the situation is such as to create the possibility of the worst happening at any moment.

CANAL ROUTES.

Either Line Would Provide a Means for Saving Millions.

PHILADELPHIA, Oct. 24.—The Nicaragua and Panama canals were discussed at the International Commercial Congress today. James C. Monaghan, Consul at Chinnitz, said: "If the Nicaragua canal is built there can be no question that there will be a saving to the world equal to \$400,000,000 a year. Suppose, then, it does cost \$200,000,000; this seems to me to be a mere bagatelle by comparison."

H. A. Gudger, United States Consul at Panama, favored the completion of the Panama canal on the ground that that route is the natural course; that one-third of it is already completed and a new company composed of men of probity has taken the place of the old company and its scandals.

Colonel G. L. Peary, former United States Consul at Colon, said the Panama route is the shortest and most practicable for any kind of a canal, and the only possible one for a sea level canal. He further said that the Panama canal can be completed in eight years for about \$100,000,000, material and equipment being on the spot in nearly sufficient quantities. He claimed that it would take forty-eight hours for a steamer to pass through the Nicaragua canal and only twelve hours through the Panama. In conclusion, he said that the Panama project was held back in the United States by a political clique, which he declared to be working in favor of the Nicaraguan plan.

ORDNANCE FOR OTIS.

NEW YORK, Oct. 31.—A special to the Sun from Washington says: The Bureau of Ordnance of the Army has just completed arrangements to ship to Manila guns, ammunition, ordnance supplies and equipments for use by Otis' army in the coming campaign against the insurgents. The cost of equipping the army in this branch alone will reach several million dollars. Each service has its particular equipments. For the infantry there will be more than 70,000 rifles, for which about 25,000,000 rounds of ammunition are provided. Eighteen million rounds are already on hand in the Philippines and 7,000,000 will be distributed among the different volunteer regiments ordered to Manila. The cost of this ammunition is about \$25,000 for each million rounds, or a total of \$625,000.

The Best Food for Infants

Nature planned that infants should have only milk for at least the first year of life. But thin milk, skimmed milk, will not nourish. It's the milk that is rich in cream, or fat, that does the work. This is because fat is positively necessary for the growing body.

Scott's Emulsion

contains the best fat, in the form of Cod-Liver Oil, for all delicate children.

They thrive greatly under its use. Soon they weigh more, eat more, play better and look better. It's just the right addition to their regular food. The hypophosphites of lime and soda in it are necessary to the growth and formation of bone and teeth.

At all druggists; see and hear SCOTT & BOWNE, Chemists, New York.
