

LAUNCHING THE LARGEST VESSEL IN THE UNITED STATES NAVY.

The armored cruiser "Penn sylvania," which was recently launched at Cramp's shippard in Philadelphia, is not only the largest ship in the United States Navy, but one of the most formidable war-vessels affoat. She is 502 feet long, and is designed to have a speed of 22 knots an hour. A notable feature of her equipment is a water-line armor belt over seven feet wide extending the entire length of the ship on both sides, and having a maximum thickness of six inches. By this means it is expected that the engines and machinery will be made absolutely secure from injury in an attack. The vessel's armament includes two 8-inch breech-loading rifles and fourteen 6-inch rapid-fire guns.
