

TO THE KAUAI PUBLIC

DAMAGING FIRES SWEEP McBRYDE

THE ENDING OF THE SIXTH

I wish to present for your careful consideration the most attractive and best money making oil proposition ever offered to the people of Hawaii. 'Tis true it is a gamble, but a good one. All investments, no matter where you may place your money, is more or less a gamble. Lake View No. 1 Oil Well came in March 15, 1910. The stock cost 90c per share and sold for \$40.00 per share. To make it plain to you 100 shares cost \$90.00 and sold for \$4000.00, a profit of \$3910.00 on 100 shares. Lake View No. 2 is located only 1-4 miles from Lake View No. 1. The Sunset Monarch Oil Company, located between our properties, has just brought in a well which they claim is bigger than Lake View No. 1. Our soil

and log formations are identically the same. We are putting down 2 wellson our property Nos. 1 and 2, and expect to bring in gushers equally as large as the Lake View No. 1 or the Sunset Monarch and expect our stock will sell at as high a figure on the market. The gamble in this case is almost a certainty. We are surrounded with gushers which makes our property proven oil territory.

There is as much difference in the size of oil wells as there are in ships. A Japanese sampan in common parlance is a ship, and the Muritania of 50,000 tons is a ship. You cannot expect very large dividends from a sampan, but you can from the Muritania.

The profits on oil is a fairy tale. No other business can compare with it. No other business could produce a Rockefeller, who, when a young man, toiled for his living, and now draws an income exceeding all the crowned heads and potentates of Europe. Reflect and consider carefully what you are reading; you have the opportunity right now to buy some stock. My price is 50 cents a share. You can remit me by check or post office order to cover the amount of stock you desire and receive your certificate of stock by return mail, or you can remit one third of the amount to secure the stock and the balance payable in 60 days. Everybody should avail themselves of this opportunity. You owe it to yourself to take a chance and better your condition in life. Our tourists, capitalists, and wealthy men were in your position before they became rich. They took a chance, invested their money and made good. Rockefeller could still be a bookkeeper, but he took a chance and his income is now about a million dollars a day.

You can put 200 men to work building a house if necessary, and hasten its completion, but only six men can be employed to put down a well. It takes time to go down half a mile in the ground through rock and the different formations encountered.

I have sold stock to the ablest lawyers in Honolulu. These men have not paid in their money for stock before making exhaustive enquiries from their friends in California regarding the personnel of the officers title and prospects of success of Lake View No. 2. Judging from the fact that in many instances they have double and tripled their stock leads me to believe that the answers received must have been very satisfactory. Another convincing fact as regards our property is that the Standard Oil Company is laying a pipe line with pumping stations at an expense of hundreds of thousands of dollars within 200 feet of our two wells. Anticipating our gushers coming in soon, these people know what they are doing and are preparing themselves to handle our oil which we expect will be in three or four months.

There is a time in the tides of life which leads to fortune. You have the opportunity now. Are you content to be a clerk and live on a clerk's salary, which, as a rule, cannot afford the luxury of an automobile, or buy some stock in an oil proposition that might make you independant for life? Read this carefully. If you have any doubts or questions you wish explained, write me. Show this to your friends. Talk it over --- it concerns you and them. Some men won't buy a genuine \$5.00 gold piece for \$3.00, afraid they may be stung. These men remain clerks all their lives.

I am a large stock holder in this

McBRYDE April 28. A third attempt to destroy growing cane on this plantation occurred here about eleven o'clock last night, which resulted in a small blaze as it was discovered at the start by a watchman, of whom there has been several employed since the second fire which took place Tuesday night.

The first fire was discovered on Tuesday evening shortly after six o'clock. There was small chance for this fire to occur from locomotive sparks, yet suspicions were not aroused until the second fire alarm was turned in shortly after eleven o'clock. This fire proved to be much more destructive than the first, burning over some forty or fifty acres of cane. Hundreds of men turned out who, after nearly four hours of fierce fighting gained control of the flames.

The cane being about ready to cut, as many men as possible were put to work cutting with a view of saving the crop before the juice soured. The second fire, convinced all who first saw the source of its origin that it was the work of incendiaryism and as a result, the management is taking every precaution to protect the interests of the plantation, placing watchman at points where an attempt might be made. The wisdom of such a plan, is indicated by last night's experience, when an alarm turned in by one of these men, prevented what might have been a destructive fire.

company and I positively believe that it will make me big money. I bought this stock at the market price, just the same price as other stock holders paid for it. You can write to any bank in Los Angeles and find out the standing of this company. The stock is offered now for 50c per share. There is not very much left and when sold the price will be par value \$1.00 per share. When we strike oil it may jump to \$40.00 per share, same as Lake View No. 1. I dont know any reason why it should not.

Read this all over again. Write me and make enquiries about anything you wish to know. If you can't buy 500 shares or more, buy what you can and send me 1-3 cash, 1-3 in 30 days and 1-3 in 60 days for the amount of stock you wish to order. Do it now or you will regret it later on.

J. OSWALD LUTTED.

The retiring gentlemen of the Sixth Legislature, have made a record for doing the best work ever known in this Territory and well do they deserve all the complimentary expressions by governor Frear. Our Territory is not what it has been, but instead, is advancing by strides. The improvement noted in the work of the Legislature just closed, over all former sessions, indicates ability on the part of the members to keep apace with the times. It is but natural to suppose that many bills which would greatly benefit the country, were unable to get to the front, and it is also true that, among the many bills passed, some are of a doubtful nature, yet our members have done well, and we are proud of them.

THE BANK OF HAWAII,

Limited

LIHUE BRANCH

LIHUE, KAUAI, HAWAII

Deposits are received subject to check. Certificates of deposit issued payable on demand. Loans made on approved security.

DRAFTS DRAWN ON

Honolulu	Bremen
San Francisco	Berlin
New York	Hong Kong
London	Yokohama

SAVINGS DEPARTMENT

Interest paid on Savings Deposits. 4 1-2 per cent on ordinary and 4 per cent on Term Deposits. Ordinary Savings Deposits will be received \$2,500 in any one account.

SAFE DEPOSIT BOXES
RENT \$2 AND \$3 A YEAR
