MEXICO GETS "HUHU"

The United States Continues to Permit Its Subjects to Be Butchered With Apparent Indifference.

HISTORY TO REPEAT ITSELF

Monroe Doctrine Puts it Up to The United States to Protect Foreign Residents, As Well.

According to latest news from Mexico, the country is in a high state of indignation over the possible intervention of the United States. American and British flags have been torn to shreds and trampled in the streets and a mob marched through the streets carrying the Japanese flag, amidst shouts of derision concerning America and Great Britain. It is practically settled by the Washington authorities that the time for Mexican intervention is at hand.

History repeats itself. It will be remembered that Spain was allowed to drift along pretty much as Mexico has, until the slaughter of several hundred Americans, when the American people took matters in their own hands and in a few decisive strokes, put an end to theatricities. Americans do not countenance war, only as a last resort, but when a hot-headed country continues revolution, with no end in view, constantly committing outrages on foreigners, who are not in the least connected with the issues responsible for the outbreaks, any man with a grain of feeling for his fellowman, must admit that the time has come for a general reckoning. It's up to our Uncle Sammy to step right in and request the fighting belligerents to sheath their sabers, and if they cannot, or will not, then to employ other persuasives of a more effective nature. No other nation in existence would allow its citizens to be butchered as has America and permit those responsible to go unpunished and unmolested for such a length of time. The Monroe Doctrine establishes the United States as a protectorate over the interests of other foreign subjects than American, who own property in Mexico, thus placing the United States under a moral obligation to see that these subjects are protected as well.

BAND CONCERT

The Lihue Band gave its regular monthly concert at the Lihue Park last Sunday afternoon to an appreciative audience. Some special pieces were rendered, which elicited praise.

PASSENGERS ARRIVED

The following passengers arrived on the Kinau last Wednesday morning: Miss J. Purcell, Mrs. G. L. Samson, Walter Samson, Hazel Samson, Miss G. White-man, Miss C. Wong, Mrs. L. T. Baker, Mr. and Mrs. A. D. Hills, J. P. Cooke, Admiral Moore, Mr. Kirwin, Mrs. M. Stevens, N. Inafugi, J. E. Sture, Mrs. W. F. Coombs.

SOME PERSONAL MENTION

Miss Grace Chang, Misses Chung, Miss Yap, and Miss Esther Chang, were among the Kinau passengers for Honolulu last Friday.

The flour of the west is Sperry's Best.

A. G. Hottendorf, instructing printer for the Kamehameha School, is spending his vacation in Lihue, being in charge of the roofing work for the Lihue store.

Califene, small tin 35c, medium 65c and large tin 1.60 guaranteed fresh, at Lihue Store.

Mrs. G. L. M. Samson, accompanied by her daughter, Miss Hazel and son Walter, arrived on the Kinau last Wednesday morning and are guests of Mr. and Mrs. K. C. Hopper.

Mrs. M. Stevens the most popular lady clerk in the establishment of Waitney & Marsh, Honolulu, is spending her vacation on Kauai, being the house guest of Mrs. J. I. Silva at Eleele.

Miss Katherine McIntver one of Lihue's most popular teachers left for Honolulu Saturday where she will spend the balance of her vacation with her sister.

SUNDAY'S BASEBALL

KILAUEA

The game which probably attracted the most attention on Sunday, was that played at Kilauea between the home team and the McBrydes. It was a well known fact that if the Kilaueas could defeat the big champions, and Koloa could defeat the K. A. C's, in Sunday's games, the Koloa's would have an even go with the McBrydes in the race for the second series championship. This very thing did occur and the Koloa team now stands a mighty good chance to annex the championship. This will add greatly to the interest in the sport, by necessitating the playing off a tie. The game of Kilauea, as shown by the scores, was an excellent one, being full of ginger at every stage, and greatly enlivened by the almost continuous rooting of gaily dressed femininity. The game closed with a score of 4 to 3 in favor of the home team.

K. A. C.'s

The Koloa team, filled with self confidence over the recent defeat of the first champion winners, took possession of the Kapaa diamond last Sunday and after a nip-and-tuck game, succeeded in establishing itself on the same shelf with the prospective winner of the second series. Great excitement prevailed throughout the baseball element of the island when it became known that the Koloas had, by winning Sunday's game, gotten up into the winning class, and speculations as to the outcome are flying thick and fast, adherents of both the McBryde and Koloa teams, feeling confident of ultimate success. The Koloa-Kapaa score was 4 to 2 in favor of Koloa.

LIHUE

It looked like old times again last Sunday when Makaweli and Lihue mixed it up in a lively game with the visitors winning out with a score of 8 to 7. There was the usual crop of scraps which would last indefinitely and it seemed that some questionable decisions were given, favoring the Makaweli team. An umpire, a brother to two of the Makaweli players should never have been brought in to judge the game. By doing so, ten men instead of nine, would compose a team. The Lihue team, at times, played excellent ball, especially in the field having three double plays to their credit at the close of the game. On the other hand, they made errors which cost them dearly. In the first inning, Makaweli put two men across the home plate and Lihue came back with three runs. The visitors tied the score in the third, and forged ahead twice in the sixth, the home team making three more runs in the same inning. The eighth inning saw one more man cross the plate for the home team, making the score 7 to 5 in favor of Lihue. But the ninth inning had to be reckoned with and as usual, the home team went into the air, and the visitors scored another trio of runs, putting them in the lead where they remained to the end. This is the third straight defeat of the Lihues in the ninth or extra inning, and the seventh straight defeat from the Makaweli team in three years without a single win.

SUNDAY'S BALL GAMES

August 3.

Lihue at Kilauea.
K. A. C. at McBryde.
Koloa at Makaweli.

STANDING OF TEAMS

	W.	L.	Per c.
Koloa	3	0	1.000
K. A. C.	2	1	.667
Makaweli	2	1	.667
McBryde	1	2	.333
Kilauea	1	2	.333
Lihue	0	3	.000

An Echo From Maui

"You fellows here on Kauai certainly know how to conduct a baseball league harmoniously. Why in Maui we recently had to settle a dispute by the aid of a big army pistol."—O. I. Whitehead.

Manager O. J. Whitehead of the Singer Mfg. Co., accompanied by his little daughter, Miss Alice returns to Honolulu this afternoon.

THIEF IS OVERTAKEN

When a man cannot leave an express wagon on the road for a few hours without having one of the wheels stolen, it would appear that the time had come when police protection would be a mighty sensible precaution.

A week ago last Sunday evening, Manuel Govea, a clerk in the Lihue Store, had the occasion to take an express wagon to Hanamaulu for the purpose of bringing some household furniture to Lihue, and while he was in the house of a friend, a Russian, who had had the misfortune to break a wheel corresponding with those on the express wagon, waited for the cover of darkness, when he removed the broken wheel, replacing it with one of those on Govea's wagon.

The vehicle driven by the Russian contained a number of his countrymen, some from Makaweli and others from Lihue, all being more or less under heavy sail, which would have carried them safely home had it not been that they struck a reef in the vicinity of the Lihue Store, when Govea, having been notified by a passing neighbor that a wheel was missing, had gathered a few volunteers and hurried in hot pursuit. The men were held up, the police notified and the wheel recovered. The next morning the much sobered individuals explained the situation, and were released save one, who was requested to contribute the sum of a ten spot and costs to the county coffers.

Any old thing goes in Hanamaulu because there is no police protection. There is no need to ask why. Everyone knows.

NEGLECTING THE WHARF

The Lihue wharf proposition is being generally discussed, many feeling that unnecessary delay is causing the hold-up. It is claimed that when the final selection was made for our harbor, about half of the necessary amount for the project was then available, and it is this fact that gives rise to the discussions as to the delay—or neglect—as one may view the matter.

NEW ELECTRICIAN HERE

W. B. Thurtell of Honolulu has been employed by the Lihue Plantation to be electrical engineer for the new lighting plant. Mr. Thurtell has arrived and on the completion of a dwelling which is now under course of erection, Mrs. Thurtell and children will be here. They will reside in Hanamaulu.

ROOF GOES ON

Expert roof constructor, Higgins of Honolulu has charge of laying the roofing on the Lihue building. The roof will be composed of felt, pitch and gravel, being a composition known as "five-ply." It is absolutely fire-proof and is being used almost exclusively in Honolulu.

VISITING VANCOUVER

Head Luna Sam Hundley, accompanied by his daughter, Miss Bernice, are on a vacation trip to Vancouver, B. C. They will return home about the first of September.

DIED

William Puaoi Sr., an aged and highly respected Hawaiian residing in Koloa, died suddenly in his beach home at Lawai supposedly from heart failure, at noon last Thursday.

"TEDDU" HOMEWARD BOUND

Mr. E. de Lacey (Teddy) is expected home from his vacation trip within a week or ten days. He has combined business with pleasure during his absence, with the result that thousands of dollars worth of new stock including a large shipment of holiday goods are en route to Kauai, scheduled to reach here in time for the opening of Lihue's big new store.

Otto Kahinu, one of the electricians who was sent down to wire the new Lihue Store returned by the Steamer W. G. Hall last Saturday.

LOCAL FIRM FORMS

At the treasurer's office yesterday morning articles of incorporation of the Hawaiian Canneries Company were filed. Albert Horner, former manager of the Kukui Plantation Company, is slated to manage the new pineapple concern, which will have its principal place of business and general headquarters at Kapaa, Kauai.

The company is incorporated with a capital stock of \$100,000, divided into shares of the par value of twenty dollars each, but with the privilege of increasing the capital stock to \$1,000,000.

Albert Horner, Cecil Brown, J. L. Coke, and E. L. Schwarzberg, are named as the incorporators while the officers are given as follows: Albert Horner, president; Isador Jacobs, of California, vice president; J. L. Fleming, secretary and Cecil Brown, treasurer. These with Arthur Rice, J. L. Coke and C. W. Spitz, constitute the board of directors.

Manager Horner expects to leave today for Kapaa where preliminary work to launch the new concern will be initiated. Because of the recent cut in the price of the canned pineapples, it is stated, the company will start out on a smaller scale than was originally intended and it may be two years before the activities of the new planting interests assume anything like real shape.

Horner has just returned from the mainland where he looked carefully into the field and it was on his report to the local people that it was finally decided to go on with the launching of the new enterprise. Before his departure for the mainland Horner held a number of important conferences with Land Commissioner Tucker, since most of the land which is expected to be brought under pineapple culture consists of homesteads recently taken on the Garden Island.—Advertiser

SHARK AT HANAIEI

Consternation reigned supreme on the Hanalei beach one day last week when a party of bathers discovered the presence of an immense shark which had evidently heard of the famous bathing beach and decided to spend a part of his vacation there. His presence was discovered by Mrs. S. B. Deverill who lost no time in sounding an alarm to those in the water, each in turn, of whom did a marathon to a point of safety. This is said to have been the first shark that has been seen in these waters for many years.

PINEAPPLE PEST NOT SO BAD

Referring to an article as to damage done to the pineapples in the district of Homesteads, Hon. J. I. Silva, the Eleele merchant who is also a pine grower, says that on his plantation the pest has not done a great deal of damage, and that he is rather inclined to the belief that the reported damage of ninety per cent is overestimated. That the pest is damaging the fruit considerably, he says is a fact but that he is quite positive that the damage is much less than the reported per cent. In his own case, for instance being a little less than two per cent. "I am of the opinion," said Mr. Silva to a reporter, "the planter who gives his pines the proper attention, need have little or no fear from the pest. The greatest amount of damage done by the pest is to be found in neglected fields, and as I have said, I firmly believe that precaution in the raising of the pines will obliterate the pest."

Mr. W. B. Woodside of Hono-lulu has accepted a position in the Kauai Garage Co. Mrs. Woodside arrived last Wednesday morning, and they have gone to housekeeping in a neat little cottage on Englewood row.

Panama Canal Data

What is the greatest engineering feat in the history of the world?
Answer—The building of the Panama canal.

Who first planned and began the building of a Panama canal?
Answer—Ferdinand de Lesseps.

What did the United States pay the French New Panama Canal company?
Answer—Forty million dollars.

What great discovery made the building of the canal possible by the United States?
Answer—The discovery that yellow fever was transmitted by the bite of the stegomyia mosquito.

Who heroically sacrificed his life to prove the truth of the theory?
Answer—Dr. Jesse W. Lazear.

What seems almost as marvelous as the construction of the canal itself?
Answer—The sanitation of the Isthmus by Col. W. C. Gorgas, ridding it of yellow fever and largely of malaria, due to the bite of another mosquito, the anopheles.

When did the United States take possession?
Answer—In 1904.

To what one man is the success of the canal chiefly due?
Answer—To Col. George Washington Goethals, "The Benevolent Despot of the Canal."

How long is the canal?
Answer—The entire length from deep water in the Atlantic to deep water in the Pacific is about fifty miles. The canal itself is about thirty-four miles.

How deep will the water be, how wide the canal?
Answer—From forty-five to eighty-seven feet—from five hundred to one thousand feet across the bottom.

How will ships pass from one sea level to the other?
Answer—Through great locks one thousand feet long, 110 feet wide.

What are two of the great engineering achievements of the canal?
Answer—The Culebra Cut through the mountains and the Gatun Dam a mile and a half long on its crest.

When will the canal be formally opened?
Answer—In 1915.

What will it cost?
Answer—Four hundred million dollars.

How will ships pass through the locks?
Answer—They will be towed by electric locomotives.

What is the weight of the giant lock gates?
Answer—From 390 to 730 tons each.

How many miles will be saved between New York and San Francisco? 7,873 miles. New York and Guayaquil? 7,405 miles. New York and Callao? 6,250 miles. New York and Honolulu? 6,412 miles. New York and Yokohama? 3,281 miles.

What effect will the canal have upon the American navy?
Answer—Double its efficiency.

What effect will it have upon the cost of intercoastal transportation?
Answer—Reduce it one-third.

ENGLISH AS IT'S WRIT

Filipino Writer Would Have All His Countrymen Unite In Effort to Uphold Filipino's Reputation.

SUGGESTS SOCIALIST MOVE

Appeals to The Patriotism of His Countrymen to Assist in Promoting The Interests of "Motherland."

The following gem of English literature is from the "Ang Pagkakaisa," Kauai's Filipino paper:

"Dear subscribers, countrymen: I should like you to permit me in expressing my poor thought to 'THE UNITY,' newspapers which were first established here in Kauai with the aid of Hon. E. B. Bridgewater and by the foundation of our countrymen.

So dear readers I inquired too from you the great-full apologize if I admit mistakes, it is because I'm not a boy of wisdom or of characters, as those who was born in time of good such as the orators, Philosophers, Poets and another great men in this world.

Dear Countrymen I grieved for some passover in Kauai, for not having the confederation of our nationality and by the accomplished Filipino, as we are now in this Hawaiian Territory, being here to be as laborers many years ago, we know and observed already, that the influences of the different branches of knowledge by the nations which remained here, and did many good things that they might show to those who do not know the path of "Unity."

Well dear countrymen, I may signifies to that we might make ourselves socialism in order that we should observe the intelligence of what "The Unity," newspapers means. So let us take and subscribe these newspapers for it gives us the most interesting subject; where we can find out the necessary and important things that can help our short humanities.

We Filipinos here in Hawaiian Territory, that was born to our "Mother hand" it's also necessary for us to dig up our mind and show other nations who are still in this islands, that we Filipinos having the most intellectual obedience, as they do; why shall we not use it? Is that because we don't have strength? Oh it is impossible.

As for us I know dear countrymen, if we shall leave it like this, how can we develop our knowledge and help our "Mother land." For my own imagination Mother Land will not be off from the heavy chain that tied her longtime, so if we shall be United, Unity will teach us how to help each other hard to be done to controll ourselves and to be educated. For that reason we are capable to perform our ability to assist our "Mother Land," that lied and suffered to her extended to help her, let us all unite ourselves, there we might liable to arrange in good condition as the most respectful nation any where.

Let us all unite ourselves in right way, and the right manner in a easy word, let us all Filipinos be as a man as other nation do; in case it is not difficult things to do for they could observe ourselves that in a unity a right capacity of self Government and etc."

SINGER MAN LIKES ROADS

O. J. Whitehead, territorial manager for the Singer Manufacturing Co., with headquarters in Honolulu, is paying a visit to the Garden Island in the interest, of his concern. This is Mr. Whitehead's first visit to Kauai, having spent the last five years in Maui, the island that holds second place in the Territory's "good road" reputation, but says in connection with this fact, that our roads have the thoroughfares of the Valley Isle backed clear over the bluff.

EGGERKING IS HURT

Manager Eggerking of the Lihue Ranch Co., was caught beneath a falling horse one day last week, resulting in a fracture of the left hip bone. He was taken to the Lihue hospital and is reported to be rapidly recovering.

ENJOYABLE SOCIAL

A very delightful bridge party was that given by Mr. and Mrs. Harold Morgan Friday evening, those present being Mr. and Mrs. Willie Dean, Mr. Charles Dole, Dr. Derby, and Mr. and Mrs. Harold Morgan. Delicious refreshments served by the charming hostess was one of the pleasing features of the evening.

Miss Louise Day, of the Lihue teaching staff was a passenger for Honolulu on Saturday's Kinau.

TENNIS COURT COMPLETED

A beautiful lawn tennis court has been completed in the Lihue Park and a tournament is about to be organized. As it is, any one imbued with sufficient tennis spirit to raise a racket, is welcome to the use of the court whenever he may wish. A double court has been laid out, but only half of it is complete.

Mrs. W. B. Deas of Hana, Maui, is visiting her sister Mrs. K. Roendahl in Eleele.
