

"EVEN STEPHEN."

The Kams Bring Down the Unknown to the Tune of 11 to 4—Poor Fielding the Cause.

Captain Thompson of the Unknowns hid himself behind the grand stand several times on Saturday and employed a certain small boy to kick him for having in his nine men who, through carelessness or something else, allowed the Kamehameha students to score ten runs in the last four innings of the game.

The students have been putting in some of their spare time during the past week in practice on the old grounds, so they were prepared to take advantage of any bad playing or errors on the part of the Unknowns. Mahuka had the direction of the practice games and had his men thoroughly posted on flies, bunch hits, etc., and when the time arrived for an exhibition of their prowess they did it to the satisfaction of themselves and their friends in the grand stand.

The result of the game does not carry with it any great amount of glory considering the fact that the Unknowns neither batted nor fielded up to their standard.

Willis at first played a good game throughout and Thompson made a catch that caused the spectators to rise in their seats and applaud him with all their might. The distinguishing features of the game, however, were the general bad playing of the Unknowns in the sixth and seventh innings. Following is the score:

A SUBSTITUTE FOR OIL PAINT AND WHITEWASH. AN EXCELLENT FIRE RETARDANT AND DISINFECTANT.

Especially Designed For INSIDE Work on Factories and Public Buildings

It is a dry powder which can be prepared for use by simply stirring in COLD WATER and can be applied by anyone and will always produce good work.

It is VERY WHITE, extremely reflective and hardens on a wall like stone and will take any tint.

It will last for years, and is unaffected by gases. One coat covers better than two coats of oil paint or whitewash.

It can be used on any surface and for all classes of work, even for the finest decorating.

It will not rub, scale or crack, nor will it soften with age or discolor. It will not set in the mixing vessel, in fact it improves by standing a few days.

It can be used to good advantage over old whitewash without scraping. IT DRIES OUT WHITE AFTER BEING WET.

It is cheaper than whitewash, durability considered. It is supplied in barrels from 300 to 400 lbs., also in boxes of 100, 50 and 25 pounds.
